

Little Advice About Christmas Gifts

You are going to buy some Christmas gifts this month; and, of course, some of them will be bought at the E. W. Taylor Store which has long been noted for its stores of fine gift-jewelry. Now, why not attend to the matter early this week, in fact. There are many good reasons why it is advantageous to do so. In the first place, you escape the hurry and confusion that comes later on, when our store is crowded with purchasers and sight-seers. You can select more leisurely now and look through the stock with more care and to better advantage. Another highly important fact is that you now have a larger assortment to choose from than after other Christmas purchases have been here and made their selections. Again, if you should decide after inspecting our stock now that you want some jewelry article of different pattern and design from anything we have in stock, we have ample time to send and get it for you by Christmas. We have catalogues here containing pictures and specifications of many things not in our stock... such as elaborate pieces of solid silver, which we cannot afford to carry in any assortment... and you may find it desirable to pick out a Christmas gift or two from these. So, isn't it in every way a good thing to come now and make your Christmas decisions while there is yet time for us to send for any special thing you may want?

A Sight Well Worth Seeing

Our store is a sight well worth seeing. Not that we decorate it with holly, or anything of that sort... it's too early for that yet... but that the contents of our cases suggest hosts upon hosts of especially happy solutions of the great gift problem. Few things can carry the abiding satisfaction and pleasure of a choice and tasteful piece of jewelry... a King, a Pin, a Brooch, a Charm, or a bit of Table Silver... and the choice of such an offering always bespeaks the best of taste on the giver's part.

We cordially invite you to visit and inspect the beautiful wares we have gathered for Christmas.

We can supply handsome rings set with birthday stones for the different months. This list may be useful for reference.

The birthday stone for January is Garnet, red.

The birthday stone for February is Amethyst, purple.

The birthday stone for March is Hyacinth or Blood Stone.

The birthday stone for April is Diamond.

The birthday stone for May is Emerald.

The birthday stone for June is Pearl. We have some Island Pearls.

The birthday stone for July is Ruby.

The birthday stone for August is Moonstone.

The birthday stone for September is Sapphire.

The birthday stone for October is Opal.

The birthday stone for November is Topaz, yellow or amber.

The birthday stone for December is Turquoise, blue.

Necklets, lockets, engraved or plain for initial, bracelets, chains, studs, thumbles, scarf pins.

Some Christmas Clocks

A Clock would make a good Christmas gift for almost anyone who lacks a good one. Therefore even this early we call attention to some exceedingly handsome new Clocks, in very novel shapes and designs, which we think many Christmas gift seekers will find decidedly to their fancy. If you come in and see one that you decide is just what you want for a Christmas gift, we will gladly put it aside and save it for you, on payment of a small deposit.

And, by the way, we will lay aside any article in stock that you may wish, on the same terms. So, if you see anything here now that you wish to capture at once, for fear that you would seek it in vain later on, we will willingly reserve it for you till Christmas week.

Pain Across the Kidneys For Three Years.

Suffered Great Agony. Could Not Stoop or Bend.

No disease is so quiet and stealthy in its approach as kidney disease. That is why it is so dangerous. It may become deep-seated before you realize the danger. It is therefore of great importance to recognize the early warning symptoms, because in its early stage kidney disease is easily curable. Pain or dull ache in the back is one of the first signs. So are bladder pains, bearing-down pains, smarting sensation when urinating, frequent or suppressed urination, and gravel or sediment in the urine, etc. You cannot be well if your kidneys are not performing their functions properly. In all ordinary cases of any derangement of the kidneys, a few doses of

DOAN'S KIDNEY PILLS

will put the patient right; in old or chronic cases, the treatment should be persisted in. Mr. Michael A. McInnis, Woodbine, Marion Bridge, N.S., tells of his experience: "For the last three years I suffered great agony with pain across my kidneys, and was so bad that I could not stoop or bend. I consulted and had several doctors treat me, but I got none the better. On the advice of a friend I procured a box of that valuable life-giving remedy, Doan's Kidney Pills, and to my surprise and benefit I immediately became better. In my opinion Doan's Kidney Pills have no equal as a cure for any form of Kidney disease. Price 50 cents per box, or 3 for \$1.25. All dealers, or direct by mail.

THE DOAN KIDNEY PILLS CO., TORONTO, ONT.

FERROVIM

A Tonic Wine, pleasant to take. Gives strength. Makes new blood. Builds up the system. Throws off all weakness. A boon to those recovering from wasting fevers and long illnesses. Sold by all medicine dealers. Davis & Lawrence Co., Ltd., Montreal.

Unrivalled Qualities of "Wolsey" Pure wool Underwear — WHICH — Never Shrinks

The Lady Says:

"The manufacturers of 'WOLSEY' Underwear have such confidence in their wares that they undertake to replace any garment that should shrink in washing. 'WOLSEY' garments have stood the most severe tests without any alteration taking place in the size.

The Drapers' Record Says:

"'WOLSEY' goods are made from all wool yarn, in no case are they made from mixtures of cotton and wool, as are many so-called unshrinkable goods; further, 'WOLSEY' goods are made to wear, their durable qualities having stood the test of experience."

Should any Garment Shrink in Washing it will be Replaced

ZADKIEL AND ASTRONOMY

An Interview with the Prophet of the Almanac while He Was in a Brown Study.

From the depths of a big arm-chair the famous prophet gazed out upon the lowering sky. He was in a brown study.

"About the greater prophecies, doctor—the world-stirring events you have foretold?"

"Last year I predicted the outbreak of war between Russia and Japan. I say last year because I wrote the predictions last year, and they were in the hands of the public months before the event, but they are, of course, in this year's almanac. I gave as the probable date of the outbreak of the war Feb. 16. War actually started on Feb. 8. You will find that under the 'Voice of the Stars' for July this year and I warn the Russian police to vigilantly watch for plots against rulers. On July 28 M. de Plehve was assassinated. There were several smaller instances, including the trouble between England and Russia as to British shipping and its settlement."

"Luck, doctor?"

"Luck, sir! Science, sir; accurate science, sir! There is no such thing as luck. I sit here and write down just what I please, throwing in a few sensations here and there, and veiling them in vague language."

"But, then, how do you do it, really, Zadkiel?"

"See, sir; this year I have predicted, on pages 76, 77, of the almanac for 1905 that peace will be concluded between Russia and Japan in the last quarter of next year. I also add that Russia will be tired of an unsuccessful war."

"The prophet's way of saying that Japan will win?"

"Such is the undoubted voice of the planets. Something in my expression must have made Zadkiel fancy I was skeptical. With dignified indignation, he added, as he walked across to a deep drawer, and took out a large bundle of foolscap sheets closely covered with circles, signs, figures, and mathematical calculations, 'I am going to show you that astrology is a serious science.'

"I took out my note-book. 'Four times a year, sir—at the winter solstice, vernal equinox, summer solstice and autumnal equinox, I draw the figures for all the principal capitals of the world. Those figures show the relative positions of the sun, moon, Saturn, Jupiter and Venus. Uranus and Neptune indicate rather more evil than good, but are undecided.'

"But what makes you think these planets have any influence at all? They are mostly a long way off, aren't they?"

"Long recorded observations, sir, over 3,000 to 5,000 years prove the influence to be as I say."

"And how do you exert that influence, do you say?"

"We cannot tell the manner, but I believe it to be in some way electrical working on us by means of the atmosphere. The moon has sufficient influence on water to cause tides; that is admitted. It is also known that Jupiter reflects fourteen times more of the chemical rays of the sun than the moon does. Why then, should it be impossible that the planets can influence matters much less dense than water, such as the atmosphere and the human mind?"

"But how do you draw your inferences from the figures?"

"Having, by accurate calculations, influence on water, the planets in their proper places on the chart I see what 'houses' the different influences are in."

"Take the case of Russia and Japan. It is most simple. Obvious, in fact, at a glance. At the autumnal equinox next year Jupiter you see here (showing me the chart) is rising at St. Petersburg. He is in the 'first ascension,' which concerns the people. Well, Jupiter is the planet of peace. It is certain, therefore, that the Russian people towards the end of next September will be inclined towards peaceful notions."

"And how about Japan?"

"Conclusive proof of the accuracy of astrology. For we find here in the same date, that at Tokio Jupiter is in the 'Tenth House,' approaching the upper meridian. That 'House' represents the monarch and Government. Consequently the Japanese rulers will be inclined towards peace at that time. But here, you will notice, is Saturn, the evil influence, in the 'descendant' at Tokio. Now the 'descendant' represents the enemies of Japan. Consequently Saturn is at work among Japan's enemies, and strange to say, the ruling sign of Russia, that is Aquarius, happens to fall in the 'Seventh House' at the same time. Isn't it clear?"

"Perfectly clear," I murmured, "but where does the daily weather come in on these figures?"

"It doesn't; I have to make a separate calculation for each day to see what the weather will be."

"And what about fortune-tellers by astrology, 'Zadkiel'?"

"Humbug, sir; fraud, fraud. They cannot tell fortunes. They only bring a genuine science into disrepute; ought to be stopped. Astrology can tell influences, and from those influences we draw deductions. I was once consulted by a man who was going to Africa. I said, 'Don't go; if you go you will die.' He didn't go—saved his life. Wonderful science, beautiful! Glad to have told you about it. Convert you some day, perhaps."

And as I shook hands Dr. Zadkiel's bright eyes flashed beneath his white-grey hair, while he said, 'Awful pity people don't believe, but they won't, will they?'—London Daily News.

WANTED: A case of headache the Knurfort Headache Powders will cure in 10 minutes.

FOR NELSON'S CENTENARY.

A Great Fund of One Million Shillings is to Be Raised.

Of all the names on England's roll of fame none stands higher in the popular estimation than that of Nelson; and the centenary of his death which falls to be commemorated next year will undoubtedly evoke a strong outburst of admiration for the great naval hero, of whom Tennyson sang:

Thine island loves thee well, the famous man,
The great sailor since the world began.

To mark the occasion the directors of the British and Foreign Sailors' Society have resolved to appeal to the English-speaking public throughout the world for assistance in raising not less than a million shillings memorial fund, which Mr. J. H. Cory, president of the society, will inaugurate with a gift of five thousand shillings. One notable feature of the scheme is the distribution of Victory souvenirs to subscribers.

Many of the old naval ships have necessarily, by order of the Admiralty, been broken up, and many persons, who would follow her unfortunate consort, but the King is credited with having commanded that she should be preserved as the one floating monument of the heroic past. The Admiralty Commissioners of the Admiralty gave to the above society the whole of the old material taken from H.M.S. Victory. The society has also secured the whole of the remaining copper, weighing several tons, left from Nelson's flagship, the 'Foudroyant,' wrecked in 1807, and will therefore be in a position to present some million Nelson Victory souvenirs to the boys and girls of the Empire.

The Royal Albert Hall is secured, and the various medals which will be taken both in India, the colonies, as well as in the British Isles, for a great Nelson celebration at which the presentations will be made simultaneously on October 21, 1905. It is felt the souvenir, which can be worn if desired, will be the more appreciated if the recipient makes a little self-denial from the pocket exchequer or collects in the home circle of relations and friends not less than 3s. for the Nelson Centenary Fund.

Suitable monuments of the centenary will also be awarded to all subscribers of smaller amounts above one shilling.

Every town giving 250 and upwards through its mayor or provost will receive a piece of oak from the Victory, with a suitably inscribed brass plate, for town hall, museum, or reading room, and any public school giving the same amount will receive a like memento.

The following are some of the objects for which the fund is to be raised:

Nelson free beds in connection with Jack's Palace.

Nelson free scholarships to assist naval reserve men to rise in the profession.

Nelson reading rooms in various parts.

Nelson sailor's rest in King's Lynn, close to his birthplace.

Nelson memorial in Malta.

Nelson award for heroism.

GIRLHOOD WOMANHOOD MOTHERHOOD

The first lesson that the young girl has of womanhood is the study of medicine. She learns to know what headache means, and backache, and sometimes is sadly borne down by this new experience of life. The pain and misery which young girls commonly experience at such a time may, in almost every instance, be entirely prevented or cured by the use of Doctor Pierce's Favorite Prescription. It restores health, and cures headache, backache, nervousness, and other consequences of womanly weakness or disease.

The anxious mother of the family often carries the whole burden of responsibility so far as the home medicine of common ailments of the girls or boys are concerned. The cost of the doctor's visits is very often much too great. At such times the mother is invited to write to Dr. R. V. Pierce, of Buffalo, N. Y., for medical advice, which is given gratis. Correspondence is held strictly confidential.

Backed up by over a third of a century of remarkable and uniform cures, a record as an order remedy for the diseases and weaknesses peculiar to women ever attained, the proprietors and makers of Dr. Pierce's Favorite Prescription now feel fully warranted in offering to pay \$500 in legal money of the United States for any case of Leucorrhoea, Female Weakness, Protrusion of the Uterus, or any other ailment which cannot cure. All the World's Dispensary Medical Association, Proprietors, of Buffalo, N. Y., ask as a fair and reasonable trial of their means of cure.

"Your wonderful medicine, 'Favorite Prescription,' has helped me greatly in time of suffering. I am Miss Wagon, of Edgewood, Ind. 'Last winter I was unable to do my work. I consulted a doctor, and he gave me a bottle of medicine, and told me about your medicine. I used three bottles of 'Favorite Prescription,' and will say I had the easiest and quickest curement I ever had. Had three children, before, and would suffer from twenty-four to thirty-four hours with birth, but this time only two hours. Have a fine baby girl and she is the most healthy one of all. I am still using the 'Favorite Prescription' as a tonic."

Last trip of the season.

CARVELL BROS. AGENTS.

THREE AND FOUR YEAR Courses in Mining, Chemical, Civil, Mechanical and Electrical Engineering. Mineralogy and Geology. Biology and Public Health. For Secretary, Kingston, Ont., for Circulars.

"No waste time--no unnecessary delays at the Union Commercial College"

NOW

Now is the Time to Secure a Business Education

Do not "put it off." While you can enter the Union Commercial College at any time, if you enter now you will be able to complete your course this term. We have no literary societies, debating clubs, etc., etc., in connection with our College. We believe students come here to work and we place nothing in the road of their advancement. It is our aim to get our students through the courses in the shortest possible time consistent with good work and by doing so considerable money is saved to the student. Such societies and clubs hinder rapid progress.

At the head of our Commercial Department we have a practical man, one who holds a certificate from the British Educators Association of Canada. As regards our Shorthand department we think it unnecessary to say anything—our work speaks for itself. We ask all who are interested to examine the work we do and compare it with that done in other colleges. Do not wait for a better time. Enter now. Send for prospectus and terms.
