German Government May Go Out

(Special to The Guardian). BERLIN, June 30.—There is strong likelihood that present administration of Germany will be thrown out of office June 30, superseded by a thoroughly socialist government as a thoroughly socialist government. This view may be thought to bear the flavor of propaganda. It is held in certain official quarters having the greatest interest in maintaining the present government and there is the same feeling among unofficial but well informed gatherings of Germans.

HEAVY DECREASE IN PRODUCTION OF COAL IN CAPE BRETON

MONTREAL, June 30.—The Dominion Coal Company this morning stated that they have four thousand and fewer men employed now than they had in 1914 and as the output per man is appreciably less it will readily be seen that a heavy decrease in production there has been. The output has been steadily declining seriously for several years as the table shows that in 1913 the total tons mined was 7,600,000, compared with 5,100,000 tons last year.

The output per man each year gives considerable enlightenment as to why Canadian manufacturers are being compelled to pay off their hands and shut down their plants. The peak of man-production by the year per man, during the war was: 1916, 590 tons; 1917, 550; 1918, 500; 1919, 460.

THE MANITOBA ELECTIONS RESULT IN UNCERTAINTY

Norris Candidates in Majority with Labor Second and Farmers Third. Combination of Groups an Element of Uncertainty. Conservative Leader Willis Defeated

(Special to The Guardian). WINNIPEG, June 30.—Manitoba's political future tonight is clouded in much the same uncertainty as prevailed in Ontario last fall. The Ontario last fall except that the largest single group which will sit in the next legislature of this province will be adherents of the Norris government, with labor probably second, and farmers, in third place. Whether or not Norris will continue as leader of the government is a matter which cannot be stated tonight with definiteness. It does not appear at a late hour tonight that the government can count upon more than half the elected members and this estimate is reached by assuming that half a dozen or more independent and farmers' candidates will support Premier Norris in the essentials of his policies.

105,000,000 ESTIMATED POPULATION OF THE U.S.

WASHINGTON, June 29.—The population of Continental United States is estimated at 105,000,000 by J. A. Hill, chief statistician of the Census Bureau. His calculation is based on the combined populations of 1,406 cities and towns for which statistics have been announced.

The increase over 1910 is placed at about 13,000,000, showing the growth of the country has not kept pace with the previous decade. Almost complete cessation of immigration during the war is the chief reason assigned for the falling off in growth. Other suggestions were that the influenza epidemics, return of aliens to their native lands and deaths of soldiers abroad and at home during the war.

Stormy Session of Committee Discusses Prohibition and Irish Question When Ugly Words are Banded Across the Floor

With administration forces continuing in apparently complete control, the Democratic National Convention, accepting Senator John Robinson, Arkansas, as its permanent chairman, permitted states to upset the unit rule provided for taking women on the Democratic National Committee, and prepared for the business of having candidates nominated by adopting an order of business which will permit delivery of the nomination speeches before the platform is brought in.

Stormy Session of Committee

SAN FRANCISCO, June 30.—Open warfare over prohibition and the Irish question and other troublesome issues of the democratic platform began today in a storm-swept committee hearing, while in private the leaders continued their negotiations for settlement to keep hostilities from spreading later to the floor of the convention itself. Tonight the platform of the sub-committee had not yet begun actual preparation of the party's declaration of principles and there were no surface indications that their task had been made any simpler by days of public arguments or private consultations. The Irish issue was argued in such militant fashion that the crowded committee room was kept in almost constant uproar. Opponent of the proposal for recognition of the Irish republic were kept under a hail of heckling and once or twice were called ugly words. The case for the Irish recognition plank was led by Frank P. Walsh, Kansas City, and the opposition was handled by Democrat Lloyd, Boston, President of the Loyal Coalition.

The bill was given third reading and the senate adjourned until Monday afternoon.
