This play is lively and humorous throughout, and was effectively presented by a decidedly competent cast. The newcomers to Kensington Dramatic circles vied for honors with the tried and tested veterans of the amateur stage, and some of the former made a distinctly pleasing impression on the followers of the Theatopian art. The old favorites, however, showed their usual ability in entertaining an audience. Comments on the play overheard by your scribe were for the most part very favorable.

it's the truth!

You CAN have brighter teeth! Impartial laboratories made hundreds of tests. Scientists checked their findings with photoelectric measuring devices and authorize this statement: Pepsodent Powder produces a lustrous smile as bright as the average of all other leading brands—brighter than any of them—bar none! These results have been double-checked by identical twins who made practical in-the-home tests... by technicians in dental clinics... by dentists in their own offices. The result is always the same: Pepsodent Powder makes teeth far brighter. Get Pepsodent Powder to make your teeth brighter... today!

Teeth can change your Personality! Crooked, crowded teeth often do more than mar a person's looks. Frequently, they make that person shy and self-conscious; give them an inferiority complex. But this can be corrected. For today, modern dentistry can do wonders in straightening crooked, misplaced teeth. Or, like the movie stars, you can have chipped and broken teeth repaired. Your dentist will tell you what needs to be done and how quickly you can expect results. Yes... it's the truth... your dentist can help you have sound, appealing teeth; but it's up to you to keep them clean and bright through careful daily brushing!

EYES... ON THE PACIFIC TWO kinds of eyes scan Canada's North Pacific. One, those of the Navy, for signs of enemy action; the other, the eyes of the fisherman, for vital food of war. For this is the corridor down which pass great schools of silver salmon—richest of all the world's ocean prizes. The Pacific Coast fishing industry is breaking all records. During the past three years of war it has shipped eight million cases of canned salmon and herring to Britain... the greatest movement of seafood ever to leave Canada's shores. Two kinds of eyes are on the North Pacific... our future depends upon both.
