Bent Nearly Double With Bright's Disease.

A Severe and Torturing Case of Bright's Disease—A Justice of the Peace Certifies to the Cure by Dr. Chase's Kidney-Liver Pills.

Mr. James Dellihunt, a much respected resident of Concession, Ont., states:—"I was a sufferer from Bright's Disease for several years, and at times the tortures of mind and body were almost beyond endurance. The pains were in my head, between the shoulders and down the whole spine, concentrating across the kidneys, where I was never entirely free from pain. When I got up in the morning I went about bent over nearly double. It gave me great pain to urinate, and at times the water was very scanty. Medicines seemed to have little or no effect in my case, until I began the use of Dr. Chase's Kidney-Liver Pills. The first dose relieved me, and five boxes entirely cured me. I have no pains in my kidneys, and can do as good a day's work as I ever could."

Mr. J. J. Ward, J.P., of Concession, certifies that he knows Mr. Dellihunt's statement of his cure to be correct and true and without exaggeration. It seems foolish to trifle with new-fangled medicines when you can get the tested and proven kind. Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, all dealers, or Edmanson, Bates & Co., Toronto. Agents wanted for Dr. Chase's last and complete Receipt Book.

HANEY'S OPINION

Railway from Valdes to Eagle City Won't Pay.

ROAD COST \$12,000,000

The Local Business not Worth Considering—The Telegraph and Trail.

(Daily Colonist, Aug. 15.)

M. J. Heaney, the contractor who built the White Pass & Yukon railroad, arrived in Seattle from Alaska on the steamer Humboldt, says the Seattle P. I. His movements while in Alaska have been watched with considerable anxiety for parties interested in the future of that country, for upon the favorable or unfavorable report of Mr. Heaney depended largely whether or not a railroad would be constructed into the interior of Alaska by an all-American route.

The route under discussion lay between Valdes and Eagle City, on the Yukon, the first American town below Dawson. For months it has been a mooted question concerning the ultimate construction of the road as to whether it would prove a paying investment, even if the construction was possible.

To determine this question Mr. Heaney made the overland trip from Valdes to Eagle City and, in speaking of the results arrived at, says:

"So far as I can see, there is absolutely

A MUNICIPAL TREASURER

Makes a Strong statement in Favor of Dodd's Kidney Pills.

WOLFSTOWN, Que., Aug. 19. (Special).—Romaine Boulanger, Secretary Treasurer of this town, is a strong upholder of Dodd's Kidney Pills. He has used them both for himself and other members of his family and he knows whereof he speaks. This is what he says of Dodd's Kidney Pills in January last. Of this number I sent two boxes to my brother which have given him perfect satisfaction.

"As for me I have used a box and a half which has given me immediate relief. If Dodd's Kidney Pills always repeat my own experience, it would be well and prudent for each family to keep them in the house in case of sickness.

"I will always be thankful for the great service Dodd's Kidney Pills rendered me."

THE GERMAN TARIFF.

BERLIN, August 20.—The standing committee of the German agricultural council has unanimously passed a resolution regarding the new tariff system for agricultural products generally. They demand a minimum tariff on grain, and higher rates on animals, dairy products, and vegetables. The Central League of Manufacturers has declared against the minimum tariff system.

no excuse for promoters or capitalists interesting themselves in the construction of a railroad through that part of the country, or in other words, from Valdes to Eagle City. If the conditions were such as to warrant the construction of a railroad it would have been done long ago, but it will be many years before a locomotive is seen in the Copper river valley.

"The construction of a railroad would be a very easy matter so far as the building of railroads in any northern country is concerned, for their is a natural roadbed and very few grades of any importance. The Copper river valley from Valdes to Mantasta, a distance of nearly 200 miles, is a fine gravel soil, and from Mantasta on to Eagle City the country is much of the same nature.

"I should say that it would cost, at the very lowest estimate, \$12,000,000 to construct a railroad between the two points mentioned. I expected, when I went into the country, to find that there was at least some chance for local business, but it is of such an inferior nature that it is not worth considering. No survey was made, but only a general reconnaissance of the country. The railroad route would not follow the government trail now under course of construction, and would be nearly 450 miles in length. The telegraph line is now about 140 miles out from Valdes, while the trail is out a distance of about 165 miles. Neither enterprise will be finished this season, and it is probable that they will not be completed next year.
