War Situation Last Night

(By KIRKE L. SIMPSON, Associated Press War Analyst)

Whatever strategic concept Marshal Timoshenko may have had in hurling his armies against the Kharkov pivot of the Nazi southern front on May 8, the essential fact as the spreading battle enters its third week is that he still holds the initiative.

Hitler has lost another precious two weeks' time if nothing else. To emphasize that loss, the expanding battle in the Ukraine rolls into its third week just one month short of the summer solstice June 22. That anniversary has more than astronomical meaning for Russia and the world this year. It will be also the beginning of the second year of the Russo-German war. Hitler announced his war on Russia at 5.30 a. m., Berlin time, June 22, 1941.

Whether Der Fuehrer thought it fitting to celebrate the longest day of the year by undertaking his greatest military adventure, or the timing of his attack was dictated by more practical considerations is of no consequence. What does matter is that he started too late.

Five months later, Nov. 22, the Nazi invasion of Russia reached its highwater mark with the capture of Rostov. Just a week more and the great German retreat had begun at Rostov, a retreat that has been reversed nowhere in the last six months, except on Kerch Isthmus.

What might have happened had Germany been able to strike six weeks earlier last year can only be imagined. What did happen does help to break the spell of mythical invincibility Hitler has so artfully woven to bemuse much of the world. It also largely timed Japan's "day of infamy" at Pearl Harbor nine days after the Nazi retreat from Rostov started, the first German rearward trek of this war.

The Balkan campaign cost Hitler that vital six-week time loss in Russia. The Timoshenko offensive in the Ukraine has already cost him a two-week time loss this year in exploiting and expanding his success on Kerch Isthmus. To what extent it has also saved his reserves in tanks, planes and men is a matter of further postponed delay in the launching of the vast new offensive to "annihilate" Russia is yet to be disclosed.

Mexico Preparing To Declare War On Axis

Reply Re Sinking Of Tanker Is Said Unsatisfactory; Expect Decision Within Few Days.

...MEXICO CITY, May 21—(AP)—Mexico was reported tonight to be preparing to declare war on the Axis following receipt of an unsatisfactory reply from Berlin to the note of protest over the recent sinking of the Mexican tanker Portero Del Llano off the Florida coast.

President Manuel Avila Camacho was said authoritatively to be preparing a manifesto to the country, to be read personally before a special session of Congress within the next few days, demanding that war be declared.

Although some members of the cabinet were understood to oppose such a step, one informed source said that the chances were "95 out of 100" that Mexico would formally declare war on the Axis. Diplomatic relations with Germany, Italy and Japan were broken last December.

The press reported Avila Camacho had summoned his cabinet, his presidential predecessor, Gen. Lazaro M. Cardenas, and high military leaders to meet at the national palace tomorrow to discuss the crisis.

The press declared in big headlines: "Zero hour about to strike in Mexican history."

Although diplomatic, legislative, labor and official quarters expected a declaration of war, business circles and some legislators said that Mexico should not and would not take such a step, and it was understood there was a difference of opinion within the cabinet on the issue.

Sources in touch with the foreign office reported that the German government had refused to discuss the matter.

Army Officer And Several Men Arrested

HALIFAX, May 21—(CP)—One army officer and "several" men have been arrested in an investigation into "irregularities in connection with the handling of gas, tires and certain other commodities."

His statement said both civilians and army personnel were alleged to have been involved in the "irregularities." He did not disclose the names of those under arrest.

Following the investigation made in other portions of the province a thorough inquiry is now in progress locally into the irregularities alleged in connection with the handling of gas, tires and certain other commodities.

At the present time, a mass of evidence is being sifted and statements are being taken, but until this preliminary investigation is complete, the military authorities say they cannot furnish full particulars.

It was, however, definitely stated yesterday that there will be the most rigid inquiry and as in other parts of the district, where there is evidence to justify prosecution, it will immediately follow.

As a result of the inquiry up to date one officer and several other ranks have been placed under arrest pending a preliminary hearing.

Says Tremendous Strides Made In Plane Output

OTTAWA, May 21—(CP)—Munitions Minister Howe today told the House of Commons that Canada's aircraft industry was "making tremendous strides" and that production was increasing every week.

This was particularly so, he said, in view of the fact that three large plants now were re-tooling for new types of aircraft.

The Minister said details of types could not be made public but that a large, four-engine bomber type was to be made in Toronto aircraft plants where re-tooling was now going forward.

This meant considerable laying off of workers temporarily but he said they would all be absorbed.

Discussion of aircraft production marked the afternoon sitting at the House when J. L. Leclerc (Lib. Sheffield) referred to reports that Ontario's flour bill this year would be \$88,000,000 and asked what that meant for dealers of "best" flour.

First Soldiers Arrive, London Sources Report

Marshal Timoshenko's Forces Continue Swift Sweep Towards Kharkov; Danger Seen in German Counter-Drive In South.

LONDON, May 22—(Friday)—(CP)—Polish army units trained in Britain have arrived in Russia to fight the Germans again, informed circles said today.

These well-equipped troops, formerly stationed in Scotland, are joining other Poles who were once Russian war prisoners, and it was the first instance where soldiers have left Britain for the Russian front except for R. A. F. and ordnance specialists sent there to supervise the speeding of supplies to the Red army.

MOSCOW, May 21—(AP)—The heavily fortified Nazi defence line guarding Kharkov has been breached at one point in a furious 40-minute onslaught which wiped out a key German stronghold and carried Marshal Timoshenko's tanks and troops on six miles into an open battle field held only by German infantry and scattered pillboxes, Red Star said tonight.

Along with this swift new sweep toward Kharkov, prime prize of 10 days of the fiercest fighting of the spring campaign, the army newspaper outlined these developments on the eve of the 12th month of the war.

In the far north: Picked Russian troops, wading waist-deep in icy water, skirted 12-13 miles around an enemy flank in Karelia, killed or wounded 3,000 Finns and Germans in a surprise assault, then pushed on 12 miles more, cutting one of the enemy's main roads to the north.

In the south: Gen. Viktor Von Schwedler's German counter-drive into the Barvenkova-Lyman sector 20 miles southeast of Kharkov, menacing the flank of the Russian offensive, has been checked. In the Crimea, outnumbered but determined Russian troops still cling to the eastern tip of Kerch peninsula, blocking the short cut to the Caucasus.

Adding to this, Pravda, the Communist party newspaper, said that behind the German lines strong

Two Turkish Cargo Ships Reported Sunk

ISTANBUL, May 20—(Delayed)—(AP)—Shipping circles reported today that two Turkish cargo vessels had been sunk in the Black Sea in the past two days, both by gunfire from an unidentified submarine. Crews of both were saved.

These were the first Turkish sinkings reported in nearly six months. Last autumn unidentified submarines took a heavy toll of small Turkish boats plying between Turkish and Bulgarian ports with cargoes for Germany.

News Briefs

MEXICO CITY, May 21—(AP)—A foreign office spokesman said tonight the government is investigating reports that two motor Mexican ships were sunk off the coast of Brazil.

OTTAWA, May 21—(CP)—Navy officials declined comment tonight on the statement in Washington today by Rep. Gehrmann (Prog-Wis.) that proper precautions already taken by the Canadian government will prevent repetition of the German submarine raid in the St. Lawrence River.

WINNIPEG, May 21—(CP)—Lt.-Col. C. F. Ritchie of Montreal, vice-chairman of the Bucks Fund of the Canadian Legion War Services, announced here today that 40,000 cigarettes are being sent to members of the Winnipeg Grenadiers and Royal Rifles of Quebec, held prisoners by the Japanese at Hong Kong.

WASHINGTON, May 21—(AP)—A small Norwegian merchant vessel from the Atlantic coast, the United States Navy Department announced today, and survivors have been landed at an east coast port.

MEXICO CITY, May 21—(AP)—The foreign office announced tonight the Axis nations had rejected Mexico's note of protest and demand for "complete satisfaction" over the submarine sinking of a Mexican ship.

OTJUDAN TRUJILLO, Dominican Republic, May 21—(AP)—The 923-ton Dominican steamship Presidente Trujillo was torpedoed and sunk by a submarine (its afternoon with the apparent loss of 24 lives when only an hour out of the French Martinique port of Fort de France, Dominican officials announced today. The captain and 14 other crewmen were landed at Martinique, it was said.

Sees revival of Canadian Shipbuilding

HALIFAX, May 21—(CP)—Navy Minister Macdonald today told members of a Halifax service club that he was embarking on a program of naval building that "may well point the way to a great revival of the shipbuilding industry in the Dominion."

He said, "The day will come" he said, "when Canadian craft will carry the white ensign into every port in the world."

Already two-fisted fighting ships of the Canadian Navy were helping to protect the world's sea-borne commerce, he said, telling how the Dominion is providing convoys for almost one-third of the ships crossing the Atlantic. "The day will come" he said, "when Canadian craft will carry the white ensign into every port in the world."

One Per Cent Lost

Ninety-nine per cent of these ships conveyed by the three countries are reaching their destinations safely, he said, adding that only one per cent have been lost making

86 Exhausted Men Picked Up

BRIDGETOWN, Barbados, May 21—(CP CABLE)—Exhausted by many days in a lifeboat, 86 men from a ship of unidentified nationality have been brought here reporting their vessel a victim of enemy action.

Despite exposure to the sub-tropical sun and long days of thirst after their water ran out, the ship's crew was almost intact. The number of men lost had been amazingly small.

The survivors landed at various points along the coast of this island.

Inquest Opens Into Death Of Crapaud Man

An inquest was ordered yesterday by Coroner Dr. W.B. Howatt of the death of a man known as Crapaud Sturdy, 27, of Crapaud, He died in the Prince County Hospital yesterday morning. He was taken ill unexpectedly on Sunday.

A jury was impaneled and an autopsy ordered. The hearing adjourned until June 4. Only witness was Dr. Everett A. Bell of Borden, who told of being called to treat Sturdy on Sunday. The man was complaining of pains in the stomach. Later he was removed to hospital.

An operation was performed for what was described as a ruptured spleen. His condition continued critical and he died yesterday morning shortly after 7 o'clock.

John E. Campbell is jury foreman. Other members include: Earle Campbell, Chester Palmer, George A. Bowers, Arthur Crue, Amos Hubler and Wilfred Maynard.

Last night the body was released for burial. Funeral services will be held Saturday from the home of the father of the deceased, Thomas Sturdy. Burial will be in Crapaud Cemetery.—S

19 Boston Fishing Boats Taken Over

BOSTON, May 21—(CP)—The United States Navy has taken over 19 diesel-powered fishing boats, approximately one-half of the Boston fishing fleet.

The craft will go into service as mine sweepers or mine layers, and each will be taken over as soon as it returns from its present trip. The Massachusetts supply of fish will be seriously affected since each of the 19 boats going out of service helps the supply with an average of 500,000 pounds of fish a year, it was estimated.

Each of the boats carries a crew of 21 men, many of whom are citizens of the Maritime Provinces and who will be thrown out of work by the Government's order. Only a few, such as engineers, will be retained.

FOUR DEAD, TWO MISSING

MONTGOMERY, Ala., May 21—(AP)—Gunter Field counted four British cadets dead tonight and two missing in the worst tragedy of its history, blamed to a great extent on a night of training planes encountered by 35 training planes last night between Attmore and Evergreen, Ala.

Those who crashed, all flying separate ships, were members of a flight which left Gunter Field yesterday on a day-night cross-country training flight.

New Process For Synthetic Rubber Found

NEW YORK, May 21—(AP)—A new process by which the raw materials for synthetic rubber and an improved quality of aviation gasoline can be produced simultaneously from petroleum was announced today by W.S. Farish, president of the Standard Oil Company (New Jersey).

The new method, worked out by scientists of the standard oil development company, a subsidiary technical organization, will be made available to other oil companies under the system of patent licences now being used, Farish said. He estimated it would increase by 2 1/2 to three times the potential capacity of plants now under construction for turning out butadiene, a synthetic rubber raw material.

...MEXICO CITY, May 21—(AP)—Mexico was reported tonight to be preparing to declare war on the Axis following receipt of an unsatisfactory reply from Berlin to the note of protest over the recent sinking of the Mexican tanker Portero Del Llano off the Florida coast.

President Manuel Avila Camacho was said authoritatively to be preparing a manifesto to the country, to be read personally before a special session of Congress within the next few days, demanding that war be declared.

Sources in touch with the foreign office reported that the German government had refused to discuss the matter.

Howe Enlarges On Statement Re Oil Fuel

OTTAWA, May 21—(CP)—Munitions Minister Howe today told the House of Commons tonight that it would be available for "protect" those whose heating equipment is oil burning and not convertible to the use of other fuels.

The minister made the statement in reply to a question from D. G. Ross (Con. Toronto-St. Paul's) who asked if anything had happened suddenly to prompt the minister's announcement yesterday that heating equipment would be available for heating purposes next winter.

(In his statement of Wednesday, Mr. Howe told the House "there will be no rationing of oil next winter in homes or in factories anywhere.")

Tonight Mr. Howe said in cases where oil burners could not be converted to coal and new heating installations would be necessary "we will endeavor to protect them," the minister said. It would be difficult to supply new furnaces.

"Everyone knows that the oil situation is extremely critical," he said. "A statement on the whole situation regarding next winter's fuel possibilities would be made within a week."

Mr. Howe's announcement came just before the House adjourned and the minister did not go into any details.

Ferry Black (Cons. Cumberland) observed that the Prince Edward Island ferry had been converted from coal to oil burning within recent months.

Mr. Howe said it was because of the difficulty of maintaining steam with coal when the ferry was held up by ice and the fact that there was no stand-by ferry at the present time. The change might be deemed to be in the interests of public safety.

LONDON—(CP)—If Britain equipped 50,000 gasoline-burning vehicles with producer gas equipment instead of 1,500 as now the saving in petroleum fuel would be 500,000 tons annually, it is estimated.

...MEXICO CITY, May 21—(AP)—Mexico was reported tonight to be preparing to declare war on the Axis following receipt of an unsatisfactory reply from Berlin to the note of protest over the recent sinking of the Mexican tanker Portero Del Llano off the Florida coast.

President Manuel Avila Camacho was said authoritatively to be preparing a manifesto to the country, to be read personally before a special session of Congress within the next few days, demanding that war be declared.

Plea From Maritimes

When the House moved into (Continued on page 9, Col 4)

Hanson Comments On Gas Ration Complaint

SAINT JOHN, N.B., May 21—(CP)—Conservative House Leader Hanson said in an interview here today that he "will press for a return of the (five-gallon) gasoline coupon) ration as soon as it is logically possible to do so."

Mr. Hanson, who received an honorary degree Tuesday from Mount Allison University at Sackville, N.B., was in Saint John today on business.

"I do not believe the oil controller had any idea of discriminating against the Maritime Provinces," he said. "There is a scarcity in this area, but I am sure the two gallons per coupon will be only a temporary condition."

"This situation is not a pleasing one, we all know, but we must not forget there is a war on. I don't want to make any party issue of this matter but I will certainly press for a return of the ration as soon as the gasoline supply situation itself improves."

Another re-acton occurred here today when the New Brunswick Automobile Dealers' Association and The Saint John Automobile Trade Association, in telegrams to Ottawa, contended that if coupons had been reduced to four or three gallons in Ontario and Quebec a number of tank cars distributing gasoline to points in those Provinces could have been released to supply the Maritimes.

Cheese Plans Discussed by Mr. W. R. Shaw

Deputy Minister Says No Solution Yet For Fertilizer Problem.

Mr. W. R. Shaw, Deputy Minister of Agriculture returned yesterday from conferences at Ottawa and Moncton. He was accompanied by the Hon. J. L. Leclerc, A. G. Taylor, Minister of Agriculture, Fredericton, New Brunswick. The main reason of the trip was to discuss with the Federal Department of Agriculture matters pertaining to the marketing of cheese during the present season. During 1941 cheese prices in the Maritimes sold through the New Brunswick, and Prince Edward Island Cheese Boards reached market levels of a very satisfactory nature for cheese factories. The demand for export cheese, last season was particularly keen and to protect export commitments movement of cheese from Upper Canada to the Maritimes was restricted for certain months in the year. It was felt by Maritime authorities that if some such arrangement were made for the year 1942, better all round conditions would prevail in the market. In discussing these matters with Federal authorities it was pointed out, stated Mr. Shaw, that there has been a tremendous increase in cheese production in Canada during

Hong Kong Is Barred To Red Cross Vessel

BUENOS AIRES, May 21—(AP)—The Argentine foreign office announced tonight that Japan had agreed to permit an International Red Cross representative to visit Hong Kong to investigate reports that British and Canadian prisoners, but had rejected a proposal for sending a Red Cross supply ship.

Argentina represented the United Kingdom's interests in Japan until April 29 and then withdrew at London's request after the United Nations was decided to make a unified representation through Switzerland.

Both President Ramon Castillo and Ruiz Guinazu, however, had appealed earlier for a Red Cross ship after British and Canadian diplomats here requested the Foreign Office to investigate reports that prisoners had been maltreated at Hong Kong, Singapore and other places occupied by the Japanese.
