INSTEAD OF PAINT

DON'T paint your pretty home this season, but use instead Velvex Creosote Shingle Stains. By so doing, you can bring out all the beauty of the wood. And think of the preservative value. Velvex Shingle Stains contain Creosote, the greatest wood preservative known. This means prolonged protection against wind and weather. It therefore means economy.

Velvex Creosote Shingle Stains
 Half the Cost — Twice the Wear

Velvex Creosote Shingle Stains cost about half as much as paint. And they wear much better because they penetrate the wood. They do not evaporate or dry out and of course they cannot peel off. These stains come in any color you want. They are very easily applied. You ought to investigate them. We have the complete line and we know you will like them. Write us for a sample of wood stained with Velvex Creosote Shingle Stain.

Britain's Share In Great Offensive

(Canadian Press Despatch.)
 PARIS, Oct. 1.—(Correspondence.)—Writing in the Gaulois on Great Britain's share in the war, General Zoullinden says:
 "When Great Britain saw the Germans brutally invading Belgium, violating the most sacred treaties of Europe, and threatening her own interests, she did not hesitate. Filled with indignation and a very lofty sense of duty, Great Britain made a manly plunge without counting the cost, into the most dreadful struggle which the world has ever witnessed. The services which Great Britain has rendered us were of great and immediate value. By sea she protected our shores and Colonies, safeguarded our communications with Russia, America, an dthg rest of the world. A little Dardanelles you can find a single trace of dandruff or falling hair and your scalp will not itch, but what will please you most will be after a few weeks' use, when you see new hair fine and downy at first—Yes—but really new hair—growing all over the scalp.
 A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and scraggy, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effects is amazing—Your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable lustre, softness and luxuriance.
 Get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter, and prove that your hair that has been neglected or injured by careless treatment—that's all you surely can have beautiful hair and lots of it if you will just try a little Danderine."

form a powerful reserve army and give a heroic reply to the German thrust against Verdun. To-day the British Armies are well-equipped, well-officered, and well trained. Inspired by a lofty idea, they are doing wonders on the Somme front. No wonder has been so fine as the enthusiasm of their fighting celebration of "France's Day" on July 14, and the ardour with which they stormed three of our villages on that glorious day, singing the "Marseillaise." The same ardour is shown in every battle. Yesterday their heroism shone again fiercer and more victoriously than ever at Fiers, Martinpuich, Courcellette, Thierval and Combles. Behind the superb and unflinching bravery of these fine troops there is their number, which is growing continually in spite of daily losses, and constitutes an absolute guarantee for the success of the Allied cause and of that of humanity against barbarism. In order to make this military effort and at the same time supply the armies with the necessary equipment, arms, guns, and ammunition, Great Britain had to make extraordinary financial and industrial efforts. The devotion and enthusiasm of the British Empire will for ever be one of the wonders of history. France admires and will never forget Great Britain's marvellous effort.

GERMANY'S POLISH LEGION COLLAPSED.

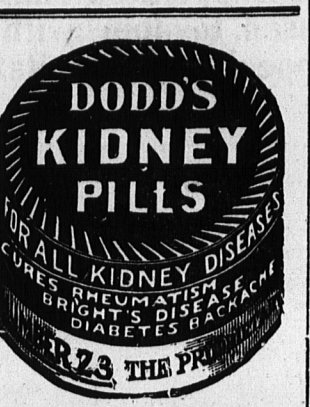

LONDON, Oct. 20.—A despatch from Berne, Switzerland, to the Wireless Press says:
 Germany's Polish legion has collapsed. After long efforts and creative pressure, Germany and Austria Hungary succeeded in enrolling 18,000 Poles. They were divided into six brigades.
 "Four brigades untrained at the beginning of October and they were disarmed and imprisoned in the East-Litovsk Barracks. The remnants of the legion were sent to the interior of Austria, the troops being considered unreliable."

GERMAN STORY PURE FABRICATION.

BERLIN, (via wireless to Sayville) Oct. 21.—An eye-witness of the Zepplin attack on England on Sept. 23, according to the Overseas News Agency, says that bombs hit the Grimby Barracks, killing more than 400 soldiers, and that about 60 men were killed on board a cruiser which was hit by a bomb. It is said that Regent street, London, was for the most part laid to ruins.
 A cablegram from London, to night, bearing on the above, says: "The Press Bureau appends a note to a wireless despatch from Berlin relative to the alleged 'gigantic damage' done in England by the Zepplin raids on Sept. 23 and Oct. 2, which declares such statements to be 'judicious fiction' and adds:—
 "The Secretary of the Admiralty states that there is not a word of truth in the statement that a cruiser of warships were damaged. No warship or merchant ship, nor any man belonging to the navy or mercantile marine was touched by Zepplin."

What are Peps

Peps are the new treatment for coughs, colds and lung troubles. They are little tablets made up from Pine extracts and medicinal essences. When put into the mouth these medicinal ingredients turn into healing vapors, which are breathed down direct to the lungs, throat and bronchial tubes. The Peps treatment is direct. Swallowing cough mixtures into the stomach, to cure ailments and disorders in throat and lungs, is indirect. Peps are revolutionizing the treatment of colds, as their price is within the reach of all. 50c. box all druggists, or Peps Co., Toronto.
