For That Stubborn Cough

We recommend Jamieson's Emulsion of Cod Liver Oil with Hypophosphites above all other preparations.

This preparation not only is a general revitalizing tonic of great potency, but has a direct healing action on the tissues of the air passages. It is especially suited to the treatment of throat, bronchial and lung troubles that have become chronic, or for any run down condition marked by loss of weight and energy. Two sizes 35 and 75 cents.

THE CHARLOTTETOWN GUARDIAN

FRIDAY, JANUARY 22, 1909.

A GOOD FORM OF COMPENSATION.

We mentioned yesterday the unfairness of allotting hundreds of thousands of square miles of the public domain to Quebec, Ontario and Manitoba without compensation to the Maritime Provinces whose area is so limited and incapable of extension. We would be glad to find the subject taken up by the press of the Maritime Provinces and seriously treated as its great importance deserved. If we sleep upon our rights we shall in this as we have in other matters reap the bitter consequences later.

Just now we have an important public work, long projected but still delayed, and of vital concern to the three Provinces it would link together with indissoluble bonds. Needless to say we refer to the Tunnel,—a work of importance to the entire Dominion, in fact. If Ungava and Keewatin, with their vast area and equally vast possibilities of value are to be given to the three big central Provinces, then let us have a definite promise of the Tunnel as some compensation to the eastern section of the Dominion. Nova Scotia, New Brunswick and Prince Edward Island are entitled to this work altogether apart from any question of Keewatin Ungava and the enlargement of boundaries. Our representatives should never consent to this big land grab unless it carries with it a stipulation to build the Maritime Tunnel at once.

RECORD OF MILK PRODUCTION.

The Canadian Record of Performance for pure bred dairy cattle, is now issued in neat pamphlet form by the Department of Agriculture at Ottawa It embodies the results of the official testing that has been carried on throughout the Dominion during the past few years and to which frequent reference has been made in The Guardian as the various reports have come out from month to month. The record deals only with the performance of pure-bred stock. Ayrshire, French Canadian, Guernsey, Holstein-Friesian and Jersey.

The monthly and yearly record in pounds of milk and of butter fat produced by some forty of the best milch cows of the different breeds is recorded, with the age pedigree and other particulars of each. The yearly record runs from 6,080 pounds of milk and 271 pounds of fat, up to 13,158 pounds of milk and 485 pounds of fat. The higher figures are surely suggestive of the enormous waste incurred by farmers who feed three or four cows and get no more than the product of one first-class dairy animal. Those desiring further information on the subject will be pleased to learn that this report, which ought to be of great value to dairy farmers, can be obtained free on application by letter to J. G. Rutherford, Live Stock Commissioner, Ottawa.

A TRAVELLER COMPLAINS.

"A Traveller" who crossed by the Stanley to the mainland on Saturday last and proceeded thence to St. John, writes The Guardian complaining that the accommodation train, on which he was compelled to travel from Moncton in order to reach his destination before Sunday, was not up to the mark. On the contrary he describes the so-called first-class car as old and rickety, without double sashes on the windows, heated with stoves in the ends, but cold and draughty in the middle of the car, the lamps in bad order, dripping oil on the floor, and so on. In St. John no cabs were in attendance to take him to his hotel.

Something depends on the state of mind of the traveller when he wrote his impressions. This particular traveller not only disapproved of the car in which he rode, but of St. John as well. "The good people of St. John," he writes, "seem to think this is the proper mode of welcoming visitors who strain a point to spend the Sabbath in the commercial metropolis." This refers to the absence of cabs at St. John station. Evidently few passengers, and none of very great note were expected by the accommodation train in question. And it is hardly to be expected that passenger coaches of the newest and best will always be found attached to an accommodation train.

The Toronto Star in a sensible article in favor of retaining the Intercolonial as a public property, remarks among other things: "The Laurier Government, which has identified itself with the growing time in the west, has now a grand opportunity of identifying itself withe the growing time in the East." Heaven hasten the time! Hitherto Laurier and his colleagues have been so intent on gazing westward that they have kept their backs turned toward the East pretty much all the time. Turn around gentlemen! If only for an hour in the day.

CHEER UP!

(A joyous spirit is a thing that can be cultivated.—Mrs. Neish,

The grumbler finds his fate in this,
When life is done—the wealth of bliss
That from life's fields is cropped he missed;
But you and I, if wise today,
Will choose, my friend, a cheering way,
For each shall be an optimist.

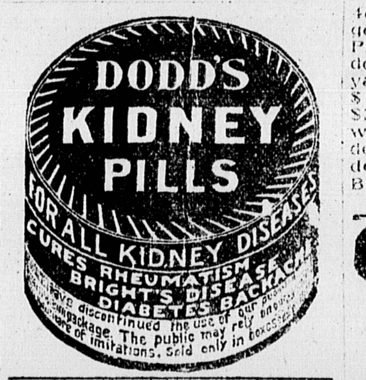
When pain and anguish wring the brow,
Teeth, chest or other parts, as now,
(Observe how rare my knowledge is!)
What words that shock fall from your voice
Though ne'er from mine, for I rejoice
And shout all day doxologies.

If ever Fortune on you frown
And all your hopes are tumbled down,
Ere to success you'd made a way,
Oh! never show one sign of woe,
But twirl the light fantastic toe
And laughing, push the jade away!

When Phyllis weds the man you hate,
Curse not in wrath your hapless fate,
But fling your fun and chaff at it:
Full many a year, I wot has flown,
Since first the wise man made it known
That life's a farce—then laugh at it!

—M. S., in London Chronicle.

At the annual caucus of Conservative members in Ottawa on the reassembling of Parliament Mr. Borden expressed his willingness to resign the leadership of the party. This is the usual course in such cases. His colleagues, quite naturally declined to accept his resignation, and in this they were wise. There is no other among their number so well qualified to lead, or who would command the same measure of support and confidence. Mr. Borden is an able and high-minded public man,—who has made some mistakes.



"CAN I GET WELL?"

If Your Trouble comes from the Kidneys, or from Kidney Poisons in the Blood,

YES!

And if you have been ailing a long time don't lose your courage. It takes a little time—takes some constitutions longer than others. But Doan's Kidney Pills will gradually drain the poisons out of your system; the pain in your back will stop; the sediment in the urine will cease; there will be no rheumatic pains; you will feel freer and brighter, and when the last of the poisons have gone you will be well.

There is no way of getting the kidney poisons out of the system except through the kidneys, and no medicine so effective in taking them out as Doan's Kidney Pills.

Mr. W. Perkins, South Maitland, N.S., writes: "I feel it my duty to let you know of the great cure I have obtained by using Doan's Kidney Pills. For six months I could not obtain a good night's rest, had to get up four or five times to urinate, and the urine was very thick and red. I commenced using Doan's Kidney Pills and in a very short time I was right and fit again. I am very thankful to have found so speedy a cure."
