THE FORD CAR SIX-BRAKE SYSTEM

Grips with Silent Power

THE greatest safety feature on any automobile—the braking system—has been developed on the Ford car to a degree that insures absolute driving confidence. Being fully enclosed, the internal expanding brakes on all four wheels are free from any danger of impaired performance from mud, sand, road dirt, grease or other foreign matter entering the mechanism or between the bands and drum.

The four wheel system is operated by a foot pedal, while the emergency or parking system of two brakes, one on each rear wheel, is distinct and separate, operated by a hand lever. This added security is made possible through the unique design of the Ford steel spoke wheels to which drums are fitted to accommodate two sets of internal brakes on the rear wheels.

The smooth, even braking of the Ford car yields more advantages than maximum safety at all times, since it makes tires last longer and adds immeasurably to riding ease and driving comfort.

"THE ROAD BACK"

On May 9th, 13th, and 24th, the Cavendish Dramatic Club presented the popular three act comedy-drama "The Road Back" in Cavendish.

Clifton and Hunter River respectively, each night, meeting with splendid success and an enthusiastic audience.

These popular players have accepted invitations to Harrington, Cornwall and South Rustico. A great deal of their success is due to the help given by Mrs. H. S. Bishop which was very much appreciated.

Ernest Webb as "Pa Fowler" the discouraged head of the household out of work, plays his part exceptionally well and brings out to the full his decision in the second act to "stand up for his rights."

Mrs. James R. Stewart in the part of "Ma Fowler" leaves nothing to be desired in the way of comedy-drama, with her weak heart and bum ankles, and her fondness for novels and "chocolates." Her love for her son, although in reality his ruination, was to her the main thing in life.

Mary Stewart as "Jennie Fowler" the only one who had been a success plays splendidly bringing out the

full pathos and sweetness of her part.

Anita Webb playing as "Milly Fowler"—the flip flapper of the Fowler family, is surely, a pretty, peppy kid.

Sterling Stewart as "George" the weak son of the "Fowlers" plays a difficult part well.

Thyra Clark in the role of "Mrs. Binders" the gossiping neighbor is especially good and brings a laugh every time.

Ira McCoubrey as "Arthur McLeod" Jenny's friend and Upton Smith as "Blake Chester" who is not the only one who wants to slip the ball and chain on "Amelia Caroline Fowler" both do really good acting.

A. C. MacNeill in the part as "Uncle Ben from Arizona" plays well all through.

Mrs. C. F. Stewart as "Mrs. Chester Blakes" aristocratic mother acts her part very well.

Wesley Smith ably fills the part of "Mr. Harrison" the banker.

Much credit is due these players for their worthy efforts to pay off the debt on the Hall in Cavendish, which was enlarged some months ago. In the near future it is hoped that still further improvements will be made.

The many friends of Miss Ellen Smith, who had a serious operation in the City Hospital about three weeks ago, are pleased to see she has returned to her home in Georgetown, feeling much better. She speaks highly of the Sisters, Nurses and Doctors.

Insidious Eye Strain

We use this adjective advisedly.

Sufferers from Eyestrain may have perfect vision and therefore do not suspect the presence of any evil defect.

The motive power of the entire human organism is Nerve Energy.

Normal eyes, it is computed utilize about 20% of this Nerve Energy, but when Eyestrain is present, a much larger proportion is required. Hence defective eyes through their consumption of an excessive amount of Nerve Energy may seriously affect the functioning of other organs of the body and produce ill health.
