

If Teeth Lack Gleam Just Do This

Removing film restores sparkling whiteness

Please accept full 10-day tube free of this remarkable new method that leading dental authorities urge... note the difference in teeth and gums as dingy film coat goes.

The prettiest smile becomes ugly when teeth look clouded. Now modern science restores "off-color" teeth to dazzling whiteness.

It's been found that dingy teeth come simply from a film that forms on teeth. A stubborn film old-type dentifrices did not successfully remove. That's why brushing failed you.

Run your tongue across your teeth and you can feel that film now—a sort of slippery coating. It is a chief enemy of healthy teeth and gums.

It absorbs discolorations from

food, smoking, etc. It invites tooth decay, gum troubles and pyorrhea because it breeds bacteria.

Now, in a new type dentifrice called Pepsodent, a scientific combatant has been found. Leading dentists widely urge it. All druggists have it. Ten-day test sent free.

CONSERVATIVE CANDIDATES GIVEN SPLENDID RECEPTION AT NORTH RIVER

A large and enthusiastic meeting was held at North River hall last evening. Mr. Robert McKinley was appointed chairman and very good order prevailed throughout. The Conservative candidates, Messrs. Buntain and Jenkins were in excellent form and despite the fact that this locality has been strongly Liberal in the past, were tendered a good hearing, which shows that the people are seriously regarding these political matters and seem to prefer the Conservative platform.

Mr. J. H. Buntain was the first speaker. He first of all expressed his pleasure at meeting the people of North River and vicinity to discuss with them the political questions of the day and thanked them for their support at the last election. He then referred to the records of the two parties. He showed that in 1919 the Liberals were elected on a platform which they utterly failed to implement while in 1923 Premier Stewart issued a manifesto which he has redeemed in full and today he stands before the people of this province with his record unblemished. He showed how the Conservatives had saved \$55,000 in the Public Institutions and had greatly exceeded the Liberal grants to orphanages, hospitals, etc. "We were able to do this," said Mr. Buntain "because we were economical and that is the kind of government you should return to power."

In dealing with temperance he said that it was a question which had engaged the minds of the people for many years. He told of awful terrors, crimes and vices which have sprung up under prohibition. He referred to the Rev. Mr. Herman who with all the solemnity of a minister of Gospel exposed the crime and the vice which is ruining this country today at his memorable meeting in the Prince Edward Theatre last fall, and asked the Ministerial Association to look on. But this exposition failed to raise the Temperance people to action and on the memorable night of March 15th last, Premier Stewart, like a bolt from the blue announced a policy of Government Control and immediately an S. O. S. call was sent all over Canada by the Temperance Alliance. He read from the Temperance Bulletin the plan of the Alliance which does not at all coincide with that of Mr. Saunders, and is merely a smoke screen to try to drive the Liberals into power. In closing Mr. Buntain asked the people to support Mr. Jenkins and himself promising them a better temperance law (loud and prolonged applause).

Mr. B. W. LePage next presented the finances from the Liberal point of view. He gave as a reason for the Liberals raising the taxes that there was a lack of revenue but this statement was not in accord with the one he made in his campaign when he said that there was no need of increased taxation. He made his usual statements that Premier Stewart had absolutely nothing to do with getting the \$40,000 or the \$125,000 in dealing with the temperance question, he said that if Government Control carries the people of this province will be responsible for every accident which happens but he did not say that we were responsible for the

sad fatality which occurred at Southport wharf under prohibition. He also made the astounding statement that if Government Control wins in this Province the Liberals themselves will vote to open rum shops in every district.

Hon. L. L. Jenkins rose to speak amid loud applause. He thanked the people for their support at the great pleasure which it gave him to be able to stand before them with his platform fully redeemed. Mr. Jenkins again expressed himself as being opposed to a personal card because he considered it an insult to the intelligent people of this province to go and coax them for their support and he hoped that it would be abolished by law. He proved that the Liberals had depleted the sinking fund by taking bonds and placing them in ordinary account. This, Mr. Jenkins said, was the reason there was an increase in the amount of interest because Premier Stewart had to borrow money to replace the bonds which had been taken out. He explained that the increase in the cost of the Agricultural Department was due to the fact that the King Government had withdrawn the agricultural grant of \$32,000 to this province. Dealing with temperance he denied the statement of Mr. LePage that the brewers were sending money into this province to defeat prohibition but he did show that the brewers and distillers had paid money into the Liberal campaign funds at the last federal election. He quoted Sir Allan Aylesworth, Rev. Canon Cody, Rev. Mr. Martin, and Mr. Milton Campbell to show that Government Control has greatly improved conditions wherever it has been tried. In closing he made an earnest appeal to the people to use their intelligence which God has given them and seriously consider this question. "If you do this," said Mr. Jenkins, "I have no doubt of the result." (loud applause).

Mr. Angus McPhee was the last speaker. He spoke for about fifteen minutes along the lines on which Mr. LePage had already spoken and failed to shed any light on the political situation.

Mr. Buntain moved, seconded by Mr. LePage that a vote of thanks be extended to the chairman for the able way in which he had conducted the meeting.

Kensington Horses

The Kensington district has been noted for many years for the excellency of its horses—both speed and draught. That there is more than average interest taken in the speed development of the noblest animal of the brute creation is evidenced by the number of Kensington representatives at all the P. E. Island races, and also at many of the race meets on the Mainland.

In the Semple Stables there are John D. Forbes, who did a mile at three year old in 2:15. This remarkable horse was the victim of an accident when in the act of making an unusually low record, which practically put him out of the racing game ever since. Mr. Semple expects to have him ready for racing in the latter part of this season. There is also Miss Luanda, (2:17 1/2) Miss Eldred (2:18 1/2)—in foal to John D. Forbes—also the Longset and Frisco Direct three year old colts, which are expected to start in the colt "classic" at New Annan on Aug. 17th.

Premier Witte, 2:10, born and bred in the "purple" is in charge of Mr. Fred Shea, Kensington, Watson Peter, (after Chestnut Peter, 2:03 1/2), bought at Madison Square some years ago by the late lamented Hammond Kelly, owned by G. B. Clark is now groomed and managed by Mr. Gerald McLean, Kensington.

Lord Strathcona, (draught) goes on an Eastern itinerary on charge of his owner, James Gorman.

Teddy Jackson, (by Capt. Aubrey) owned by William Tombs, went bad on scoring last year, but is liable to "deliver the goods" this season. Helen S. (by Gov. General), out of the mother of Winnie Aubrey, owned by W. E. Sohey, New Annan, showed up well in ice races last winter, and is expected to be a factor in race meets during the coming summer.

Keemah Aubrey, 2:17 1/2, the pride of French River, is to be placed in Mack Steele's hands to be fitted for racing.

Lloyd George, 2:18 1/2 (Dr. Bowen's) has been under the careful tutelage of Mack Steele for some time, and is reported to be in the "pink" of condition.

Christy Dillon (the Illinois mare) is now owned and being driven by Frank Glover of Kelvin.

Lois Guy, 2:18 1/2, (imported to P. E. I. at the same time as Miss Belle Rico), is to be prepared for racing by her owner, Mr. Leighton Rogers, Kensington.

In W. B. McArthur's Stable there is the irreplaceable old time Marltime Champion trotter, Baby Logan (23 years old). This grand old race mare can pull a wagon over the road as fast as any horse. There is also the Longset colt (from Belle Rico) which will be raced in the New Annan three year old class. Also several other green colts of good promise.

There is also a big number of colts which figured prominently in ice races during the past winter—some of those will be seen on the local tracks this summer.

We must not forget Campbellton Belle, (not Joe Bannan's original), now owned by Mr. McArthur. She is an Aquiri colt out of a Parkwood mother, she was raised by Chas. McLeod, of Stanley Bridge. This mare gives promise of "low down" speed. She won all her races last winter—as did her full sister now owned by Mr. Thos. Cullen, Sherwood.

A number of the above mentioned horses will furnish thrills to the racing public at the big meet in Summerside on Dominion Day—the opening event of the P. E. Island racing season.

'Eclipse Specials' Are Fully Booked

LONDON, June 18.—Millions of people in the British Isles are making plans to see the total eclipse of the sun June 29th. Twenty-seven "eclipse specials," eight from London, which one railway is running to the area of total darkness in the Yorkshire moors are already full. More than 22,000 applications for tickets have been received, and more trains are being arranged and accommodation provided for the thousands of men, women and children who will be transported to the wilderness of the Yorkshire moors. Every city, town and village will rise with the dawn to see the eclipse and more airplanes will be in the sky than before the war.

Special arrangements are to be made for the King and Queen, and other members of the royal family to see the first total eclipse visible in England in two centuries. The Prince of Wales will motor into the totality zone at dawn from Witherstack Hall, near Carnforth.

Treat corns with Minard's Linctament.

Government Control Controls ALBERTA PROVINCIAL POLICE ANNUAL REPORT 1926

The following is an extract from the annual report of the Alberta Provincial Police for the past year.

"During 1926 we prosecuted 1077 cases and obtained 1000 convictions. There was a decrease of 34 cases under the number of prosecutions entered in 1925. The fines imposed amounted to \$7,225.00. There were 92 jail sentences imposed and the estimated value of the liquor sent to the vendors is \$4,297.50.

"There is very little bootlegging at the present time in the province, and I find that the public generally ARE WILLING TO GIVE US INFORMATION WHEREAS, PREVIOUSLY, UNDER THE OLD ACT, IT WAS VERY HARD TO OBTAIN. There is A MARKED INCREASE IN RESPECT FOR THE LAW. Under Prohibition, the Police appeared to be almost alone in their efforts to enforce it; there appeared at that time to be a general idea abroad that it was "smart" to circumvent the law and get a drink or a bottle of whiskey. There has been a little smuggling, particularly from Fernie, B. C., taking liquor through to Montana. Two or three loads were captured, the cars and liquor being confiscated, but there is very little of it going that way. Some is drifting through in freight cars but the most of the liquor going from Fernie to Montana is going through the other way by means of cars and the railways. There is no doubt that there is some illicit manufacture of liquor in the more remote parts of the province but very few complaints have been received upon the illicit manufacture of Moonshine.

We have co-operated in every way with the Liquor Commissioner and he and his staff have reciprocated.

Use This Liquid To Peel Off Corns

An amazing remedy—acts in a few seconds and causes no pain. The corn shrivels up and loosens. Another application or two and the corn drops out. Wonderful—yes it is—but that is just how Putnam's Corn Extractor from many druggists. Get your bottle to-day. Refuse a substitute for Putnam's.

Bringing Up Father

Hauck Fire Gun The Fox Rancher's Only Effective Disinfectant

Parasites are rampant in the Fox Ranches as well as on the Farms of P. E. Island and must be eradicated if our valuable products of Farm and Ranch are to be saved.

Farmers are in the van protecting their crops of potatoes and grains by generous spraying and treating with disinfecting solutions.

Fox Ranchers must also wage war against the Ranch's numerous parasites, ESPECIALLY THE DEADLY HOOKWORM AND LUNGWORM. These successfully resist such strong solution disinfectants as pure carbolic acid and can only be destroyed by the intense flame, 1,800 Degrees Fahrenheit, generated by the Hauck Fire Gun. This flame burns up the minute disease-eggs and scorches the ground so thoroughly that no parasitic life is left after being thus treated.

Many of our leading ranchers are now using the Hauck Fire Gun with excellent results and are satisfied that it has solved the difficult problem of proper disinfection of fox pens.

Our Mr. J. Eric Love is demonstrating this latest scientific discovery in ranch disinfection and will be pleased to call on interested parties. Phone or write to our address:
