## The Markets

MONTREAL, June 29.—The foreign demand for grain in the Montreal market today showed no improvement and exporters generally reported trade dull. The only business of importance reported in the domestic market yesterday was a sale of a round lot of Canadian western No. 1 feed oats at a c. i. f. price. There was some demand from country buyers for odd car lots to meet immediate wants. There were no further developments in the local flour market for spring wheat grades, prices being about steady but the demand was again of a light character from local and foreign buyers. A very firm feeling prevailed in the market for winter wheat flour and a slight higher prices were realized in some instances for car lots of choice grades, but no general advance was established. The volume of business was small. A fair volume was done in most lines of mill feed and the undertone was firm. There was no change in standard grades of roller oats for which the demand was steady. There was no new development in the local egg situation, the undertone to the market being firm and a fair trade was done. The receipts were 1,957 cases. There was no improvement in the demand for old crop Canadian potatoes and as the offerings continue fair for the season an easier feeling prevailed in the market as prices scored another decline of 5 cents per bag with sales of odd cars of Quebec white B. grade at \$1.55 to \$1.65 per bag, and reds at \$1.35 per bag of 90 lbs in bulk extra track. The butter market was without any special feature to note, business being of a very limited character but prices as yet showed no change. The receipts were 1,825 packages. There was no improvement in the condition of the cheese situation on account of the fact that foreign buyers do not seem disposed to pay present asking prices when they can buy from other exporters countries at less money with the result that the volume of business passing and export accounts here is unusually small for the period of the year. There was no further change in spot prices, but the feeling was easy with Western No. 1 white and colored quoted at 17 1/4 cts. to 27 3/8 cts per lb. and eastern grades at 17 cents to 17 1/8 cts per lb. The receipts were 6,562 boxes.

OTTAWA, Ont., June 29.—A steady tone continued on Canadian egg markets today with a good continuing demand in evidence.

## Annual Closing Of Rochford Square School

The closing exercises of Rochford Square School yesterday for the most part comprised a pageant "The Jubilee of Confederation and What it Means." This was a very interesting and instructive feature and the excellent recitations of the various parts were performed in a manner which won the favour of all present. The history of our country was wonderfully exemplified from the very earliest times to the Confederation era in a charming series of recitations and songs which were excellently delivered. The Sisters are indeed to be congratulated on the excellence and accuracy of the performance of their pupils.

Mr. Wm. Moran capably presided and among the distinguished visitors present who at the close made brief remarks were His Lordship Bishop O'Leary, His Worship Mayor Miller, Rev. Monsignor McDonald, Mr. F. J. Nash and Superintendent Shaw.

## The Moot Horn

(By British-United Press.)

LONDON, June 28.—The 800-year-old moot horn of Winchester was sounded from the battlements of the west gate of the city one evening recently. Speculation was rife as to what sort of noise would issue from so ancient an instrument.

No doubt the horn was used originally to summon the Borough Council or moot, but it is so doubted whether it would rouse the lightest-sleeping alderman should he be within his doors today. The effect was scarcely distinguishable from a modern bugle, save that the horn pronounces but three notes.

It was heard across the City a mile away. But where houses or hills intervened the range was much more limited.

It was sounded by Sergt. Drummer Hutchings, of the Hampshire Territorials; but even that expert could not hope to do better than a "lights out" effect.

Now a row of summer radishes and turn how good radishes can be in August.
