"THE IRISH ATTORNEY" A SPLENDID SUCCESS

It Was St. Patrick's Day in the Evening at the Prince Edward Theatre Last Night, When a Good Old Time Comedy Drama Was Produced Before a Crowded House.

The celebration of St. Patrick's Day was fittingly brought to a close by the delightful production at the Prince Edward Theatre last night, where "The Irish Attorney," a three act comedy drama, was given by the Charlottetown Dramatic Club under the auspices of the Irish Benevolent Society. The theatre was filled to capacity and the frequent and enthusiastic applause testified to the warm approval of the audience. The play was an exceptionally well constructed drama ending with a strong last act full of "punch" and all the parts were taken effectively. It had all the thrills of old time melodrama, with wholesome sentiment interwoven and with plenty of good humor.

The scenes centered around the rural town of Bradford. In the first act, the arrival of the village fire department and the fire scene that followed, was really refreshing in its novelty and cleverness. It had something reminiscent of the old time comedy drama in its best form.

A noticeable feature was the number of new local players appearing in the cast. This is commendable both to the players and

Lockout in Ship building Industry Now Feared

(Canadian Press.)
LONDON, Mar. 17.—A national lockout in the shipbuilding industry is a prospective development of this week should the striking shipbuilders in Southampton persist in their refusal to resume work on the terms the employers have already offered. The employers declared that they cannot wait longer and the Shipbuilding Employer Federation has summoned its executive to meet at Carlisle Thursday and have invited the executive of the Federation of Engineering and Shipbuilding Trades to attend the conference and discuss the situation.

French Premier Wins Another Victory

(Canadian Press.)
PARIS, March 17.—Fighting single handed against the strongest opposition encountered during his recent administration, Premier Poincare has won for his government the right to make laws governing immediate economies and fiscal measures by simple decree, without parliamentary ratification. Victory came last night when the Senate after a lengthy session bowed to the Premier's will by a vote of 150 to 141.

MOSCOW, Mar. 17.—Russian newspapers consider the Russo-Chinese attempt at rapprochement as a great feat of Soviet diplomacy and as significant of the future "Liberation of the Chinese from foreign control."
The "Workers' Gazette" points out that Turkey after resuming relations with Soviet Russia, developed until strong enough to "throw off foreign yoke" and suggests that the Chinese agreement is equally important.

BRITISH LABOR PREMIER HAS DECIDED TO TAKE STAND ON MINE WAGE QUESTION

Much Discussed Bill to Be Drafted at Once And Will Be Introduced in April As a Government Measure.

(British United Press.)
LONDON, Mar. 17.—In a bold effort to avert the threatened coal strike in Britain Premier Macdonald has decided to stand the life of his government on the Miners' Minimum Wage Bill which is to be drafted immediately and introduced in April as a government measure. The decision reached in week end conferences is probably the most important one made by the new cabinet so far as questions of policy are concerned. If the bill fails it appears certain that almost 700,000 miners will strike April 17th when their present wage agreement with the owners expires. The minimum Wage measure which Macdonald has decided to support gives the miners the 1924 standard wage scale plus an increase of 79 percent to compensate for the increase in the cost of living during the last ten years. There has been a strong feeling among prudent advisers that the government should leave the miners' legislation to private members but the Premier has seen fit to adopt aggressive tactics in his determination to stave off a strike.

"Up guards and at them" is the description that enthusiastic officials of the miners give to the Premier's attitude. Macdonald believes, that he can put the measure through with a majority of about twenty providing Asquithian Liberals do not weaken in their support. Meanwhile the miners have agreed to resume conferences with the owners although there is not much hope of a settlement. The miners were determined in gaining their point when they voted to give notice of terminating their agreement with the owners by a majority of 510,311 to 114,554. This huge major-

ity demonstrates that the mass of the men are entirely behind the leaders in their desire for new arrangements.

The miners wages are at present regulated by a profit sharing agreement entered into after the walkout of 1921. The miners claim that under this arrangement they have received lower wages than in any previous period if the cost of living is taken into consideration. Employers say that the difficulty arises from the fact that the profit sharing agreement has unfortunately been operating through a period of bad times and declare that they cannot give the men any substantial advances.

U. M. W. LAWS MUST BIND

(Canadian Press.)
GLACE BAY, N. S., March 17.—That the miners of District 26 ratified the agreement made at Montreal when they accepted wage increases as stipulated in the new contract was the statement made today by William Dalrymple, representative of John L. Lewis.

Mr. Dalrymple issued the statement in reply to certain charges which have come from the radical element of mine workers during the past week. He pointed out that the miners obey the laws of the organization if they are to remain under the U. M. W. banner. He further stated that the union would not tolerate the policy of striking on the job.

LENTE LECTURES TO BELIEVERS

Quiet Talks in Retreat.

(BY REV. S. D. GORDON)

A SIGNIFICANT NAME

Do you remember that heart-to-heart talk that Jesus had with the eleven disciples that last night they spent together in the upper room? John tells us about it in chapters thirteen to sixteen. The Master talks a great deal that night, about some One else, who was coming to take His place with them. They did not understand what He meant till afterwards. He packs more into that one evening's talk about this coming One than all He had said before put together. Notice that now He gives a name, a new name, to this person, repeated four times that night. It is an intensely significant name—the Comforter. Will you remember, and keep constantly in mind, the actual meaning of that new name? It is simply this: one called alongside to help.

Let me attempt to suggest a little of its practical meaning.

Here is a little girl standing on the curbside down town on Friday in New York, with a bundle in her arms. She has been sent on an errand, and wants to get across the street. But the electric cars are whizzing past in both directions, and wagons, and carriages, and omnibuses, and horses jam the street from curb to curb, and she cannot get across. She stands there gripping her bundle, watching eagerly for a chance, and yet afraid to venture. But the jam seems endless, and she grows very tired, and by and by the corners of her mouth begin to twitch down suspiciously, and a big tear is just starting in each eye. Just then a big policeman steps up, one of the finest, six feet tall, and heavy and broad. He seems like a giant to her. He stoops down. Would you imagine he had such a gentle voice? "What's the matter?" "Can't get 'cross." "Oh! is that all; he'll fix that. And he takes her little hand in his with a reassuring "come along." And along she goes, past cars, under horses' heads, close up to big wheels. She is just as small as before, and just as weak. But though her eyes stay pretty big, the tears are gone, and there is an air of confidence, and

cause this big, kind-hearted giant by her side is walking across the street as though he owned the whole place and he is devoting his entire attention to her. That policeman is a comforter in the strict meaning of the word.

Here is a boy in school, head down close to the desk, puzzling over a "sum." It won't "come out," he figures away, and his brow is all knitted up, and a worried look is coming into his face for he is a conscientious little fellow. But he cannot seem to get it right and the clouds gather thicker. By and by the teacher comes up and sits down by his side. It awes him a little to have her quite so close. But her kindness of manner mellow the clouds. "How are you getting along?" "Won't come out right!"—in a very

HOME BANK INVESTIGATOR TO PROBE FURTHER

Order in Council Provides For Investigation of Certain Deposit Withdrawals.

(Canadian Press.)
OTTAWA, Mar. 17.—The Home Bank investigators have been authorized to probe into deposits withdrawn under conditions "which might require explanation." The Order in Council extending the scope of the Home Bank inquiry provides that "in view of additional representations which have been made to the Government that at divers times while the said Bank was in existence deposits were made and afterwards withdrawn by various depositors, under conditions which might require explanation, the committee of the Privy Council further advise that the attention of the commissioner be especially directed to this feature in the course of investigation."

U. S. Army Captain Found Shot To Death

(Canadian Press.)
BOSTON, March 17.—Captain John Deeming, United States Army Quartermaster Corps, was found shot to death today in his office at the army base in South Boston.

Large sums of money were known to have been in his custody there. Two letters were discovered one addressed to a captain in California and the other to his superior officer. The latter note told of worry over his private affairs and his intention to kill himself. Preliminary examination of the office records showed no shortage in accounts or cash.

Prince of Wales Meets With Another Mishap

(Canadian Press.)
LONDON, March 17.—The Prince of Wales in the twelfth accident in which he was thrown while participating in a race at Arborfield, Saturday is made the text of an Editorial in the morning newspapers, which tell him, kindly, that the people are very much concerned over the manner in which he continues to risk his life. The writers remind him that he is not a private person but a National asset, especially in view of the hearty and thorough way in which he performs his duties. They declare it is time he imposed restraint on his plucky spirits.

THE LAYOUT PLATES

In the language of the printer, anything you cover with ink and then impress upon a piece of paper is a plate. In a broad sense of the word every piece of type is a plate and the first printing is said to have been done from large boards or blocks of wood on which characters, were carved in reverse. Gutenberg is given credit for having invented movable types; that is, blocks of wood containing just one letter which could be arranged in different sequence as to spell out words. From this beginning the whole great art of printing has developed.

It goes without saying almost that the Chinese claim precedence over us in the invention of movable type. They claim to have printed from movable type thousands of years before we ever thought of it, but the Chinese are always putting forward claims of this sort and since we have no way of disproving them, it is better not to argue about it. We will admit that they are the original inventors of chop suey and let it go at that.

The first printed illustrations, like the first types, were carved from wood and from that fact de-
