Both the Halifax and A. W. Perry of the Plant Line arrived yesterday on time, despite the very thick weather encountered from Charlottetown to Boston. The Halifax had 150 passengers for Boston, the return travel now beginning. The A. W. Perry had 113 passengers, between 60 and 70 of whom were for Halifax. Although much of the accommodation on the Plant liner is booked for later, just now the travel is much lighter than the corresponding dates of last year, owing to some extent, to the very cool weather, prevailing along the North Atlantic coast. H. E. Blakney, of the A. W. Perry remains off this trip to enjoy his vacation in Halifax. His duties will in the interim be performed by C. A. Blakney of the Plant Line Office in this City. The mid-summer holiday season in England has somewhat interfered with the progress on the new Plant liner Evangeline, but since work has been resumed with full staff, there have been 800 men placed on this ship to expedite her completion. There is yet no definite date set for the sailing of the Evangeline, on account of her incomplete condition.—Halifax Exc.

**More Money for the Small Dealers**

The big man isn't big in spite of the telephone—it's because of it, to a certain extent.

If you're satisfied with the profits your great-grandfather made, if you just want to eke out a bare existence from your business, if more business don't look good to you—well, a phone will be just in the way—a bothersome ornament.

But, mark it down plain, if you want more business, a larger and better class of customers, straight tips on all the markets, the most profitable of inside information and the respect of your customers and envy of your competitors—in short if you want success—you'll see what we can do for you, and you won't waste time over it either.

The phone will bring you business—it will prove its worth in better returns, in actual additional cash in your till.

Let Contract Dept. prove these facts to you.
