### Russia Ready To Defend Borders Says Commissar

#### Litvinoff Renews Warning To Japan As Fighting Continues Along Far Eastern Border.

MOSCOW, Aug. 8.—(Monday) (AP)—Maxim Litvinoff, Soviet commissar of Foreign Affairs, has warned Japan that the Soviet Government will continue to repulse all Japanese attacks with "the most vigorous measures including artillery and air force."

Commissar's warning was contained in a three-hour conversation with the Japanese Ambassador, Mamoru Shigemitsu, yesterday shortly after a Soviet Army communique announced Russian troops had driven Japanese from Siberian territory along the Korean border at Changkueng.

Litvinoff answered the Ambassador's new truce proposals by calling his attention to new border incidents in the area since Shigemitsu first presented his suggestions Aug. 4.

Litvinoff's warning was prompted by a new border clash 250 miles north of Changkueng, at Hill 5882, near Sulfenno where the north Manchurian Railway crosses into Soviet territory.

A Japanese attachment with machine guns, he said, attacked and wounded several Red Soldiers then withdrew.

Moscow is tired of making another protest for each new border incident, Litvinoff intimated. "The time has come to terminate these endless incidents," he said.

Japan will guarantee a cessation of attacks on Soviet territory and a cessation of artillery fire from Manchurian points within a fixed time, Moscow will give similar guarantees, Litvinoff declared.

The time has come, he added, for the Soviet Government to declare it "does not intend to let its Soviet border guards be attacked with impunity nor permit even a temporary seizure of its territory by Japanese troops."

The Changkueng attacks obviously were an attempt to occupy Soviet territory in time of peace, "to even to involve Japan in a war with the U. S. S. R. Here is a danger which Japan must seriously consider," Litvinoff said.

A Government communique said the Red Army ousted Japanese from the Changkueng heights, which Soviet forces occupied July 11 and where intermittent fighting has occurred since in disputes between Russia and Japan.

In the Litvinoff-Shigemitsu conference it was understood the Japanese Ambassador repeated proposals that hostilities cease and both sides withdraw their forces, leaving the exact border demarcation for later discussions.

But Litvinoff answered that discussion of redemarcation must be on the basis of a treaty of 1886 between Russia and China.

### MR. J. E. STERNS ELECTED TO HEAD ASSN.

#### Maritime Launderers Hold Annual Convention In City.

Mr. J. E. Sterns, Charlottetown was elected president of the Maritime Launderers Association Saturday when the one-day convention of the organization was held in Charlottetown. Mr. R. C. Holt, president of the association, and Mr. Harvey Adams, also of Saint John, was re-elected secretary. Members of the board of directors include: Messrs. John E. Burchell, Halifax, G. H. Vall, Moncton, D. B. Dauphin, Bridgewater, N. S., Col. L. C. Corey, Sackville, Allan Doyle, Halifax and W. H. MacFarlane, Devon, N. B., retiring president, Mr. MacFarlane was unable to attend the convention because of illness and Mr. Sterns vice-president, presided at the business sessions.

The convention, the second to be held by the Association concluded with a dinner at the Canadian National Hotel attended by approximately 60 maritime launderers, their wives and guests. Mr. W. A. Walsh, M. P., Mr. Royal, Montreal and guest speaker, dealing with business conditions generally. Economic conditions would never again be such that employment would be assured for all as it had been in the days before the '29 depression. He believed men should begin to make preparations to raise the standard of living to make room for young men. That, he considered, would be one method of restoring balance to the system.

Depression went in cycles, he reminded the meeting, and was caused by some definite condition. The present one could be traced in large measure to the electrification of industry, he believed and mentioned what he considered a parallel case with conditions in the 1800's when machine production upset economic conditions for many years.

Mr. G. Ross Marshall, Halifax, presided at the dinner. The program included two vocal solos by Mr. Sterns, newly elected president. Blanchard's Orchestra supplied instrumental music.

### Crew Escape Uninjured In Bombardment

#### WAR BRINGS CHANGES TO HONG KONG

(AP. By Guardian's Special Wire) PALAMOS, Spain, Aug. 7.—Two insurgent warplanes fired the 2,110 ton British steamer Lake Lugano in a fierce air attack today, after bombing the ship the attackers wheeled and swooped low to machine-gun the decks. None of the crew of 27 was injured.

The planes flew over the little Mediterranean port in the early morning and carried out a methodical bombardment and strafing of the harbor sectors. They were able to carry out the attack unmolested since Palamos is not defended.

Insurgents and members of the Lake Lugano's crew said 30 explosives and incendiary bombs were dropped.

The ship, owned by Charles Strabin and Co., of London, was a total loss.

When the air raid siren sounded, members of the crew on the quay scattered quickly for refuges in the town, which has been bombed 42 times.

But five men were still on board when the planes flew low and bombed the ship. The men grabbed lifebelts and jumped overboard. They did not swim 200 yards to shore, with the planes strafing the waters.

BARCELONA, Spain, Aug. 7.—The 2,110 ton British steamer Lake Lugano was bombed and set alight today by two seaplanes and 50 machine-guns of Barcelona.

One crew member was wounded when the attackers returned and machine-gunned the Lake Lugano. They attempted to put out the flames.

The ship, owned by Charles Strabin and Co., of London, apparently was a total loss.

Hong Kong today is packed with rumormongers, with refugees and wealthy Chinese, with airplane dealers, munitions salesmen, adventurers and adventuresses, with spies, and what have you.

It has been, and is, the doorway for China's military supplies. It has prospered commercially and yet fears for its economic future.

"So they say" is the stock phrase in Hong Kong, and it covers almost everything the imagination can rake up. It is added on to statements that Hong Kong today has 16-inch guns mounted somewhere. It is tied, on a careful afterthought, to information of every description.

And Hong Kong is say about it all. In the packed hotels they dance until one a. m. before the orchestras break out with "God Save the King."

Young Chinese are more numerous among the dancers at the dinner dances than are foreigners.

The position of the Japanese, who remain on this hilly island isn't any too enviable. There were about 1,500 Japanese; now there are about 50 at the most.

But you can still be invited to a Japanese restaurant, to dine on Japanese food and be entertained by Japanese geisha girls, and be driven to the restaurant by Chinese taxidriver whose family may have suffered through the bombings of Canton.

### WAR BRINGS CHANGES TO HONG KONG

#### Anxiety, Glamor And Excitement Grips Once Staid British Colony.

(War has had its effects on Hong Kong, on the edge of the fighting zone, a picture of life here today is given by Elmer W. Peterson, Associated Press war correspondent, who is in that city.)

(By Elmer W. Peterson)

(Associated Press Foreign Staff)

(HONG KONG, Aug. 7.—) Many have been a staid British colony, and in some ways it still is, but the Sino-Japanese war has had its effect on Hong Kong.

Old timers have good reason to rub their eyes and wonder and remark over their whiskies and sodas that things have changed.

Events of the past year have given Hong Kong a touch of fever, a dash of glamor, a generous dose of anxiety, and a general air of mystery and excitement that knocks the staid British idea for a loop.

Packed With Rumors

### Bombing Plane Crashes Carrying Five To Death

#### Sixth Flier Killed In Another Accident. Occupants Of Three Other Planes Parachute To Safety.

(Canadian Press by Guardian's Special Wire) LONDON, Aug. 7.—A Royal Air Force bombing plane, participating in air defence manoeuvres with 900 of Great Britain's first line flying machines, crashed and caught fire during the weekend killing its five occupants.

A sixth flier was killed in another accident, and three other planes crashed but the occupants parachuted to safety as bad weather forced cessation of the nation's greatest aerial defence exercises.

The bomber crashed during Saturday night at Great Barton Village, near Bury St. Edmunds, Suffolk.

Fog and rain hampered the exercises in many areas and all bombers were grounded before the general cessation early this afternoon. They were scheduled to conclude tonight.

Fighting planes had remained aloft despite the adverse weather to test searchlight units.

An Air Ministry communique said invading "Eastland" bombers, flying in small attack formations, had made London their chief objective and had inflicted serious damage to the Air Ministry and Knights Bridge district of the capital.

Defensive "Westland" fighters, however, were said to have intercepted the attacking squadrons successfully at many points.

"In real war," the communique said, "few of the raiders" would have escaped without loss."

The attack was said Saturday by surprise in bright mid-afternoon sun and lasted until early evening under cover of night.

War Secretary Leslie Hore-Belisha and Sir Kingsley Wood, Secretary of State for Air, watched the air manoeuvres.

Authorities said the exercises demonstrated conclusively that London and the metropolitan area were on the whole, safe from serious air attacks.

### Lad Missing Five Days In Ontario Bush Found Alive

STURGEON FALLS, Ont., Aug. 7.—(CP)—Five-year-old Furlan Tessler, last seen last Wednesday in the dense bush of Bastedo township, was found alive late today, after appearing to be surviving unduly from his experience.

A party of farmers came upon the boy only a half-mile from his home, in a wild desolate section of country 12 miles north of this Nipissing district settlement. Furlan was lost five days ago while picking berries with his father, Valmore Tessler, about a mile north of the Tessler homestead.

The searchers said that when they came upon the lad he walked away from them but he quickly was picked up and taken home. Traces found by search parties indicated that the youngster several times had seen the men approaching but as he wandered through the bush and that each time until found he had hidden until the searchers had passed.

BEE CAUSES CRASH

NEW GLASGOW, N. S. — Eight persons escaped serious injury when Mrs. Clarence Wheeler's car overturned. The machine capsized as Mrs. Wheeler lost control of it when a bee stung her.

### PAYS SECRET TWO-DAY VISIT TO PALESTINE

(A.P. by Guardian's Special Wire) JERUSALEM, Aug. 7.—Malcolm MacDonald, British Colonial Secretary, paid a secret two-day visit to strife-ridden Palestine, authorities disclosed after his departure today.

The young Colonial Secretary arrived by air Saturday to confer with officials on general security measures but strict secrecy was observed to protect him while he was here.

Unrecognized, he mingled with Jews and Arabs in Jerusalem's old city and flew on an inspection tour over a large area and on a virtual guerrilla wartime footing.

No Political Motive

Officials declared Mr. MacDonald had no political motive in that Great Britain still adheres to her partition policy toward which both Jews and Arabs object.

Both claim the Holy Land as their own and are opposed to British plan to divide it into three separate areas—a Jewish state, an Arab state and a British zone.

### Three Fatalities During Weekend In New Brunswick

MONCTON, N. B., Aug. 7.—Three fatalities resulted from accidents in this part of New Brunswick during the weekend. Adelard Richard, 19, and Evangeline Steeves, 12, were drowned and Alphonse Bourque, 23, died after a car struck him while he was riding a bicycle.

Richard's body was found in shallow water at Belliveau Beach near here today by Shirley Kirk, a patrol officer. The beach was crowded but no one knew how long he had been in the water.

The Steeves girl tripped and fell from a bridge at Intervale, near Salisbury, unable to swim, she drowned in 10 feet of water.

Bourque, on his bicycle, and a car driven by Murray Humes, Moncton, collided outside this city when Humes swung out to pass another car. He said the bicycle was without lights.

### GOVERNMENT EBRO RIVER DRIVE SMASHED

#### Insurgents Hurl Back Loyalists In Powerful Assault On Catalan Front.

(A.P. by Guardian's Special Wire) HENDAYE, France, Aug. 7.—Spanish Government forces, beaten back almost to the banks of the Ebro River, failed today in an attempt to retake the northern wing of their Catalan front.

Strong counter-attacks were started from the south to relieve the beleaguered Franco's forces shattered Government defences before Caspe in one of the most powerful single assaults of the war.

Reports to Franco's headquarters said Government forces had been driven virtually completely from the Ebro River sector between Mequenza and Fayon, suffering heavy casualties.

Government advances, however, said one column was counter-attacking from Fayon with artillery support in an attempt to recapture the Banks to River.

A force of several thousand Government troops, they said, still was in the Rincones Mountains fighting desperately to hold their backs to the river.

Border reports indicated the column was fighting against time and would not be able to hold out for long against the insurgents' incessant air and artillery onslaughts.

Insurgents estimated Government losses at between 6,000 and 8,000 men, equally divided between battle casualties and prisoners captured by Franco's troops.

The entire strength of the insurgent air force in the Ebro valley—about 200 fighting and bombing planes—roared in waves over Government lines throughout yesterday's attack.

They continued today to dump explosives and rain machine-gun bullets on the Government's imperilled mountain line. Although insurgents acknowledged many of their tanks broke down in the mounds of rubble, they entangled Government's barbed wire entanglements others still were assailing outer defences in the Rincones foothills.

### Inspiring Services Mark Church Of Christ Convention

Large attendances at all services marked the closing of the annual convention of the Prince Edward Island Churches of Christ at Montserrat, P.E.I., last night.

The final message of the three day convention last night was delivered by the Rev. Neil Herman, Dartmouth, N. S., for several years pastor of the Central Christian Church, Charlottetown. The message was an interesting feature of the convention.

Speakers at yesterday morning's communion service were the Rev. A. S. H. Indianopolis, Indiana, The Rev. Lawrence Ray, pastor of the Montague Church, in charge of the service. The communion service was conducted by the Rev. W. H. Harding, and Ed. James, McCallum, Cross Roads. Special music included a duet by the Rev. A. McDiarmid and Mrs. McDiarmid.

In the afternoon a very interesting and inspiring young people's conference was conducted by the Rev. Hayden Stewart, Calgary, Alta., Rev. Mr. Stewart in past years has been present at young people's camps in this province.

At the concluding service the devotional period was conducted by the Rev. S. C. Cooper, pastor of the Montague Church.

### Quints Suffering Throat Infection

CALLANDER, Ont., Aug. 7.—The Dionne quintuplets are suffering from a throat infection which will keep them ill a week, it was learned tonight. Their father, Clavin Dionne, expressed concern about Emilie who, he said, has taken no nourishment since noon Saturday.

Appearances of the four-year-old children before the public in their play yard have been cancelled until they are fully recovered. No date has been set for their possible return to the yard.

Dr. Allan Roy Dafoe, their personal physician, announced their illness Saturday.

### Canal Project Now Rated More Feasible

SAINT JOHN, N. B., Aug. 7.—Belief that a canal connecting the waters of Northumberland Strait and the Bay of Fundy could be built for about a tenth of the \$23,000,000 estimated a few years ago as the cost of such a project was expressed in an interview here Saturday by Dr. W. C. Milner, historian and former Dominion architect.

This could be done, he said, by following a route laid out years ago for a ship railway across the Isthmus of Chignecto. This route had not been considered in previous plans for a Chignecto canal, said Dr. Milner.

### Remembers Duty Though Injured In Bike Mishap

SAINT JOHN, N. B., Aug. 5.—"Carrying the message to Garcia" had nothing on Canadian National Telegram messenger Gordon J. Walsh who, when being conveyed to hospital in a police car following his collision with another bicycle on revving a moped, "Don't take me to the hospital until I deliver my message to the Ford Motor Company."

Young Walsh was knocked out-conscious when he went over the handlebars of his bicycle following the collision. Notwithstanding his injuries, he managed to deliver his message to the Ford Motor Company.

Japan's hope, they said, was to sever South China from the Chinese Central Governments in order to split its resistance to the Japanese invasion.

Severe fighting, meanwhile, continued on both marshy shores of the Yangtze River. No major battle lines about 110 miles down river from Hankow, China's provisional capital and goal of the Japanese campaign.

Pitched battles were fought at Susung, north of the river, and along the highway where Japanese desperately were attempting to establish hill positions to escape fighting Yangtze floods.

### RUSSIAN DRAMATIST DIES

MOSCOW, Aug. 7.—Konstantin Sergeivitch Stanislavsky, founder of the Moscow Art Theatre and one of the greatest figures of the modern world of the drama, died today of heart disease.

The 75-year-old dramatist had been ill since June 15 when he collapsed during preparations for staging "Cartouche," a work of the 17th century French playwright Moliere.

### Claims New Altitude Record For Gliders

WASSERKUPPE, Germany, Aug. 7.—Air Captain Dreche of Luftwaffe, a German airline today claimed a new world altitude record for gliders.

Starting from 940 meters (3,094 feet) he reached a height of 7,070 meters (23,196 feet).

The previous glider altitude record claim was made by Herbert Fick who reached 6,500 meters (18,044 feet) at Sietlin Thursday.

### Separatists' Plot Bared In South China, Report

SHANGHAI, Aug. 8.—(Monday) —Chinese sources reported today that secret negotiations had been taking place between separatists who were plotting an independent South China Government pledged to close co-operation with Japan.

There was no neutral sources. But it long has been known that Japan was attempting to sway South China away from the Central Government with those used in Manchuria similar and Peiping.

Japan, the Chinese declared, was holding out a promise that organization of a co-operative new government would prevent spread of disastrous aerial bombardments of Canton.

Chinese said the negotiations were being carried on by Cheng Chung-Fu as representative of a group of disgruntled Chinese politicians now in Hong Kong.

Chen was described as a former chairman of the North China Foreign Affairs Committee and as an influential politician.

Japan's hope, they said, was to sever South China from the Chinese Central Governments in order to split its resistance to the Japanese invasion.

Severe fighting, meanwhile, continued on both marshy shores of the Yangtze River. No major battle lines about 110 miles down river from Hankow, China's provisional capital and goal of the Japanese campaign.
