LARTER TRIAL WAS CONTINUED

Chester Martin was the chief witness at the resumed hearing of the charge of forgery against Harry Larter at the police Court yesterday. His evidence, summarized, is given herewith:

I reside in Charlottetown. My home is Mitchell River. I have known Larter for a month and a half. The prisoner took a cheque to me the last day he got paid off. He wanted me to change it, and make it $17.50. I did not do it. Larter wanted me to keep the cheque and he would come around and do it. He came back in about two hours time.

He asked me why I did not change it. I told him I thought he was only fooling. He took the cheque. I saw him two days later. He brought two blank cheques. He wanted me to fill out one for $7.50. I wrote out a cheque and he snatched it out of my hand.

Martin testified that he wrote the cheque for $7.50 and that it purported to be signed by G D Longworth & Co., Larter offered to give him three dollars when he would get it cashed. He saw Larter since he had been released from jail and Larter had told him to swear he had never seen the cheque. Larter wanted him to go to New York and had showed him a picture of a friend of his who would get him a job.

Martin swore he had written the check because he thought Larter was only fooling him.

The testimony of Martin's father was also taken, and the case was then adjourned till Monday next.

The Correct Adjustment

of glasses is a matter of considerable importance. The beneficial effect of one's glasses may be largely nullified by ill-fitting mounts.

We pay particular attention to the correct fitting of mounts, so that the full benefit of the lenses will be obtained.

We supply the lenses of such shape and size as will be most becoming in each individual case. This is possible because we grind our own lenses and make them any desired shape.
