Flying Through the Air

is the feeling experienced when riding a Massey Harris Cushion Frame Bicycle.

Every ounce of power applied to the pedals is utilized; there is an increased sense of power because no power is wasted.

The Cushion Frame leaves the rider free to enjoy to the utmost the pleasures and benefits to be derived from cycling, as there is no jar or vibration, and it is a fact that one can ride fifty miles on a Cushion Frame with less fatigue than in riding twenty-five miles on a rigid frame bicycle.

Can be had in connection with the Massey Harris Bicycle. Last year's bicycles away down in price: Sundries and Repairs.
