### For 30 Years, Canadians Have Cured Catarrh with Chester's Cure

People know Chester's Cure. They know what it has done. They know what a safe, reliable remedy it is. And they have every confidence in its power to relieve and cure Catarrh.

Chester's Cure is purely vegetable. It is free of alcohol, cocaine and other dangerous drugs. To treat one's self, simply ignite a small quantity and inhale the smoke. The vapor is aromatic, pleasant—never upsets the stomach—and the mere act of breathing carries the healing smoke to every part of the diseased tissues.

Insist on having Chester's Cure. If your druggist has none in stock, enclose 50c or \$1. to the Canadian agents,

### Fatal Accident Narrowly Avoided in Sash and Door Factory.

A serious accident was narrowly avoided in the engine room of the Tryon Sash and Door Factory, on Saturday morning, when the cylinder burst throwing pieces of steel around the room. Fortunately at the time no person was about the engine and thus probably saved themselves severe injury. The mill will be closed down until the engine is repaired, Mr. Ives thus suffering a heavy loss at this busy period of the year.

The ice for the Tryon Dairying Company amounting to about 6000 feet, has been furnished by the contractor Herbert Thomson. It is said that the ice for this year is the best that has been furnished for many seasons.

Our contingent to the military school at Fredericton N. B. for a short course of instruction left on Monday morning. The party consisted of five, viz.—Sgts. Clayton Morrison, Harris Boulter, Corporal B. Nicholson and J. Nicholson, with Colour Sgt. Cyrus Martin in charge.

One of our most promising young men, Clayton Campbell, left on Tuesday for Charlottetown, where he will take up Commercial work in the Charlottetown Business College. Doubtless he will make many friends in his temporary abode. Best wishes for his success follow him from all those with whom he came in contact in this village.

The new winter van which is being used in conveying the scholars to the Consolidated School was built by Thos. McNeill, proprietor of the Tryon Carriage Shop. The box is twelve feet long and three feet wide, with a seating capacity of thirty children. The seats are arranged along each side and are nicely cushioned, which adds to the comfort of the children. Much praise is given Mr. McNeill for this compact, comfortable and much valued van.

Miss Millie Gamble, who is attending Prince of Wales College, spent her Xmas holidays at her home in this village.

## REASON No 1 WHY YOU SHOULD USE Red Rose Tea

Because it is composed of both Indian and Ceylon teas.

The tea bush is indigenous to Assam in Northern India, and botanists are of the opinion that it is the parent species of all the cultivated varieties in India, Ceylon, China and elsewhere. In a wild state, it grows to a height of fifteen to twenty feet, but the cultivated shrub is only three to four feet high.

Assam being the natural home of the tea bush, it is not surprising that this and other districts in Northern India produce the richest, most pungent teas grown in the world—teas that command higher prices than even the finest Ceylons; but Ceylon teas are very flavory and fragrant, and seem to be specially made to blend with the richer, more syrupy tea of India. When combined, the Ceylons give point and piquancy to the liquor; the Indians, richness and strength.

The distinctive characteristic of Red Rose Tea, that rich, fruity flavor, is obtained by blending these fine Indians and Ceylons; and another very important feature of Red Rose Tea, viz., its uniformity of flavor all the year round, is secured the same way, something not possible to obtain where Ceylon or Indian teas are used alone.

The Blue Label is recommended, and unless you like very strong tea, use only three-quarters as much for a drawing as you use of other teas.
