"RAYS FROM THE RIALTO"

Dear Guardian:—It really seems as if we were to have no winter this season; old-timers say that they have never experienced such mild weather at this time of the year.

The play has been presented out of town and, from reports, audiences and critics were most enthusiastic.

Joseph and His Brethren, the great dramatic spectacle, is nearing its fiftieth performance and the prediction made at the time it opened will be fulfilled.

Cherry Kearton of London, will exhibit at the Playhouse today and Tuesday at 3.30 p. m. motion pictures of wild life and big game of the jungles of Borneo, India and Africa.

one of the world's most daring and original photographers. The long promised "Miracle" pictures are here. They represent a speculation of \$100,000, and are undoubtedly the most pretentious and tempting in America.

At last we will have the "Talking Pictures." Thomas A. Edison's latest invention, the Kinetophone, will be seen all this week at the Keith houses.

VALPARAISO, Chile, Feb. 19.—It is announced that the government has instructed the naval authorities here to investigate a proposal made by Lord Cochrane's syndicate for the formation of an Anglo-Chilean steam navigation company that shall turn over to the government a fleet of twelve new steamers of modern construction of 10,000 tons each, and with a speed of ten miles an hour, for service between Chile, Europe, Australia and Japan.

The steamers are to be the property of the Chilean nation from the start, fly the Chilean flag, and their construction is to be supervised by the Chilean government so that they may be used as transports. The total returns of the service are to be for account of Chile, but the latter guarantees to the company 5 per cent of its gross entries to cover running expenses, to establish a sinking fund of not less than £40,000 a year. At the end of twenty years, the government may either renew the fleet and contract for another twenty years or pay the company £1,250,000.

"My little daughter Louise, age 4 years, has always been delicate, anemic, had no appetite and seemed listless, and we could not find any reason that would help her, until we were advised to give her Vinol. She started taking it six weeks ago and inside of two weeks she showed marked improvement both in appetite, vim and looks. Being so well pleased with the results, I continued giving it to her, and words fail to express my gratitude, and faith in Vinol both as a blood maker and body builder. As my child was at an anemic for so long makes the reason all the stronger for me to recommend it to others in similar condition." Geo. E. Munro, Brooklyn, N. Y.

Vinol restores health and strength in conditions like this because in a natural manner, it increases the appetite, tones up the digestive organs, enriches the blood and strengthens every organ of the body.

Mr. Brown replied in fitting terms, thanking them most kindly for their remembrance which he shall ever keep as a token of friendship of his former companions on the battlefield.

PAARBERG MEMORIAL.—Notwithstanding somewhat disagreeable weather yesterday morning there was a good attendance at the Paarberg Memorial Service in St. James Church. The Chaplain, Rev. T. F. Fullerton, conducted the service and preached from Rev. 2, 10 "Be thou faithful unto death, and I will give thee a crown of life." Touching reference was made to the bravery of the two Charlottetown boys who gave their lives so nobly in the memorable South African War, of the many thousands who slept their last sleep on that far off and of the heroes of the antarctic expedition who bravely died in the cause of duty and which has moved all Canada within the past few weeks.
