Eastern Guardian

—EASTERN AGENTS—Mr. J. W. Murdoch is Guardian Agent in Montague and will be pleased to receive new and renewal subscriptions.

—WANTED—Experienced garage man, one capable of taking charge. Apply at once to Martin McInnis, manager of St. Peters Garage or Quigley & Sons, St. Peters. 3094-4-9-51

—SUNDAY SERVICES—Rev. J. W. Williams will conduct services on Sunday April 14 as follows: Montague at 11 a. m.; Georgetown 3 p. m.; Sturgeon at 7 p. m.

—HOUSE BURNT AT STURGEON—On Saturday evening, March 20th, the dwelling house of Mr. William Mahar was completely destroyed by fire. The fire apparently started from the pipe where it enters the flue, and spread so rapidly that most of the contents were destroyed. A large crowd of people soon gathered, but nothing could be done to stay the ravages of the fire. This is a severe loss to Mr. Mahar and family, and the sympathy of the entire community goes out for him in this sad accident. By unanimous impulse the neighbors are doing all they can to help Mr. Mahar, and have succeeded in cutting a frame for a new house and have it landed at Mr. Murphy's saw mill and Mr. Murphy has consented to give "the use of his mill to saw the frame without cost to Mr. Mahar. All this goes to show the high esteem in which Mr. and Mrs. Mahar are held in the community.

PERSONALS

—The many friends of Mrs. David Reid, Montague, will be sorry to hear that she is still sick in bed and the last reports was no better.

Acids In Stomach Cause Indigestion

Create Sourness, Gas and Pain. How To Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, digestion is delayed and food sours, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any druggist some Bisurated Magnesia and take a teaspoonful of powder or four tablets in water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bisurated Magnesia (in powder or tablet form) never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Legislative Assembly Proceedings

(Continued from Page 10) SUBSIDIES

In regard to the subsidy question, he felt that the Premier had been doing what he could to get more. It takes time to get an increase of subsidy, and he felt that the recommendation of the Duncan Commission in this regard would be implemented. He recalled the fact that all the Conservative members of the House voted against this commission. So he was glad when he heard Dr. MacMillan say that this was the only way it could be got. He then enumerated the new car ferry, the piers at Borden, and the standardization of the Murray Harbor Railway—all meaning a heavy expenditure by the Federal Government.

AGRICULTURE

With regard to this subject, he expressed his regret that the Minister of Agriculture through illness was not present. Though he was recovering, he would not possibly be in his place this session.

He paid a high tribute of praise to the work of Mr. Lea, particularly with reference to the Falconwood Farm.

He regretted that, during the past year, the breeding of horses had not progressed as it should. Twenty nine carloads had been imported, and this, at \$125.00 per head would work at \$28,000. He felt that the policy of the Minister of Agriculture was doing the right thing in giving a bonus to horse breeders. It costs \$116 to raise a horse to a weight of 1500 lbs., but he felt it would be worth while to do so.

As to milk cows—the American market was taking large numbers of them at a good price. He did not believe, however, in selling valuable dairy stock to such an extent as to imperil the herds.

Mr. Sinclair then proceeded to quote

BABY'S OWN SOAP

Best for Baby Best for You

figures to show that, under the management of Mr. Lea, the Falconwood Farm was much more productive than under the Conservative regime, who, he said, put \$500,000 fire insurance they collected into ordinary expenditure to make a better showing.

Speaking of the Federal grant for technical education, he claimed that the Conservatives had overdrawn the account in 1925 to the extent of \$3,700. Had it not been for this, there would have been a surplus in the accounts of \$2,500.

EDUCATION

We all had meetings, he said, with our electors to ascertain what they wished in connection with the teachers' salaries. But the Conservatives would have done better to have done so in 1927, when they started out, playing "Just a Wee Deoch an' Dorals" but came back to the tune of "There's a long, long trail a-winding into the land of my dreams."

He deplored the Bell Government poll tax, saying it was one of the best ever put on. But the Conservatives renounced it, the revenue depleted, and the teachers want more salary. "We would like to see them get it," he said. But there is just one way in which that could be done—and that is through direct taxation. It is an inopportune time to ask for it—but the Government will put on independent commission.

There are too many small schools. The ten pupil schools cost \$65.00 per pupil, and the 14 pupil schools cost \$45.00 per pupil. So that a commission is very necessary to look into the matter and perhaps effect needed consolidations. But such a commission was talked of long before ever the teachers' salaries question came up.

Speaking of Women's Institutes, he praised their work, and then warmly commended His Honor the Lieutenant Governor for the prize he so generously donated for improvement in schools and farm homes.

He spoke warmly of the excellent work of the Red Cross, and praised Dr. MacMillan for his stand in regard to the building of a sanatorium, also praising Sir Charles Dalton for what he had done, and expressing regret that the government of the province had been unable to let the Dalton Sanatorium up.

He criticized the Lee Government for introducing the matter of the

MR. MUSTARD'S ADDRESS
Mr. John Mustard said that the year 1928 had been one of exceptional activity in all departments, but especially in that of Public Works. The department was now equipped with proper machinery, and had been put on a business basis. The machinery was a big undertaking, and we have some criticism on the part of both Liberals and Conservatives.

The Opposition quotes from editorials in the Patriot, criticizing the department.

In the first part of the session, owing to the inexperience of the operators the result was not perhaps satisfactory. But towards the end of the session it was excellent, with the result that our by-roads are as good as the Stewart Government's highways.

It is true that \$272,000 had been spent in improvements with the result that the debt had been increased by \$190,000. But in the first year of the Stewart Government (1924) the Stewart Government had gone in debt to the extent of \$160,000—even though there was a highway grant from Ottawa of \$145,000. But borrowings are perhaps inevitable, as the public works must be carried on.

THE EXTERNAL AUDIT

The Opposition Leader claims that in the other provinces their system of book-keeping is such that an external audit is unnecessary with them, though it is with us. They, some time ago, called in an auditor, Mr. Blanchard, who was supposed to improve our system of book-keeping. It is a pity that he did not introduce the systems in use in the other provinces, for then he would have saved this province from \$200 to \$500 for an external audit.

Mr. Mustard adjourned the debate and the House adjourned accordingly till 10 a. m. this morning.

"IMPERIALS" are Ideal Winter Fox Food

At this season all ranchers are interested in obtaining of large litters of young foxes. Proper feeding of the vixens at this crucial time is most essential. Our outstanding successful feeders have found IMPERIALS to supply the necessary food requirements of the breeding season. They also correct irregularities, keeping the animals healthy and vigorous and in addition, ensure vixens a plentiful flow of milk for the young pups.

Winter feeding of IMPERIALS has practically eliminated destruction of young by females.

RESULTS JUSTIFY CLAIMS FOR IMPERIALS

The largest litters born last season and also the highest average of pups raised to maturity were in ranches where IMPERIALS comprised a most important part of the daily winter diet.

Keep a liberal supply of IMPERIALS on hand at all seasons.

Sold by leading distributors or direct from factory.
