### The Markets

**MONTREAL, March 26.**—The local and foreign demand for all lines of Canadian grain continued of a limited character here today and the undertone to the market was easier. A feature of the flour trade was the easier feeling that developed for spring wheat grades and prices were reduced ten cents per barrel. This was attributed to the limited demand. Winter wheat grades were unchanged. Prices for all lines of mill feed were well maintained under a fair demand from all sources. A fair trade was done in standard grades of rolled oats and prices were unchanged.

A stronger feeling developed in the butter market and prices were marked up 1-2c per lb. the demand was good. Receipts were 722 packages. The enquiry for all grades of fresh eggs was good and prices were firm. Receipts were 3,136 cases.

### EGGS

**OTTAWA, March 26.**—Egg markets appear to be holding a little steeper today following the recent declines. It is probable also that the Easter demand is having some strengthening influence on the situation.

**TORONTO.**—The quantity of extras in current receipts is now large and this grade is inclined to be a little easier. Firsts, however, are in demand and it is possible that in the near future there will be a narrowing of the price spread between this grade and extras.

**MONTREAL.**—The egg market here today is steady and unchanged. Ontario eggs are selling on spot at extras 33; firsts 31; seconds 29. British Columbia eggs are bringing 1c above the Ontarios but cases are free while

for the majority of Ontario shipments cases are to be returned.

**VANCOUVER.**—This egg market is steady due to the strong demand for storage. All the larger firms here now are actively engaged in storing. Ten carloads left for the east last

week and the best offer received at the present time is on the basis of 27c for extras F O B Vancouver. Paying prices to producers are unchanged from last week and it is generally felt that the market will remain steady for the time being due to the

storage movement. The heavy consumption demand and the increasing shipments to the north.

Manila's carnival this year was one of the most successful ever held there.
