ROADS OPENING UP—It will be good news for the public and the keepers to learn that reports are coming in that the country roads are drying up rapidly. It was reported that a car came through from Port Hill on Wednesday morning, and that the Western road from Wellington to Summerside is very good. Mr. Wilbur Wright and Mr. John Myers, who drove by from Charlottetown on Tuesday afternoon, said that with the exception of a section that was cut through the hill, cars could get through to Borden. It is understood that the roadmaster is having that part of the highway fixed up.

Who'll Wed Fiv e-And-Ten Heir?

Dorothy Fell, New York socialite, is positive she will not marry Woolworth Donahue, one of the "five-and-ten" heirs, despite his engagement which has been on since September, 1933. Miss Fell made the assertion when informed that young Donahue had called Hollywood from Palm Beach, Fla., to ask Wendy Barrie, 18-year-old English screen actress, whether it would be all right if he again announced his engagement to Miss Fell. Miss Barrie, who has been engaged to Donahue, gave her blessing.

Thousands Gather For Lourdes Service

(C. F. by Guardian's Special Wire) OTTAWA, April 24—Inspector John Macdonald in charge of the British Columbia Provincial Police detachment at Corbin, B. C., in his report today blamed Communists for the strike and riot of coal miners in the Crow's Nest Pass area a week ago. Reporting to police headquarters here, Inspector Macdonald charged the strike and disturbance was a "deliberate attempt by Communists of Baltimore, Ala., to get a footing in the Corbin area." Last week's riot nearly two score police and striking miners were injured. Several officers required hospital treatment for wounds suffered in the battle with rioters who were armed with cludge pick handles, baseball bats and stones.

VOICES SATISFACTION

OTTAWA, April 24—(C.P.)—Satisfaction with the manner in which Mayor C. G. McGeer of Vancouver had handled the disturbances in that city, was expressed here today by Rt. Hon. Sir George Perley, acting Prime Minister. He also declared that so far as the Government here was concerned the relief camps would recruit all those transient unemployed in British Columbia who were not known agitators.

Herridge Confers With U. S. Officials

(C. F. By Guardian's Special Wire) OTTAWA, April 24—Hon. W. D. Herridge, Canadian Minister to Washington, conferred today with officials of the External Affairs Department, presumably on the subject of trade with United States. No official information was available but it is understood Major Herridge will be in the States several days and that the future course of the Canadian Government with respect to negotiations with United States for a reciprocal trade agreement will be mapped out. Hearings were completed in Washington last month when those interested in the proposed agreement gave their views as to the advisability of negotiating with Canada. It is understood the External Affairs Department is now in position to make a report to the home government as to the result of the hearings.

CEREAL GRASSES URGED AS FOODS

NEW YORK, April 24—Eating grass is better than eating carrots, spinach, lettuce or a dozen other well-known vegetable greens, the American Chemical Society was informed today. C. F. Schabel, of Kansas City, who made the report, said that the food value of grass had remained unknown because previous tests of the regularly used grasses were made when the grass was too old. Old grass, he said, loses two-thirds of its protein food values. He tested young cereal grasses such as oats, cutting them before they formed their first joints. He said that one pound of this grass contained as much vitamin and "greens" value as 50 pounds of lettuce. By Mr. Schabel's method the grass is dried and ground. He said that it may be used in baking cookies, pancakes, and chocolate candy with fine results on the flavor. Hens fed the grass meal he said doubled their egg production, and the vitamin A content of their eggs rose 500 percent.

IN MEMORIAM

MRS. LUCY McDONALD
There passed peacefully away at the home of her son, Wm. D., on Tuesday April 16th, Mrs. Lucy McDonald, nee of the late Cyprian McDonald, of late Mr. and Mrs. Wm. D. of Indian River, where she has a large number of relatives and friends. She had reached the advanced age of 98 years, although in failing health for the last few years she was never bedridden. D., and his good wife came home from New York to care for their mother in her declining years, and well it was done. She was visited frequently by her pastor, Rev. John A. McDonald, and the great privilege of receiving and the last rites of the Roman Catholic Church on the day of her death from Rev. Bennett McDonald, assistant priest in Grand River, E. and Andrew L. of New York. She leaves to mourn four sons, Wm. D. of Grand River, James H. of River, and Andrew L. of New York. UNEVEN TREND ON NEW YORK EXCHANGE

(By Frank MacMillan, Associated Press Financial Writer) NEW YORK, April 24—The stock market was plagued with contrary and short-lived impulses today and the net result was a distinctly uneven performance. Metals, especially the silver group, and the aircraft shares, advanced a few points, while the rest of the market was mostly cancelled their gains in a light selling movement at the close, but the other two divisions held near their best. The whole market assumed a cheerful tone in early dealings, but a realistic broke out in individual situations and checked the advance. Difficulties of a sizeable Chicago grain firm, and the consequent suspension of trading in the grain pits there, had little effect on stocks at first, but later some uneasiness over the eventual repercussions of the affair contributed to the softer tone of equities. The silver shares ignored general market developments, as an advance of 1-3-4 cents an ounce in the price of the bar metal to 71 5-8 cents was announced. The new level is about the official price of the silver, and the prediction was freely made here that the government would again raise its bids for the white metal to above the world price. A half dozen new highs were

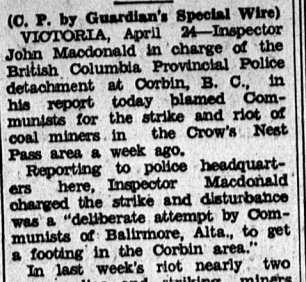

Commercialized Sunday Sport Condemned

(C. F. By Guardian's Special Wire) MONTREAL, April 24—Commercialized Sunday afternoon sports were condemned today by delegates attending the Synod of the Montreal diocese of the Church of England in Canada. Rev. G. R. Forrester who proposed the resolution said blanketing of the Sunday afternoon sports was not intended but commercialized sport was offering a strong and continuous opposition to Sunday school work. Rev. Forrester referred to hockey, baseball and football at which the scholars were spectators and said the importance of religious education was being belittled. The whole of Sunday observance was "going from us," said Rev. H. M. Little who seconded the resolution. The synod then went on record as protesting against the sports and urging they be made available to young people of Sunday school age, insofar as they interfered with Sunday religious education.
