CHANGES OF GERMAN OPINION REGARDING BEER The Germans have long been regarded as beer-loving race. Nevertheless, at a recent meeting of the German Association of Neurologists and Psychiatrists, the purpose of which was to deal with "trade" attempts to advertise beer as a wholesome and beneficial article of diet, the following was passed:

The German Association of Neurologists and Psychiatrists is bound to consider any claim that beer is healthful by virtue of the calories contained therein as an attempt to mislead the people. Because of the high percentage of alcohol, beer can by no means be regarded as a true article of food, or even harmless. It is hereby affirmed that alcohol has a deleterious effect upon several tissues of the human body.
