THE HIDDEN RICHES OF COCOS ISLAND

Expedition Seek Treasure--Admiral Palliser, Who Accompanied Earl Fitzwilliams' Party to the Cocos Islands, Foretells Failure for Latest Adventurers.

LONDON, April 21.—Admiral Palliser announces that he will have nothing to do with the new treasure-hunting expedition to Cocos Island, which it is reported is being fitted out in America. The admiral, who accompanied Earl Fitzwilliams on his expedition, in the Veronique, probably knows more about the location of this famous treasure than any other living man, and he does not hesitate to announce that this searching party is doomed to failure from the outset. Admiral Palliser in explaining the situation said: "In the first place, the chart possessed by the party is undoubtedly false. It is only one of many which were sold to treasure seekers some years ago. Then when the island is reached—and that will be in the rainy season—it is almost certain that the treasure seekers will not be allowed to work, for a syndicate, of which it is reported Harold Grey, Mr. Montgomery and Captain Kennedy are the principals, holds a concession from the Costa Rica government for exploiting the whole island, and until it gives this up, no one else can work there. This syndicate has been working the island for the last two years without success. "It was mainly on account of the existence of this concession that Earl Fitzwilliams' expedition failed. The earl's party found it impossible to interfere with the syndicate, and could only work by its consent in certain parts of the island. There is absolutely no doubt that two great treasure hoards are hidden on the island. One, a pirate treasure, is valued at between \$20,000,000 and \$30,000,000, and the other, known as Keating's treasure, is said to be worth \$15,000,000. The former consisted of masses of gold and silver ornaments and Scotch ingots. They were originally seized by the Spanish in Mexico and Peru, and were being carried away in Spanish galleons when a notorious pirate, Captain Don

Pedro Bonita, attacked and captured the vessels and concealed their freight in a secret cave in Cocos Island. "Keating's treasure was obtained in much the same way. The Spaniards, who were being driven out of Peru, collected all of their valuables in Lima and placed them for safety on the British steamer Mary Dier. The captain and crew being overcome at the sight of so much gold and silver, murdered those in charge and sailed to Cocos Island where they also hid their vast treasures. Retribution followed swiftly, however, for a Spanish warship went in pursuit and finding them at the island, executed seventeen of the crew. The Spaniards never found the treasure, and the captain of the Mary Dier, escaping to Canada, handed over the secret of the hiding place before his death to Captain Keating of Nova Scotia, Keating twice visited the island, and on each occasion returned home with \$10,000 worth of gold. This treasure was also seen by a man who was afterwards killed in the Chilean war. "The search for these two treasures has now been going on for between seventy and eighty years, and the only hope for their recovery is the work of an expedition fitted out with all of the necessary appliances and men, such as Lord Fitzwilliams' expedition, and guided by those who have some actual knowledge of the hiding places."

By Regulating The Food System NEARLY ALL THE MOST COMMON ILLS OF HUMANS ARE PREVENTED AND CURED BY DR. CHASE'S KIDNEY-LIVER PILLS.

"When our food is properly digested and assimilated, the waste matter promptly excreted and all the organs working in harmony we are well. When any derangements of these functions occur we are sick. "If we wait to consider for a moment what a large proportion of such derangements arise from constipation of the bowels, torpidity of the liver and sluggish action of the kidneys it is not difficult to understand the far-reaching effects of Dr. Chase's Kidney-Liver Pills as a means of preventing and curing disease. "One of the results of our artificial modern life and more especially that of winter, is too much eating and too little exercise. The liver and kidneys are overworked in their effort to remove the excess of waste matter, and when they fail in this work disorders of some kind are bound to arise. "It is usually with the liver that trouble begins. The bile which should be poured into the intestines to aid digestion and insure healthy action of the bowels is left in the blood to poison the system. "Headache, biliousness, liver complaint and constipation are followed by uric acid poisoning, kidney disease and rheumatism when the kidneys play out. "Dr. Chase's Kidney-Liver Pills begin by relieving the action of the liver and bowels, and thereby effecting a thorough cleansing of the whole filtering and excretory systems. By this means constipation, biliousness, indigestion and all their accompanying symptoms are removed. "Then by their direct action on the kidneys they purify the blood uric acid poison, which is the cause of rheumatism, backache, lumbago and all the dreadfully painful and fatal diseases of the kidneys. "In the newspapers have appeared from time to time thousands of letters from persons who have been cured by Dr. Chase's Kidney-Liver Pills. In the majority of the houses of Canada this great family medicine is constantly kept on hand as a preventive and cure for these common ills of life. One pill a dose; 25 cents a box; at all dealers or Edmansson, Bates & Co., Toronto.

GASOLINE POWER

The name "Mianus" applied to a marine gasoline engine has always stood for the highest art in marine gasoline engine construction and "Mianus" engines are today recognized as the standard of quality the world over. Mianus engines stand more abuse, give more speed, are steadier, have fewer parts to get out of order, than any other engine. Our best advertisement is the engine itself, every engine sells others. If you are building a launch, or if you are thinking of buying a launch, be sure that the engine is the best that money can buy; there is no worse mistake you can make than buying an engine that "fools" you every time you go to start it, also be sure that the engine will give the speed that you want to get out of your boat; Mianus engines always start promptly, and according to their size are more powerful than any on the market. We sell—Launches (complete ready to go in the water), Power dories, lobster dories, fishing dories, sail yachts, sail boats, row boats, yacht tenders, skiffs, punts, and fishing sloops. For illustrated catalogue and price list write to James Elliott, St. John, N. B.
