WHAT COST WOULD BE UNREASONABLE.

The following appears in The Railway and Marine world for the month of December:—

"Prince Edward Island Tunnel.—The Premier of Prince Edward Island returned to Charlottetown from a visit to Ottawa, Nov 5. In an interview he said the Dominion Government has promised to make a survey to determine the feasibility of a Tunnel between the Island and the mainland, and to estimate the cost This was the next step, and the result of the enquiry was being awaited. The Tunnel would have far-reaching consequences and advantages. The Island was pressing for it, and it should be constructed if the cost was reasonable. He did not believe it should be constructed if the cost was found to be unreasonable."

Will the Premier kindly let an interested people know what the Government would consider an unreasonable cost for construction of said Tunnel?
