

Sore Chest Cured In One Night

Broke Up a Heavy Cold, Relieved Pain in the Side, Stopped an Irritating Cough.

"Anyone that goes through all that I suffered last winter will appreciate the value of a remedy that cures like Nerviline cured me. These are the opening words of the solemn declaration of E. P. Von Hayden, the well-known violinist. 'My work kept me out late at night, and playing in cold, drafty places brought on a severe cold that settled on my chest. I had a harsh, racking cough and severe pains darted through my sides and settled in my shoulders. I used different liniments, but none broke up my cold till I used Nerviline. I rubbed it on my neck, chest, and shoulders, morning and night, and all the pain disappeared. Realizing that such a heavy cold had run down my system, I took Ferruzone at meals, and was completely built up and strengthened. Since using Nerviline I have no more colds or pleurisy, and enjoy perfect health.'"

Nerviline Cures Chest Colds

It's because Nerviline contains the purest and most healing medicinal principles, because it has the power of sinking through the pores to the kernel of the pain—these are the reasons why it breaks up colds, cures lumbago, stiffness, neuralgia, sciatica, and rheumatism. Refuse any substitute may suggest—in-ist on Nerviline only. Large family size bottles, 50c; trial size, 25c; all dealers, or The Catarhoxone Co., Buffalo, N. Y., and Kingston, Ont.

THE MUSIC OF BIRDS.

Familiar as all are with birds and their songs, still it is worth while to reflect on the beneficence of the Creator in giving birds to enliven field and grove, as well as flowers to adorn and beautify the landscape. Some things are common to their singing. They all express happiness and sing for very gladness. The early hours of the morning finds all ready to engage in their general jubilee, and when the peaceful hour of evening is drawing nigh and the sun is throwing his splendors over fields and shrubs, they have their vesper for the ears of declining day.

lose their way. Most of them build new nests, even in the old places, and seem to know in advance whether they will be amongst friends or enemies. There are those who complain that the birds like cherries and other small fruits, but they feed mostly on insects and worms. They destroy the larvae, too of insects that nearly amount to a plague. So their presence is a benediction. They freight the hours with music and aid the farmer in getting rid of many pests. We therefore petition for the birds. They are God's gifts to us. The landscape might indeed be beautiful without them but they enrich it by their living voices and the beauty of their forms. It is a great pity that so many young people are in part trained to make war on the birds the natural minstrels whom God has provided for our delight. —Rev. E. S. Porter, D. D.
