**They can't slip with the bull-dog grip**

Many farmers are surprised to find Maritime fencing, even when it has been up for a number of years, remarkably free from loose or broken uprights and laterals. Examination shows, however, that the Maritime "bull-dog" lock holds the joints so rigidly that they cannot give or pull out of shape; and because we use nothing but large, strong, "live" wire—No. 9, heavily galvanized—they are able to stand the daily stress of wear and tear without breaking.

Maritime fence is always slightly, always straight, and always efficient. It's bull-strong and hog-tight, because it is made to withstand far greater strains than any it is likely to endure. It gives you all that you can expect in a wire fence at a reasonable price.

Before you buy or even select your fencing, learn first what the Maritime has to offer in the way of REAL fence service. A postal brings our illustrated catalogue with full particulars.

**Assured or Insured-- Which?**

Should we say life assurance or life insurance? Many insurance (or assurance) people have wrangled over this.

It depends upon whether you wish to refer to the policyholder or the beneficiary. The policyholder is **assured**, the beneficiary is **insured**.

The instant that a man comes into possession of a Mutual Life Policy he becomes possessed with an **assured** feeling as to the security of his family.

On the other hand his family is immediately **insured** by means of the policy against poverty and all the misery it entails.

So a policy in the Mutual of Canada is at once a policy of assurance and a policy of insurance. You are assured, your family is insured.

Our object is to give the largest amount of insurance for the least possible outlay.

**Joint and Muscle Pains Banished by Nerviline**

**IT CURES RHEUMATISM**  
 Thousands of people, chuck full of the joy of living—happy, glad, bright people, that Nerviline has cured of their pains, all tell the same wonderful story of its power to drive out the aches and tortures of rheumatism and kindred ills.  
 "My goodness, but Nerviline is a miracle-worker," writes Mrs. Charlotte Chipman, mother of a well-known family residing at Mount Pleasant. "Last month I was so crippled up with sciatica, and muscular rheumatism as to be almost unable to do a bit of housework. My joints were so stiff and the muscles so frightfully sore that I even cried at times with the pain. For years we have used Nerviline in our family and I just got busy, with this wonderful, good old liniment. Lots of rubbing with Nerviline soon relieved my misery and I was in a real short time about my work as usual."  
 No matter where the ache is, no matter how distressing the pain you can rub it away with Nerviline. For forty years, it has been curing lumbago, sciatica, back-ache, colds, chest-ache and all sorts of winter ills. Keep a large 50c family size bottle handy and you'll be saved lots of trouble and have smaller doctor bills. Small trial size 25c. at dealers everywhere.

Mr. Ramsay replied very fittingly and thanked the young people very much for their kindness. After a good supper had been served the evening was spent in dancing and music.

**LECTURE AT CLUB MEETING.**  
 At Mont Carmel Hall on Tuesday March the ninth a large number of people assembled to hear an interesting and valuable lecture on "Education" given by Mr. Alphonse Arsenault, Graduate of Laval University and belonging to Mont Carmel. The lecture was particularly worthy of the occasion as it treated especially of education in its first stages. That is in connection with the primary school. He also spoke in a lengthy discourse of education as to its moral and physical effects on the child. At the close of the lecture, Rev. P. P. Arsenault, Messrs J. T. Richard, John F. Gallant, J. Arsenault and others passed a few brief remarks on the subject and each, especially congratulated Mr. Arsenault on his accurate ways of treating his theme. Finally a vote of thanks was moved, seconded and tendered to Mr. Arsenault for his worthy lecture to which he responded in capable terms. It was also suggested that Mr. Arsenault would be entrusted with the task of preparing another lecture if he wishes to do so. Rev. P. P. Arsenault again brought up this section. The meeting also dealt with the hauling of black muck from the swamps which it is evident is a strong factor as a fertilizer. At 9.15 the meeting adjourned.—C.

**RECRUITED AT HALIFAX.**—Recruiting in Halifax is not as brisk as the staff in charge would like. Included among those who enlisted on Sunday at the Parade station, was a Halifax exchange, was a French Canadian, born at Prince Edward Island. His name is Poirier Azade, and he resides at 150 Upper Water Street. Another P. E. Islander is A. N. McLeod, Port Vernon.

The death took place on Friday morning of Mrs. Peter Arsenault, Abram's Village, at a ripe old age. Deceased had been in declining condition for some time and died sanctified by the sacraments of the Catholic Church to which she always was a devout member. Her husband predeceased her some two years ago. She is survived by a son, Mr. Ferdinand Arsenault, at home, also two daughters, Miss Emilienne Arsenault at home and Mrs. Arsenault of Mt. Carmel.—M.

Railway and Stephen Hession, Attorney-at-Law are nephews of Mr. Hession.—E.

**SPORT POSTPONED.**—Owing to the continued broken weather and the great depth of snow now on the ice, the races scheduled by the New London Driving Club have had to be postponed until a thaw comes, but this does not by any means signify that interest is lagging. Two good classes are on the card for the next day, viz., 2.40 mixed and a three-year-old class, both of which are well filled, and although this is the last race on the winter's schedule, it now looks as though it will be necessary to call upon the local free-for-all's again, as some of the boys are anxious for revenge, and if it comes to a head there will be one more day, and another card. The N.L.D. Club is justly proud of its record this winter, having already pulled off five successful days' racing and every member is pulling as hard for good sport as at the beginning of the season.

**ABRAM'S VILLAGE.**—The regular monthly meeting of the Succursale Sacerdotale of the Assumption Society was held in the C. M. B. A. hall, here being a good attendance. All the officers with few exceptions were present and the usual proceedings were attended to and disposed of after due deliberation. Valuable remarks were made by several of the members in the interest of the society. Suggestions were made with a view to securing new members, and a more punctual attendance to the meetings. Mr. Joseph H. Arsenault in his remarks made reference to his son Alyro who is now in Europe at the front having left college whether he had been sent by the society. He expressed regret that it had happened thus, but was reassured by his fellow members, that the course adopted by his son was one worthy of commendation. Regret was expressed by the members at the approaching departure of Mr. John Leclaire for Charlottetown. Mr. Leclaire said he also felt grieved at having to sever his connections with his fellow members. Nevertheless he would be faithful to the society and would keep in touch with it, and would attend their meetings as much as he could. A resolution of condolence was passed and conveyed to Mr. Antoine C. Gallant at the death of his father Cyprien Gallant, also to Mr. Ferdinand Arsenault at the death of his mother. One member was asked to give a lecture at the next meeting which will take place in April.—M.

 Many diseases of childhood and youth are due to faulty diet—a diet that restricts the amount of needed mineral salts, the lack of which, as your family physician can tell you, often leads to rickets and other diseases of mal-nutrition.
