Mr. J. Wilfred Boulter, M.B.E., manager of the P. E. I. Potato Growers Association, past president of the Horticultural Council of Canada and one of this Province's most outstanding agricultural executives, died yesterday in Newton Centre, Mass., after an illness of several months. He was sixty-seven years of age.

The late Mr. Boulter was born at Tryon, P. E. I., the son of the late Mr. and Mrs. James Boulter. After graduating from the school in his native village, he received his early education at Prince of Wales College and at the Truro Agricultural College.

After teaching school for some time he was appointed school supervisor in position which he held from 1907 to 1917. He then came to Charlottetown as Deputy-Minister of Agriculture, and also took over the managing of the newly-formed P. E. I. Potato Growers' Association. His appointment as manager was largely due to the initiative he showed in 1918 when, as Deputy Minister of Agriculture, he was instrumental in the development of seed potato growing experiments in the Province.

Mr. Boulter's ability as an executive carried the potato growers' Association through several trying years, and under his direction it continued to grow until its name became a familiar word to buyers of seed potatoes throughout Canada, the United States and Cuba. His reputation as an authority on the growing and marketing of potatoes gained him national recognition.

A handsome donation of \$1,000 was received yesterday from Mr. Milton Bell, proprietor of Milton's Old Spain restaurant. This generous contribution served to engender still further confidence and hope in the Special Names Committee that the objective would be reached.

General Chairman T. Roy Cudmore, while expressing great pleasure and gratification at the progress of the drive to date, stated that the most difficult part of the campaign was yet ahead.

Yesterday Mr. Cudmore and directors of the Y.M.C.A. received a letter from Mr. D.J. Bonnell, Vancouver, in which tribute was paid to the businessmen and general public of Charlottetown for their generous way in which they responded to any public appeal.

Another two weeks should see the completion of the highway between North Rustico and Cavendish. Mr. J. H. Atkinson, Superintendent of the National Park at Dalry, informed The Guardian yesterday.

The highway which runs parallel with the shore is now being used by motorists. Mr. Atkinson said, and can be travelled on from North Rustico to Cavendish. The road will be most difficult when the road is gravelled, a job which should be completed within the next two weeks, Mr. Atkinson said.

Mr. J. H. Phillips, Charlottetown, is the contractor and the work is being done under the supervision of the engineering and construction division, Department of Mines and Resources, Ottawa.
