

Gordon Spent Trance-Like Night Of Prayer In Garden Of Gethsemane

New Light Thrown on Life of Hero of Khar-toum—Soldier and Mystic Claimed Wrong Spot Chosen for Scene of Crucifixion.

BORDOWN, Eng., Oct. 16—The remarkable fact that General Gordon once spent the night praying on his knees in the Garden of Gethsemane is disclosed by Professor Bernard Freeman, now in his 81st year, who is one of the few men alive who lived with Gordon.

was kneeling in the Place of the Agony, adjoining the garden, where Our Lord prayed on the night of his betrayal. He, too, was praying fervently, as if in a trance.

Professor Freeman, an Englishman born in Constantinople, and speaking innumerable languages—he knew eight when he was 12—was with Gordon in Palestine only a year before Gordon went to Khartoum.

"Not to interrupt him with our talk, we stole quietly past him to reach the dormitory where we slept; but Gordon never moved. It seemed as if his soul had left his body.

In The Moonlight

"One beautiful moonlight night," says Professor Freeman, "when Gordon slept, by special permission from the guardians in the Garden of Gethsemane, I was sitting up late, talking with my old friends, the Franciscan monks, telling them of my adventures. It was about 12 o'clock.

"On the following day he pointed to a hill shaped like a skull, just outside the wall of Jerusalem, opposite the Damascus Gate, as being the probable site. This is known today as 'Gordon's Calvary.'

"Gordon's emphatic assertion came as a bombshell to the Christian world, although it is substantiated by the existence on this hill of a tomb hewn out of the rock, as described in the Testament, whereas on the present alleged site there is nothing of the kind."

THANKSGIVING SERVICE AT BELFAST—Thanksgiving was appropriately observed at the Presbyterian Church, Belfast, on Sunday evening, and with a large gathering of people. The pulpit and its surroundings, including the altar table, were heavily clustered with appropriate floral decorations. The special thanksgiving hymns were heartily led by the choir and evidently the congregation caught the spirit of this special occasion of worship. The Rev. D. L. Griffiths based his timely discourse on the words of Moses, found in the book of Deuteronomy, "Thou shalt remember all the way which the Lord thy God hath led thee." The minister often during the sermon emphasized the word "remember," reminding his hearers how forgetfulness led to ingratitude, and ingratitude led to unbelief, and finally even to the forsaking of one's profession of faith. Among the blessings we needed always to remember were Life, Friendships and "Social and Religious Liberty." Miss Annie McRae was at the organ and during the service Mr. Dave Griffiths rendered the sacred solo "I Will Follow," and Mr. Jack Griffiths rendered "Christ the Friend." The service was characterized by a highly spiritual tone throughout, and undoubtedly proved a blessing to all present.

CANADIAN COWS WELL RECEIVED GREAT BRITAIN

MONTREAL, Que., Oct. 17.—The famous Cheshire cheese of England is taking on a Canadian flavour. Next time you eat Cheshire cheese you will probably be consuming the product of Canadian cows which have invaded Cheshire County. The cows from the first shipments of breeding cattle from Canada to Great Britain were purchased mostly by farmers in Cheshire County, one of the best dairying districts in England both for cheese making and as a source of city milk supply. These first shipments have created a favorable impression among British dairy farmers who are greatly pleased with the results in milk yield and in the health and vigor of the stock, states the Agricultural Department of the Canadian National Railways. Over a period from May to August fifteen shipments were made comprising Holstein-Friesian and Ayrshire and their crosses. A number of the cows freshened during the Atlantic voyage and in the port lairages but there were no losses of either cows or calves. Most of the others freshened soon after arriving at the farms. From all of them milk yields have been sufficient to convince the respective buyers that the investment in a good one. The preference in age is for second calf cows of reasonable good size.
