

# Agonizing Eczema

Body Covered From Head to Feet.  
5 Months in Bed—Burning, Itching—Blind at Times.

## Another Great Cure by Hood's Sarsaparilla

"I had a very bad attack of eczema, that terrible skin disease. No one can imagine the agony I endured.  
"For five long months I lay in bed, tossing this way and that for bodily comfort.  
"I had two doctors and was on a bread and milk diet for more than five months. No meat, potatoes, cereal or fish. I was like a ghost from bread and milk.  
"I did not have the eczema in one place only, but from the top of my head to the soles of my feet. My hair all fell out, and I was blind at times.  
"I had 32 boils and 4 carbuncles at one time, was a mass of scabs and pus.  
"Oh, the Burning and Itching and the treatment with all kinds of salves and ointments! I did not have water on my face or any part of me for over five months. Instead, I was washed from head to foot in sweet oil, with a little carbolic acid. My scars were like a drug store. Then I had a

specialist, who said that in all his experience he never saw such a sight as I was. He wanted to take me to a clinic in New York, but I said no.  
"About that time a friend suggested that I try Hood's Sarsaparilla. My husband got me a bottle, and from the first I began to improve, but it took a number of bottles to relieve me of that terrible affliction.  
"Now I am quite well, and feel I owe my life to Hood's Sarsaparilla.  
"My testimony can be fully verified by the leading doctors of this city." Mrs. FANN WYNNE, 817 So. 2nd St., Plainfield, N. J.

**Keeps All in Health.**  
"For years we have used Hood's Sarsaparilla as a valuable spring medicine. We would not be without it in the house. It has worked wonders in our family, keeping us all in perfect health." LULU SCHNEIDER, 63 Perry St., Woodstock, Ont.

## THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.  
With a daily circulation of its morning and rural edition now about 8,000 and growing from day to day, it has broken all records for a daily publication in a small community.  
Charlottetown has a population of 12,000 and Prince Edward Island has 103,000. The Guardian's daily circulation is therefore as 1 to 14 of population in the city in which it is published, or 1 to 13 of the population of the Province. This is the management believes, unequalled by any daily newspaper published in Canada.  
Take one or two comparisons with other leading newspapers in other cities and provinces.  
St. John has a population of 40,000 and the Province of New Brunswick 330,000. St. John has five newspapers and among these 'The Telegraph and The Sun' are perhaps the foremost. Each claims a circulation of about 8,000, or say 1 to 5 of the population of that city and 1 to 40 of the population of the Province.  
Or again: Toronto has a population of some 250,000 and the Province of Ontario about 2,250,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 30,000. That is as 1 to 5 of the population of Toronto and 1 to 41 of the population of Ontario.  
The point is, that The Guardian covers the field of its circulation three and a half times as well, it compares with population of the city, and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.  
These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patron alike. They have a right to know how completely their favorite journal endorses their reading public among which it circulates and how completely it covers the field as an advertising medium in this City and Province.

## STOCK NOTES.

John Hume of Winsloe, passed through the street yesterday with a pair of matched draft horses for Hubert Mill, of Springhill, N. S. These horses were admitted by competent judges to be the best that have left the Province for some time. They were evenly matched in color, size and action, their total weight being 2300 pounds. Special mention should be made of the mare, sired by Crown Rights, and bred by Hammond Watts, Hampshire. She was the chief object of admiration, and the breeder felt very reluctant about accepting the offer of \$300 for her. This is convincing evidence of the value of selecting pure bred sires which the farmers of this Province should not overlook.
