P. E. I. C. C.—Applications from intending students continue to flow in from nearly all parts of the Province. These come from persons of good common sense and good judgment. It is only right to conclude that a college which has never had a dissatisfied student must be a good institution for young people to avail themselves of. No student has ever missed the mark who received his Business Course under Principal Oxenham. The latter has been a teacher all his life and knows his business. He knows what the young people of this Province require, and he takes pains to supply it. This College works so smoothly and satisfactorily, that students have written to say that the pleasantest period of their lives was spent there. The new term opens on the 19th inst., at 9.30 a. m. Come at once and take a Business Course or a Shorthand Course.

BICYCLE ROAD RACE.—The people of Tryon and vicinity had the pleasure of witnessing the best bicycle race that has ever been seen on a road of P. E. Island since the wheel was first introduced here. The race was over a five mile course, starting at North Tryon Corner and following the road, encircling what is known as the Tryon Block, ending at the starting point. Although a large number of entries were received, only two faced the wire, for the others withdrew when they found out that the two scorers, Frank Creamer and Arthur Reid, were going to start. On the report of the revolver both sprang away with the rapidity of one of Long Tom's swift shells. Only about one mile of the race course was visible, each way from the starting point. Soon the racers appeared on the finishing stretch amidst the cries of "Here they come!" Reid held first position until nearing the last lap when Creamer with a terrific burst of speed won the race in the marvellous time of 15 min. 15 sec. He was carried triumphantly on the shoulders of his many friends to the dressing room. The judges were: Bjerson Reid, Frank Lang, James Chisholm.
