does come home, it is only a few hours before he must be off again on his next trip to the Banks. Anyone privileged to visit a fisherman's home knows what a wonderful success his wife makes of her job. A chance visitor to a home along the South Shore of Nova Scotia came away full of admiration for the entire family. The father spent most of his time fishing off the Tanook Islands and cleared not more than \$200 in cash for his entire year's work. The mother tended the home, looked after the farm animals, had a garden in which she grew everything from vegetables to rambling roses and had succeeded in furnishing the house comfortably with what she called, "my rug money," made from the sale of hooked mats. The oldest boy was working his way through College. A young shaver of ten was a genius at making model airplanes, etc. out of bits of fish cases and showed the visitor a huge fish net he had knitted. A little girl of seven displayed some delightfully designed small mats hooked by herself, one of which had taken first prize at an Exhibition in a nearby town.

The fisherman's wife and family are as brave and fine as he is. They are doing all they can to help themselves. Surely their industry deserves the support of fellow citizens. 80,000 families could all live comfortably if Canadians ate fish only as often as twice a week!

The reformer trying to put an end to night life sometimes turns out to be a bed-bug exterminator.

No Happiness In the Home When the Mother Is Sick

The tired, worn out mother cannot make a happy home if she is sick and worried by the never ending household duties. She gets run down and becomes nervous and irritable, downhearted and discouraged, can't rest at night, and gets up in the morning as tired as when she went to bed.

Women suffering in this way will find in Milburn's H. & N. Pills a remedy with which to recuperate their health, build up the run down system, and bring back their bodily vigor.
