

Let Us Fill It

When you have a prescription to be filled, you naturally wish to feel that it will be properly prepared from pure and potent drugs. You can be certain that it will be right in every particular if we compound it. We want your confidence and think we deserve it.

J. G. JAMIESON,
DRUGGIST.

Do Eyeglasses Injure?

Some people think glasses injure, because when once worn a person becomes dependent upon them. The truth is because a glass gives relief by removing the strain upon the eyes no time should be lost in affording this relief.

G. H. Taylor,
Jeweler and Optician.

THE CHARLOTTETOWN GUARDIAN

HON. H. R. EMMERSON.

A recent visit to New Brunswick impressed the writer of this article with the very strong sympathy that is felt and expressed, especially along the line of the Intercolonial Railway for Hon. H. R. Emerson, late Minister of Railways. It is sufficiently clear that he has still a large body of devoted friends who count confidently on his restoration to his former position at the head of the Railway Department. These friends, in Westmoreland, Kings and St. John, are very outspoken in their opinions.

They utterly discredit the graver charges and insinuations of wrong doing made against the late Minister and commend his action in resigning his portfolio and making an appeal to the courts for vindication. They warmly endorse his administration of the Government Railways, in restoring the balance between income and expenditure while at the same time increasing the pay of the railway employees and recording yearly surpluses in the place of the big old-time deficits.

Mr. Emerson is undoubtedly popular with the officers and employees of the Intercolonial. It is felt that he has rendered distinct public service to the Maritime Provinces in his strong and effectual advocacy of retaining the road as a public property to compete with the company railways. Moreover, the whole of the New Brunswick Liberal party, including not a few Conservatives as well, seem inclined to resent an attack made upon the sole representative of the Province in the Ottawa Cabinet.

This feeling can be readily understood. For a generation after the Union the Province held two portfolios at Ottawa, and came to view such representation as almost a matter of right. The growing preponderance of the west reduced New Brunswick to one portfolio, and now Mr. Emerson's resignation has left it unrepresented. In another way the removal by death in quick succession of such able public men as Blair, Snowball and Stockton has increased the importance in the public mind, not only of Mr. Emerson but of all other capable public men of the Province. We noted a strong feeling among some of the Liberals of King'sland Albert counties, that Mr. Emerson should be induced to contest those counties at the next election and try corollaries with his accuser, Mr. Fowler, M. P. face to face at the polls.

We mention these facts and impressions altogether apart from the merits of the case now pending in the courts, upon which we cannot, for obvious reasons, offer any opinion. Mr. Emerson represented Albert in the Provincial Legislature, and was at one time also a close contestant for its representation in the Commons. He is favorably known in Kings, which the Intercolonial intersects almost from end to end. Should it hereafter happen that Mr. Emerson would leave Westmoreland for Kings and Albert at the next election with Mr. Fowler the contest in the latter constituency would be one of the most spirited and interesting in the whole Dominion. Of course, we know nothing of his intentions in that regard.

DIAMONDS PERHAPS.

Dr. Aul, a distinguished member of the Geological Survey staff at Ottawa holds freely to the conviction he formed

some time ago that a diamond field, probably the richest in the world, will yet be discovered in the Canadian north land. This may or may not turn out to be true, but leading jewelry firms are doing some eager prospecting in certain localities along the route of the Transcontinental Railway.

Now the world could get along pretty well if there were no diamonds in it. The use of the diamond is mainly as an ornament, although it is of some service in the arts. But the discovery of a diamond field like the discovery of a gold mine, has a very great attractive power for inducing an influx of population. So far the best diamond fields known are within the British possessions, India, Borneo and South Africa. The precious gems are also found in Brazil, the Ural Mountains and in some other places. For that matter, no one knows what mineral treasures may yet be found in Prince Edward Island, when it is thoroughly explored.

COLDER SPRINGS THAN THIS.

All over North America the spring of 1907 has been cold and backward. Prince Edward Island is no exception in that regard. In New York many believed the month of May last past was the coldest in memory, if not in history till the records were searched. The New York Times of the 6th instant demonstrates that there have been several colder Mays than last month.

In New York the month recently closed averaged a temperature of about 56 degrees. In 1837 the average temperature for May there was 55.3 degrees; in 1819, 55 degrees; in 1850 it was 54.4; in 1858 54.8; and in 1867 only 52.7. In this connection it is pointed out that an extremely late spring is only about 7 degrees in temperature or three weeks in time worse than the average, and is usually compensated by a warm August and autumn. A notable instance of this occurred in 1881. And there is the old reliable promise for our comfort that "While the earth remaineth, seed time and harvest, and cold and heat, and summer and winter, and day and night shall not cease."

We greatly regret and cannot accept as final the action of the City Council at its recent meeting in refusing the proposed grant of \$300 in aid of the Public Library. We believe the proposed grant to be in the best interests of the City and also in accord with the wishes of our citizens. It is moreover a necessity if the Library is to be maintained as a free institution, which is in every way desirable. We are informed and believe that without the smaller amount asked from the city a charge will have to be im-
