

YESTERDAY'S STOCK and BOND QUOTATIONS

Third Quarter Survey Shows Gains Continue

Period Was Rather One of Consolidation, However, The Financial Post Finds

Economic recovery in Canada industrial activity which has fallen during the third quarter of 1934 showed a further slight extension...

The period was, however, rather one of consolidation than marked advance. While definite evidence of expansion were apparent in some major industries...

Business conditions during the quarter were maintained at a level about 12 per cent higher than in the same period of last year...

Many Impressive Gains. The most significant changes, in addition to those mentioned above, are as follows:

Railroadings were 9.8 per cent greater. Newspaper production was up 10.6 per cent.

Steel ingot output was 37.6 per cent higher. Passenger automobile production gained 36.6 per cent and trucks 73.8 per cent.

Construction contracts awarded were 22 per cent higher. Imports gained 14.8 per cent and exports 10.4 per cent.

Farm product prices were up 6.3 per cent, wholesale prices in general being 3.1 per cent higher.

Employment showed a gain of 15.2 per cent. Percentage bond yields were 13.9 per cent lower than in 1933.

Some Recessions Evident. There were a few reductions as compared with the third quarter of 1933 of which the outstanding were:

Silver shipments were down 6.8 per cent. Wholesale prices of manufactured goods were 4.3 per cent lower.

Wheat flour exports were off 16.9 per cent and production 11.9 per cent. Raw cotton imports were 11.9 per cent less.

Many Countries Decline. The advances in Canada were at marked variance with experience in most of the leading world countries.

Rural Improvement. Agricultural conditions are considerably improved over a year ago, the immediate situation being affected by higher prices for almost all farm products...

Construction remains the one L-1972. The former was out of a litter of seven and has produced different litters of seven, two of them Champions one a world Champion.

The other has won three first prizes and sired a fox which was Grand Champion for two consecutive years as well as Reserve Grand Champion of last year's show.

He has six sires from a Grand Champion Adult female, said fox was also a Reserve Grand Champion of the show.

All my stock has been in and lined bred, my best individual dam a record for in-breeding as his Grand Dam, Gr. Grand Dam, Gr. Gr. Grand Dam, Gr. Gr. Gr. Grand Dam and his Gr. Gr. Gr. Gr. Grand Dam is the same fox.

A lot of good pups for sale, as I am only keeping a few individuals as all my males are polygamous.

During the next few weeks will be in the city with the exception of Wednesdays.

WEDNESDAY'S Stocks Sag In Dull Trading Session On Mt'l. Market

(C. P. By Guardian's Special Wire) MONTREAL, Oct. 30.—The Montreal stock market sagged under its own weight today. Traders saw nothing stimulating in the news or in the performance of Wall Street.

Nearly all the active leaders were off from yesterday's close, although throughout the list there were a few small gains and some other issues clung to previous closing levels. Trading was dull.

Most of the other leaders were however, down fractions. Brazilian 1-8 at 11. B. C. Power 3-8 at 27 1-2 and St. Lawrence Corporation 25 cents at 1.00.

Montreal Power was fairly active and slipped 1-2 point at 31 1-2. International Nickel which also attracted some attention after inactivity in the early part of the session was down 1-8 at 22 3-4.

Canada Cement was more favorably accepted and advanced 1-4 at nothing stimulating in the news or in the performance of Wall Street.
