200 DEATHS CAUSED BY TYPHOON

Thousands of People Homeless in Southern Luzon Island.

(Canadian Press)
MANILA, Sept. 8.—Deaths caused by the typhoon which swept Southern Luzon Island had increased to more than 200 today, with thousands of persons homeless in the stricken areas. Reports of additional casualties were received from the devastated regions near the town of Infante on the western coast of Tayabas Province. The United States destroyer Edsall was enroute to the east coast of Luzon for relief work while many planes surveyed the stricken district. Thousands of persons were reported to be homeless and hungry. A water shortage in Manila, caused when the typhoon broke a big water main, was relieved by emergency flumes which brought in a small flow.

ACCIDENTAL DEATH

(Canadian Press)
SHERBROOKE, Que., Sept. 7.—A verdict of accidental death was returned yesterday by a jury investigating the death of Clayton Bailey 30, who was shot by his father, Hollis Bailey, while on a hunting trip near Sawyerville, last Thursday. The jury found that the father seeing a movement in the bush near where they had previously shot a deer, fired and killed his son.

ANNOUNCEMENTS, COMING EVENTS, MEETINGS, ETC.

- Ice cream and dance in Orwell Hall, Monday, Sept. 9. 7815-9-9-11
- Dr. Giff, M. D.—Start now home prevention cure, Purdy Station, Westchester Co., N. Y., U. S. A. 6-7-11. Sept. 12pd. 7774-9-7-21

This is a most important meeting, and a full attendance of all interested is respectfully requested. W. B. Trowsdale, President. 7788-9-9-21

Period Of Unrest May Be Expected

JERUSALEM, Sept. 7.—Admission has been made by persons closely in touch with the situation in Palestine that although the British Government has matters firmly in hand an extended period of rest requiring large forces of troops may be expected. Although the country has grown noticeably more peaceable the last two days there were continued reports of minor disorders, and clashes between British troops and Arabs and between Arabs and Jews.

DATE SET FOR PLEBISCITE

HALIFAX, Sept. 7.—Tuesday, October 31st, is the day on which balloting will take place in the Province-wide liquor plebiscite, it was announced yesterday by Hon. E. N. Rhodes, Premier of Nova Scotia. An order-in-council, naming the last day on which the plebiscite could be held under the legislation providing for it was passed by the Government yesterday.

Election will be called upon to settle the two questions: whether they favor the repeal of the Nova Scotia Temperance Act, and whether they favor some system of Government Control of the sale of liquor.

EDUCATION COM. MEETS AT WOOD ISLANDS

Much New And Interesting Evidence Presented.

Thursday afternoon the Education Commission met at Wood Islands. Evidence was given by H. M. McDonald, Wood Islands West; Malcolm A. Beaton, Flat River; Ghas. S. McDonald, Wood Islands East; Miss McDonald, Belle River; Captain Purchase, J. C. McMillan, Wood Islands, and others. It was the consensus of opinion that the present supplement system be abolished, and that the government should collect and pay salaries. The need of more normal training was stressed. The raising of revenue by an educational tax to meet any increase was suggested, and considerable emphasis was given to the necessity of absorbing, where possible, small schools into the nearby schools with the resultant graded school. The value of the graded school rather than the miscellaneous school was pointed out, and the example of Flat River graded school, famous in the past for its output of scholars, was given as an outstanding illustration of the greater efficiency which was found in the graded school. There was some doubt expressed on the value of agricultural training in the schools, and it was said that such teaching was not now needed, because of the instruction now made available by the agricultural departments of the Province and of the Dominion, by travelling lecturers and demonstration farms. The use of the phonograph records for teaching certain subjects was advocated. A minister of education and an independent non-political board were suggested. It was felt that there was not sufficient contact between the department and the people. It was pointed out that teachers in the future at schools have to buy for themselves all the text books used in all the grades at considerable total cost, and that some effort should be made by the department to reduce this cost to the country teacher, now placed at a disadvantage to the city teacher handling only one grade. The commission will meet in Mount Stewart this afternoon, and in Eidon and Vernon River on Tuesday, which will be the last day of meetings in the country.

Died Suddenly

Lord Mersey died suddenly at his residence in Littlehampton, Eng., at the age of 88. Following the Titanic disaster Lord Mersey was commissioned to inquire into its cause. He was also president of commission of inquiry into the Empress of Ireland catastrophe.

Briand Will Discuss Plan

(Canadian Press)
GENEVA, Sept. 7.—Some discussion has been aroused here by non inclusion of a representative of the Irish Free State among invitations to a luncheon Monday at which Premier Briand of France will go into further detail on his plan for a United States of Europe. The suggestion has been heard that neither Great Britain nor the new state will be included in the confederation, neither being maintained as states.

The project has been discussed with considerable feeling by some of the national delegations here the smaller nations representative arguing it might result in domination in industry and commerce of European nations. Another point raised is that abolition of tariff barriers would increase direct taxation and involve a total change in the fiscal policies of the nations.

DREAM LEADS TO TREASURE

ATHENS, Sept. 7.—Two astounding cases of dreams coming true have excited the interest of the Greek Physical Research Society, which has made a special record of them. A poor woman, a refugee from Asia Minor, living at Koutsikari, near this city, told her husband that she had dreamed for three nights in succession of two men and a woman wearing old-fashioned dress, who had told her to dig up the ground at a certain spot a hundred yards from their home.

The woman's husband and three workmen accordingly went to the place and started to dig. After making a hole about five feet deep, they had almost satisfied themselves that there was nothing there; but at that moment the woman herself took a hand and in a few minutes had uncovered some bones, as well as an antique funeral urn and various inscriptions recorded on plaques. The Society of Antiquaries has reported them to be of the time of Pericles.

A similar occurrence happened almost on the same day. A mason told his colleagues that he had dreamed of discovering a treasure, and later while digging the foundations of a building near the seminary at Athens he found a small vase filled with gold pieces. These proved to be Persian coins of the reign of Darius.

TO SUBMIT PROTOCOL TO PRESIDENT HOOVER

GENEVA, Sept. 7.—The League of Nations tonight received a cablegram from the U. S. Secretary of State, Henry L. Stimson, indicating his intention to submit to President Hoover for signature a special protocol providing for admission by the U. S. to the World Court. The message explained that the protocol would later be sent to the United States Senate for ratification. It was adopted here two days ago by the delegates of forty countries belonging to the Court.

RETURNS FROM BANDITS GET EXHIBITION PAYROLL

Hon. B. W. LePage Reports Island Potatoes The Best Shown At Canadian National Exhibition.

Hon. B. W. LePage, Prince Edward Island representative at the Canadian National Exhibition, Toronto, arrived home Saturday night. Interviewed by The Guardian Mr. LePage stated that the Island exhibits in the Maritime Booth in the Dominion Building attracted much attention. While each Province had a separate sign, the exhibit was featured as a Maritime booth.

Speaking about the potatoes exhibited, Mr. LePage said that the finest potatoes there were the Prince Edward Island Irish Cobblers; they were much superior in size and quality to those exhibited by the other provinces. This also seemed to be the impression of the thousands of visitors to the booth. All the potatoes exhibited in the booth were featured as "Maritime" potatoes.

Mr. LePage explained that each province had a register, and the representatives in charge were kept busy answering questions with regard to the products, tourist accommodations, transportation facilities, etc., of each province. A list of the names registered, about fifty percent of which were Americans, will be supplied each Province. Much literature prepared and furnished by the Government and Publicity Association was handed out. The exhibit building was crowded from 9 a. m. till 10 p. m. Mr. LePage was pleased to report that the Maritime booth seemed to attract more attention than any of the other booths.

Mr. Burnaby, Maritime Trade Commissioner at Toronto, and his stenographer, Miss Owens, were very busy during the exhibition and gave valuable assistance in boosting the Maritimes. Taken all in all, Mr. LePage states the exhibit was a gigantic success, and from an advertising point of view was of great importance to the Maritimes.

150 DROWNED

(Canadian Press)

HELSINKI, Finland, Sept. 8.—One hundred and fifty persons mostly school boys and girls were drowned today when the Finnish steamer Juru sank in a heavy storm while plying its regular route from the town of Tammerfors to the village of Juru. Only fifty of the two hundred passengers were saved. The Juru sailed from Tammerfors about 2:30 p. m. and the disaster occurred ten minutes after she had cleared the harbor. The steamer dipped her bow into a huge wave and did not right herself. Some passengers rushed in getting into the lifeboats upsetting them. Some of them clung to some of the overturned boats. Others of the party saved were picked up out of the water. A number of the passengers said that they escaped death by smashing out windows in the cabins.

Prayers For Rain

TORONTO, Sept. 7.—Prayers for rain will be offered in the Anglican churches of Toronto on Sunday, following a special request from the Bishop of Toronto, asking the clergy to include in the regular order of service the prayer provided in the prayer book in which the petition "Send us, we beseech Thee, in this our necessity, such moderate rain and showers, that we may receive the fruits of the earth to our comfort and to Thy honor," appears. Practically all over Ontario rain is much desired by farmers and growers of fruit, vegetables and grain. Moderate rains would be of great benefit, particularly to the late crops, which, though ripening, would continue to grow were the necessary moisture applied.

Bandits Get Payroll

(Special to The Guardian)
MONTREAL, Que., Sept. 7.—Three armed bandits robbed the Dominion Coal Co. of \$10,000 early today at Lafontaine Park and Frontenac St., when they held up a car containing four employees on their way to the Frontenac branch of the company. The money comprised the payroll for the branch and was in charge of four men, including a guard. The car containing the payroll had been followed by another heavier car which pushed the first machine off the road at the Frontenac St.-Lafontaine Park intersection. The men, masked and armed with shotguns held up the employees and demanded they hand over the payroll. The men in the car complied with the request and the bandits quickly disappeared. Several shots were fired after the fleeing automobile and one shot took effect, smashing the glass in the rear windshield, but it is not known whether any of the robbers were hurt.

Urged to Give Up Rights In China

(Special to the Guardian)
NANKING, China, Sept. 7.—C. T. Wang, foreign minister, informed newspaper men today he was mailing new notes to the United States, Great Britain, France, Norway and the Netherlands urging them to give up their extraterritoriality rights in China without delay. Dr. Wang said the note to the United States would be mailed today, to Great Britain and France tomorrow and to Norway and the Netherlands next week. He said there had been no change in the Sino-Russian situation since last week, that China was awaiting Soviet approval of the Nanking draft of a joint declaration for the operation of the Chinese Eastern Railway and a report from the Chinese minister at Berlin, who at present was in Geneva.

Longworth-Buntain Wedding

Saint Paul's Church was the scene at high noon Saturday of the marriage of Eileen Victoria, daughter of Mr. and Mrs. Charles H. B. Longworth, Hillhurst, to Mr. George Hedley Buntain, son of Mr. and Mrs. H. V. Buntain.

The church was decorated with white and yellow flowers while the guests' pews were marked with bunches of sweet peas and yellow snap dragon tied with white satin ribbon. White and yellow gladioli were on the communion table. The pastor, the Reverend H. D. Raymond, officiated and Miss Earle presided at the organ. The bride, given in marriage by her father, wore a white satin gown, the train falling from the shoulders. Her long tulle veil fell to the end of her train and was held in place with a bandeau of orange blossoms with clusters of the flowers at each side. She carried a bouquet of Ophelia roses, lilies of the valley and white heather, and wore the gift of the bridegroom, a diamond and platinum bar pin.

The bride was attended by Miss Lillian Bingham, of Ottawa, as maid of honor and Miss Norah Longworth, sister of the bride and Miss Lorna Weeks, cousin of the bride as bridesmaids. They were gowned alike in ambre chiffon dresses with chiffon coats trimmed with a darker shade of velvet. Their hats of ambre felt were trimmed with the same velvet and they wore ambre crepe shoes and carried bouquets of chrysanthemums to match their gowns, wearing amber necklaces, the gift of the bridegroom.

The groom was attended by Mr. Clarence H. Cameron and the ushers were Mr. John P. Hillon and Mr. Harry B. Wood of Montreal. During the signing of the register Mrs. J. A. Lawson sang "On the Wings of Song," (Mendelssohn) and "I Love You Truly," (Gossett) (Gossett) (Gossett). A reception and wedding breakfast followed the ceremony at the residence of the bride's parents, "Hillhurst," which was beautifully decorated with flowers.

Touring Canada

Hon. J. Monson, son of Lord Monson, Burton, Lincoln, Eng., who is making a tour of Canada, following completion of law studies at Oxford.

Aero Trains Planned

(British United Press)
LONDON, Sept. 7.—There is now under construction at the Cargo Fleet Iron Works, Middlesbrough, the girder work for a remarkable railway which is to be tried out somewhere in Scotland when the inventor has completed his full sized model.

Suspended from an overhead rail track, cigar-shaped trains, driven by airplane propellers, are to be used on this new system, which has been evolved by George Binnie, of Edinburgh. The tracks will be suspended from an overhead structure, on the top of which will be a broad roadway. The supports are to be so built that no tunnels will be necessary. At high speeds the streamline cars will rise slightly, taking their weight from the overhead rails; and it is claimed that speeds as high as 100 miles per hour will be achieved with comparative ease. Travellers will join the trains by means of lifts to the platforms.

The approximate cost of constructing a double line of overhead airplaneways is calculated to be approximately \$95,000 a mile, compared with nearly three times this figure for rail tracks of the ordinary type.

Ten Days Heat Wave Is Cause Of Beer Famine

PARIS, Sept. 7.—Placards advertising "no more beer" in letters several inches high last night adorned the windows of some of the largest and most important Paris cafes in the vicinity of the opera, the Bourse and the Grand Boulevard in mute testimony to the thirst that has reigned here during a ten days heat wave.

Paris has gone dry as regards beer but not from choice. Its citizens have literally drunk it dry. One afternoon paper today calculated that 7,342,000 glasses of beer were consumed in Paris and its suburbs Thursday alone although it furnishes no means of checking up on its statistics.

Democrats To Attack Bill

WASHINGTON, D. C., Sept. 7.—Following a conference yesterday between Senator Robinson, Democratic leader, and the Democratic members of the Finance Committee, Senator Robinson announced that Senator Simmons on Monday would offer a motion to consider first the administrative provisions of the tariff bill. These will include the flexible tariff which the Democrats will seek to repeal. Later on, Senator Robinson said, he would favor a move to confine the bill to agricultural rates.

The Democrats plan to attack the bill in a long general debate at the outset. Insurgent Republicans will not co-operate with them. Senator Robinson expressed the belief that the tariff measure could not be enacted before next winter, and said he thought it now unlikely there would be a bill enacted.

HEADS BAR ASSOCIATION

(Canadian Press)
QUEBEC, Sept. 7.—Hon. R. B. Bennett, Leader of the Opposition at Ottawa, was elected president of the Canadian Bar Association this morning succeeding the Hon. Wallace Nesbitt, K. C. of Toronto. Other officers were elected as follows: Dominion vice president, Louis St. Laurent, K. C., Quebec; Prince Edward Island, Judge Inman, Charlottetown.

QUEBEC, Sept. 7.—Lord Hanworth, Master of the Rolls of the British law courts, last night addressed the Canadian Bar Association on the evolution of the English law in evidence. In a brief scholarly paper, Lord Hanworth traced the laws of evidence back to the time of William the Conqueror when the courts showed little consideration for the accused and when judges could imprison juries if they were dissatisfied with the verdict. Thus in the trial of Sir Nicholas Thromokorten for treason against Queen Mary in 1554, the jury returned a verdict of not guilty and were immediately put in prison and only released some months later on payment of a heavy fine.

Trade Balance In Canada's Favor

(Special to The Guardian)
PARIS, Sept. 7.—Comparative figures for trade between Canada and France for the first six months of 1929 show that it has been definitely in Canada's favor. A balance of 280,000,000 francs in Canada's favor may explain in part the sensitive attitude adopted by France with regard to tariff and postwar financial adjustments. Roughly imports amount to 560,000,000 francs and exports to 270,000,000 francs. French imports of cereals dropped considerably in the same period last year, but the increase this year over 1927 totals 150,000,000 francs. While French imports have been steadily increasing, exports to Canada fell 85,000,000 francs in the first half of 1928, and an added 22,000,000 francs in the same period in 1929. Canada's balance of export over imports for the past three years amounts to 284,000,000 francs.
