

HELPLESS RIPLE FROM RHEUMATISM

Toronto Lady "Fruit-a-lives" And Cures It. 4 HOME PL. TORONTO. DEC. 15th, 1909. "I was a helpless riple from Rheumatism for nearly 1 1/2 years. All down the right side, the pain is dreadful and I could not move for agony. I was treated by two physicians without benefit. Isaw "Fruit-a-lives" advertised and decided to try it. After taking one box, I was much better. When I had taken five boxes, I could use my arm and thain was almost gone. After taking five boxes, I was entirely well again. The cure my case by "Fruit-a-lives" was indeed splendid because all the doctors failed to even relieve me. "Fruit-a-lives" cured me."

FACTS AND FIGURES FROM BULANDSHAHR

(Continued from page 2.) -gathered around the Christ, there is a very large outer circle composed of those who again and again have come to us with the call "Tell us too the story of Jesus". The sorrow of it all is we have to turn these crying ones away because of the paucity of our workers. Indeed if during the year we baptize a tithe of those under instruction we will be attempting the impossible (for God) in trying to shepherd and indoctrinate them. In response to this question: "How many more workers are needed on your circuit in order to care for your Christians, and have your present list of inquirers so taught as to be ready for baptism within a year?" The six circuit riders (of bicycles) gave answers aggregating a need of forty additional men. These will cost from 35 to 50.00 each per annum. Who will help us precious souls to win? Yours in His name, J. THOS. ROBERTSON, Dis. Supt. Methodist Episcopal Mission, Bulandshahr, India.

THE WESTERN GUARDIAN

-IT PAYS to buy in this Province -THE MORNING DAILY Guardian can be obtained at Laferty's Tonsorial Parlors, Summerside. -MR. FRANK LAFFERTY is Guardian Agent in Summerside. His office phone is 26. -GUARDIAN AGENT.-Mr. Archibald Ellis is Guardian agent at Port Hill. He will gladly receive news and subscriptions at Post Office, Port Hill. -CLIFTON HOUSE.-J. W. Zirk, Brockton; W. J. Kent, Bathurst; W. Croker, Stellarton; J. W. Douglas, Toronto; E. J. Amey, T. Barker, Montreal.-J -SUBSCRIBERS should renew a week or two before the time they have paid for has expired and thus not miss an issue, as all papers are discontinued promptly on expired date. -SCHOONERS ARRIVE.-The schooners Minnie Belle, from Port Elgin with lumber for M. F. Schurman & Co., and the Malabar from Pictou with coal for Read & Co., arrived in Summerside yesterday.-J -OFFICERS ARRIVE.-Capt. and Mrs. Major, the new officers in charge of the Salvation Army Corps at Summerside, arrived Saturday night and held their first service yesterday, which was well attended. Capt. and Mrs. Major were formerly stationed at Parrsboro, N. S., from which place they were transferred to Summerside.-J -SPECIAL TRIP.-In order to relieve the congestion of freight that has been collecting at Summerside from day to day the Express made a special trip yesterday taking 800 bags starch, 350 bags oats, 150 bags potatoes and 1050 lambs, shipped by H. J. Jones. Returning she brought over one car each of lime, flour, wire and metal roofing which will be used on the roof of the new rink at Alberton. She arrived in Summerside at 5.30 p.m.-J -TUG ARRIVES.-The tug Mersey, Capt. Weston, arrived in Summerside on Saturday. The Mersey in returning to La Have from Northern New Brunswick, the captain reports of having a rough time of it on Monday, having lost part of his tow, a large scow which broke away off Miscou. He recovered it the next day only to lose it again on Wednesday, when within 20 miles of its destination. The remainder of the tow anchored off Miscou while the tug went back to look for the missing scow, but owing to the rough weather had to return without it.-J -BUSY SHIPPING PORT.-Schooner traffic was quite busy in Summerside harbor on Saturday. The schooner Ralph, loaded with oats by Joseph Reid & Co., for Pictou; the J. B. Martin with a full cargo of produce loaded by Joseph Reid & Co. for Canso; the Minnie M. Mosher, loaded at the dock with 5000 bushels of produce for Lunenburg shipped by Wm. Calbeck; and the Laura Cox, with oats and a general cargo for Buctouche all left port on Saturday. The schooner Iona with coal from Hastings for Holmans, Ltd., the general Middleton, with coal from Sydney for Grady & McNeill and the Annie D. with coal from Pictou for Holmans, Ltd., all arrived on Saturday.-J -PLAYERS VS. SHOW BIRDS. To build up a strain of great layers calls for as much scientific knowledge and care as it does to produce superior show birds. But in the work of building up champions of either class a far different treatment exists. To have strictly first class egg producers, it is necessary that they be bred exclusively for that purpose and after the strain has been established it must be followed by judicious and scientific mating. It is not so much a matter of bred as it is the way the hens are handled that makes them prolific layers. It was said at one time that Leghorns and the rest of the Mediterranean class were the champion layers, and that the Asiatics were the poorest. Yet we have proof that in very many cases Brahmans outlayed Leghorns. The secret is to breed only from the best layers of the flock, and to have all hatches early. Early layers will as a rule produce early layers. Good layers begeth their powers to their offspring. Another point is to stick closely to purebred stock. Of all the phenomenal records we have heard of, not one has been credited to a common scrub hen. Tray nests must be used in order to become accurate in the work. There is no other positive way of telling how good a hen is. The ability of each hen should be annually noted, and from the cream should come from the next generation. It is important, too, that the stock be strong and rugged. No matter how good utility blood is in the veins of the selected bird, if she is not from a hardy race she will not be able to show her physical powers. It is a rule among marketmen that a pullet that will not lay before January and a hen that delays operations until February are poor investments from a laying standpoint. They cost more than they are worth. It is not always the early layer that gives us the best record. I have had pullets that began laying in October and quit in December, and did not start before February. On the other hand I had pullets begin in December and keep right along. In creating our laying strains we should aim to have good winter laying rather than a good year-round record. A dozen eggs in winter are worth two dozen in summer. It is not the number of eggs we get but rather the amount of money that we receive for them that counts. So much for producing our layers; what about our show birds? The fancier mates according to the "standard" requirements. He does not for a moment stop to inquire how good laying powers the hen has. He does not concern himself about an early yield; in fact he does everything to prevent it. A fancier breeding for shows in January takes pains that his pullets do not lay before the exhibition takes place. It is therefore not possible to secure an early and consequently prolific egg strain from stock hatched for January, or even February shows. So in breeding, it has been proved that the two strains must be bred separately. Egg-strain fowls are not show birds, and neither are show birds egg strains. One authority tells us that chickens hatched for early shows, November and December, may be much better than those hatched for January and February shows but they will be poorer show birds. In fact, if pullets for the fall shows they would hardly be able to win in mid-winter shows, the laying having developed them into hen shape.

TRAINING IMMIGRANTS FOR FARMING LONDON, Nov. 7.-Hon. Rupert Guinness calls attention to the scheme to train intending emigrants for Canada in farming operations. He has recently established a training farm in Surrey on which a few weeks' course is given in handling cattle and using implements. The farm is being fitted up on Canadian lines as far as possible. It is not a charitable institution, a moderate charge being made for board and a nominal fee for instruction. The manager of the farm is a graduate of the Guelph Agricultural College.

An Operation For Appendicitis Was Ordered by His Doctor, But Complete Cure Was Effected by Dr. Chase's Kidney-Liver Pills. Almost anyone who has suffered from appendicitis will assure you that this trouble developed only after months or years of derangements of the liver and bowels. Appendicitis can almost invariably be prevented, and very frequently cured, by the use of Dr. Chase's Kidney-Liver Pills. In the case described in this letter the doctor has ordered an operation, but a thorough cure was brought about by this great medicine. Mrs. J. A. Ballantyne, Sturgeon Falls, Ont., writes: "My husband was treated for appendicitis, and the doctor ordered an operation. But he would not consent to an operation and began the use of Dr. Chase's Kidney-Liver Pills. Since doing so he has had no need of an operation, or even of a doctor, as the trouble has completely left him. I cannot find words to speak our gratitude for his cure. Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

Na-Dru-Co Laxatives accomplish their purpose with maximum efficiency and minimum discomfort. Increasing doses are not needed. 25c. a box at your Druggist's. TABLE MANNERS FOR CHILDREN Do not sit sideways on the chair or lean back in them. Never put your elbows on the table. Do not make playthings of either the food or silverware. Break a small piece of bread from the slice. Never butter and attempt to eat from the entire slice, or even half the slice. The mouth should be wiped with the napkin both before and after drinking. Be sure to swallow all food in the mouth before taking a drink. Do not look at people through the bottom of the glass as though it were a field glass. Sip the soup quietly from the side of the spoon. Medium-sized spoons should be provided for children. Do not put either spoon or fork further in the mouth than is necessary. Put just enough food on the end of the fork to make a proper-sized mouthful. Do not tip the plate for the last drop of soup. Never put the potato skins, egg shells etc., on the tablecloth. Either put them on the side of the plate or ask for a saucer.

When you need a good remedy for any ill try one of the Rexall Remedies.
