A NEW ENGINE.—Engine No. 1422, known to the railroad profession as a 30 per cent engine is the latest addition to the rolling stock of the P. E. Island Railway. This is the largest engine yet brought to the Island and is for the wide gauge line. Some alterations had to be made at the entrance to the round-house in order to allow the engine to enter the building.

RETURNED FROM THE WEST.—Mr. Weston Rollings of Rustico returned Tuesday night from Western Canada where he spent the past month visiting his brother, Mr. Guy E. Rollings, who is engaged in farming at Plato, Sask. Mr. Rollings is not particularly enamoured of the west and is firmly convinced that Prince Edward Island is good enough for him. He is also firmly convinced that many former Prince Edward Islanders, now in the west, would gladly exchange their privileges there for an opportunity to try their luck again in old P. E. Island. Somehow, he says, things do not always pan out as expected in the west. Many farmers own immense tracts of land, some of them three or four sections. As much as possible of this land is cultivated and seeded and in the spring the prospect is bright for the past crop. There, almost invariably, something happens. If it is not a hail storm it is frost; if frost fails to come there is a drought. In almost every instance the promising crop turns out either less than half the expectation or falls utterly. He saw a number of men with large holdings, nominally valued at many thousands of dollars, whose crops were utter failures for three and four years in succession. The crop this year runs about at an average of half average and many of those who had lost everything in the drought of the past three or four years just about recovered themselves and came out square. Mr. Rollings says he would not exchange his 110 acre farm at Rustico for a whole county of prairie land. One of the great enemies the western farmer has to contend with is a weed called "tumbling mustard." This weed is blown by the wind over miles of land, takes root and grows in a day or two to the size of a small spruce tree. It is exceedingly difficult to eradicate and is very injurious to growing crops. One of Mr. Rollings' great objections to the west is the quality of the water there. During his months stay he never had a drink of decent water, the only water available being from dug-outs saturated with alkali and almost unfit for human consumption. The conclusion of the whole matter, in Mr. Rollings' opinion is that those who are comfortably situated in this province will be very much better off if they remain here than if they go to western Canada.

MILLINERY.—The latest from New York—at Patons Big Show-ing. 2991-9-24-31.

BOARD OF TRADE.—The regular quarterly meeting of the Board of Trade was held in the central Kings Council Chamber of the town of Montague P. E. I. on Monday afternoon the 20th. inst. at 4 o'clock p.m. and after the usual business was disposed of the following delegation was appointed to represent this Board of Trade at the coming conference in Amherst on the 29th. inst. of the Maritime Board of Trade. S. C. Knight, president; Central King's Board of Trade, Georgetown, John A. McDonald, Georgetown, and J. G. Ives, Montague. The above delegation was instructed to press the matter of the widening of the gauge on the island at those points where the work has not yet been completed but more especially east of Charlottetown, the placing of the second car ferry between the ports of Picton, N. S. and Georgetown, P. E. I. and improved railway service and freight accommodations at those points where such service is not at present adequate, and to co-operate with the other Boards of Trade on the island and elsewhere in such projects as they think would be beneficial to this province in particular and the Maritime in general.

REMEMBERING THE HOSPITALS.—Some generous gardeners and farmers are acknowledging their gratitude for bountiful crops by making donations of vegetables to the hospitals, a most praiseworthy manner of thanksgiving and one which many other farmers and gardeners might well follow with advantage to themselves and benefit to the deserving. The hospitals are dependent largely upon the beneficence of the public, the fees exacted—and very often not exacted—not being sufficient to meet ordinary running expenses. The farmers this season have had good crops and a little donation of vegetables, eggs or other produce to the hospitals would be a fitting acknowledgement of thankfulness. The Prince Edward Island Hospital receipt of a bushel of tomatoes and a peck of onions from Mr. James Lewis, Brighton and three bushels vegetables from Mr. W. K. Rogers. Small gifts from the many would aggregate very considerably in the running expenses of the hospital while they would scarcely be missed out of the abundance on the farm. It is hoped this good old custom of a thank offering to the hospitals will not be forgotten this season.

SCHOOL FAIR AT NINE MILE CREEK CENTRE.—The Nine Mile Creek School Fair was held in the Afton Hall on Thursday, Sept. 16th, and was a decided success in every respect. The commodious hall was artistically decorated for the occasion by the teachers with ornamental leaves, fruit and flowers. There was a large display of exhibits consisting of vegetables, grain, fancy work, wood work, confectionery, flowers, cookery and school work. There being two school districts without teachers there were only 160 or more entries. There were a very large number of entries of turnips, with potatoes, tomatoes, beets and cucumbers, also several immense pumpkins. The teachers worked hard to make this, the first School Fair ever held at West River a success; and when the judges arrived they found all the exhibits tastefully arranged, complimented the teachers, and proceeded to their work without delay. A lively interest was manifested by the farmers, as a large number of prominent farmers from Nine Mile Creek, Rice Point, Long Creek and Fairview left their work, taking their families with them, to spend the day at the fair. The commodious hall was crowded with visitors. There must have been over two hundred or more visitors. Hot lunches were served in the rear of the hall and sports were conducted in the adjoining field by the judges. Much credit is due the teachers, Misses Bertha Webster, Madeline and Blanche Moisaac and Miss McKenzie, for starting this fair, inspiring pupils and satypayers, finally carrying it to a successful issue. The teachers take this opportunity of thanking the trustees of Nine Mile Creek for services rendered all the day of the fair, also all the people who contributed prize money.

PERSONALS

Mrs. O. Inman, Vernon River, is visiting her old home at York.

Mr. A. J. McNevin, Bonshaw, was in town yesterday.

Miss Helen McKenna of Charlottetown visited Georgetown Thursday.

Miss Ethel Messervy, city, leaves this morning to enter upon studies in Toronto University.

Grafton V. Inman is spending the week in Idaho, having recently visited friends at Vancouver and San Francisco.

Mr. George Vessey, York, celebrated his 86th birthday, Wednesday and was the recipient of congratulations from his many friends.

Mr. Frank Callaghan formerly of the Post Office Staff, left this morning enroute to Montreal, where he will enter McGill University to take up the study of law. Mr. Callaghan's many friends wish him every success.

Love is blind. That's why a man in love is unable to distinguish between an angle and a goose.

AT THE STRAND

LAUGHTER AND TEARS! BRING THEM WITH YOU AND SEE

MARY MILES MINTER
IN "Anne of Green Gables" FROM THE FOUR "ANNE" BOOKS BY L. M. MONTGOMERY

You'll need them! and you'll need to hold your sides, too, to keep from splitting over the antics of "Orpint" Anne. Really she ought to have been a boy.

And She had way of snuggling a right in to Your Heart.

But then she has a "Serious Side" also, and well did the Villagers know it, especially the Pie Family!

You simply can't watch mischievous Anne in her many pranks and escapades without feeling that tickling sensation around your funnybone. You'll enjoy every moment she's on the screen.

Its better than a tonic! Anne of Green Gables has been read by more women than any other book of this generation

CANADIAN BOYS FOR CANADIAN SHIPS

THE NAVY LEAGUE is the only Institution in Canada which supports the dependents of Sailors who lost their lives during the War. Your freedom is the result of their efforts and sacrifice. Support this worthy cause by becoming a member of the Navy League. The Prince Edward Island Division of the Navy League of Canada will have a booth at the Exhibition Building and all visitors who are not now members are invited to call and make a subscription of \$2.00 which entitles the contributor to one year's membership in the official magazine "The Sailor". In addition to Sailors' Relief, the Navy League is now carrying on the important work of training boys for the Canadian Merchant Marine, is establishing a Navigation School at Charlottetown for the Maritime Provinces and supplies a Home for Sailors visiting the port.
