The Mutual Life Assurance Co. **OF CANADA**

Is The Fastest Growing Company In Canada

Over $2,700,000.00 MORE insurance was written by this company last year, than in any previous year.

The expenses were $10,224 LESS than in 1905, while the volume of business on its books was much larger.

Is it any wonder then that the whole Canadian people have confidence in the wise, conservative business management?

And they show their confidence by taking out enough insurance in The Mutual Life to make it the fastest growing company in the Dominion.

THE GUARDIAN COVERS THE FIELD

The Guardian covers the City and Province within which it is published more fully and completely than any other newspaper printed in Canada.

With a daily circulation of its morning and rural edition now about 8,000 and growing from day to day, it has broken all records for a daily publication in a small community.

Charlottetown has a population of 12,000 and Prince Edward Island has 103,000 The Guardian's daily circulation is therefore 1 to 1½ of population in the city in which it is published, or 1 to 13 of the population of the Province. This is, the management believes, unequalled by any daily newspaper published in Canada.

Take one or two comparisons with other leading newspapers in other cities and Provinces.

St. John has a population of 40,000 and the Province of New Brunswick 320,000 St. John has five newspapers and among these The Telegraph and The Sun are perhaps the foremost. Each claims a circulation of about 8,000, or say as 1 to 5 of the population of that city and 1 to 40 of the population of the Province.

Or again: Toronto has a population of some 250,000 and the Province of Ontario about 2,225,000. The Toronto Globe is a great Canadian newspaper, known all over the world as one of the foremost journals. The Globe's published daily circulation is slightly under 5[illegible] That is as 1 to 5 of the population of Toronto and 1 to 44 of the population of Ontario.

The point is this that The Guardian covers the field of its circulation three and a half times as well, if compared with population of the city and over three times as well, taking the population of its Province, as the best New Brunswick and Ontario daily newspapers, and these are admittedly among the best in Canada.

These facts are printed in no spirit of boasting, but for the satisfaction of Guardian readers and advertising patrons alike. They have a right to know how completely their favorite Journal's endorsed by the reading public among whom it circulates and how completely it covers the field as an advertising medium in this Citv and Provian

Acetylene is the Safest of all Artificial Lights

Over two million people in America to-day are using acetylene for lighting.

Yet a year's record shows that acetylene is responsible for fewer fires than even the sun's rays.

Kerosene and gasolene head the list with a record of 8,222 fires.

Next in order comes electric light, with 1,048 to its credit; coal gas, a close second, with 1,033,—

Candles caused 453 fires, and the sun's rays 22.

And acetylene, what do you suppose? Four!

Just think of it, and acetylene is being used by two million people!

This remarkable illuminant is responsible for less than one-fifth the number of fires caused by the sun's rays.

In comparison, the sun's rays are much more dangerous than acetylene.

Could we give any stronger reasons for the use of acetylene, as an absolutely safe illuminant, than these?

But the quality of your acetylene depends upon the quality of the carbide used.

Why not have the best by using [S] Calcium Carbide?

We can give you lots more information about carbide. Write us.
