

## Another policy-holder reports...

"I AM a policyholder in The Mutual Life of Canada, an average man with the average man's problems. I know what people mean when they talk of stretching the dollars to meet all the needs. That is the reason why I decided to insure in the first place. I knew that it was unfair for me to go on making plans for the future with my family and doing nothing to guarantee their fulfillment if I should not be here. It was then that I realized that the only practical solution was life insurance.

"I DISCUSSED my needs with a Mutual Life representative and as a result I purchased Ordinary Life insurance.

"THE AMOUNT I pay remains the same each year. I share in the Company's earnings and my protection remains in force as long as I live. But I also have the option of using the cash value of the policy to provide a retirement income at any time I choose. What I shall do will depend upon my circumstances, but it gives me a great sense of security to know that I own this insurance with its constantly increasing values."

Let a Mutual Life representative help you select a policy adapted to your particular circumstances!

### W. C. T. U. NOTES

#### WHERE SAMARITANS FAIL

When priest and Levite passed him by  
 The good Samaritan  
 Bound up the wounds of him who lay  
 Half dead upon the broad highway  
 And saved the injured man.  
 But one thing he forgot to do  
 For him who came to grief  
 Although he saved one wounded man  
 He failed to stop the robber clan  
 Or catch a single thief.

The brewers, like the Levite pass their victims on the way  
 And the distillers, like the priest  
 Don't seem to worry in the least  
 What happens to their prey.  
 Our modern Good Samaritan  
 Over the situation grieves  
 And often helps the "fallen man"  
 But isn't it a better plan  
 To put a stop to "nieves."

#### Putting Prince Edward On The Map

The December 1st edition of MacLean's Magazine, in an article entitled "Beverage Room" has the following:  
 "Canada has national leadership in the consumption of alcoholic beverages, as the following table (based on official reports for last year) shows:  
 "N.W. Territories \$ 265,540  
 "Yukon 713,638  
 "New Brunswick 9,485,947  
 "Saskatchewan 17,417,841  
 "Nova Scotia 17,988,344  
 "Manitoba 18,159,339  
 "Alberta 26,720,472  
 "British Columbia 30,779,268  
 "Quebec 93,758,338  
 "Ontario 127,624,996  
 "Dominion Total \$342,901,513

"The increase for 1945 is expected to amount to about eleven million dollars. To this must be added a guess at the size of the bootleg business—another twelve million. This year too, there may be some figures from Prince Edward Island, where qualified medical practitioners may prescribe up to one quart of spirits or 12 quarts of beer per week for their patients.

Prince Edward Island wasn't in with reference to the 1944 category. Our progressive (?) Government, however, are going to see to it that we get into the swim (swim is right), this year. We're not going to lag behind the other provinces, not we. Why don't we let people sell us, why don't we let liquor with the best (or worst) of them? Why don't we have a few divorcees and murders? Surely it can't be possible that we are right and all the other provinces wrong!

Don't worry. The Government is making every provision for the people to drink as much as they can handle, and more; they are also making provision to handle the divorcees, and through the vendors' shops are providing potential criminals in the shape of drunken drivers.

In a recent paper we read this headline: "Crime wave continues to trouble Ontario." That is what one would expect after reading MacLean's statement: "Ontario has national leadership in the consumption of alcoholic beverages."

Ontario, do you want that sort of thing here? Is that what you really want? Do you want to put Prince Edward Island on the map bibulously, maritally and criminally, or are you content that she should remain a decent, moral and law-abiding province, the "Garden of the Gulf" without the serpent in it? Do you want to see the province governed by the liquor interests or by the people? It is for you to say. Say it with votes, certainly; but also say with words here and now that you want this amendment removed. In this way you may save the Government the trouble of removing all your money

LIGHT AND SIGHT

Some men pray for light when what they need is sight. There was plenty of light when the blind men cried out for Jesus to have mercy upon them; but they could not see it until He opened their eyes. So today, there are floods of light upon every matter over which so many people perplex themselves—upon our duty, our relations one to another; upon what is right and what is wrong among men; upon our responsibility to God; upon His law, His love, His divine selfhood. And yet, amid the effulgence of this sunset hour, some pray for light upon these very things when they should be following in confident obedience the light which is pouring its glory around them. If any man will do His will, he shall know of the doctrine. Let us pray. "God give us eyes."—Selected.
