THE U-BOATS' LATEST EXPLOIT IN BAY OF FUNDY

Particulars re Sinking of New Four Masted Schooner 75 Miles Off St. John, N.B.

Further particulars of the destruction of the four masted schooner Dornfontein in the Bay of Fundy, 75 miles off St. John, N.B., have been received. The schooner had recently been launched from the yards of the Marine Construction Company, Canada, Limited, Strait Shore, St. John, and sailed Wednesday morning for Durban, South Africa, with a cargo of lumber. The crew landed safely after having been taken on board the submarine and landed at Gannet Rock, southeast of Grand Manan. The vessel and cargo are insured.

Following announcement of the sinking of the Dornfontein by a submarine operating in the bay, prompt measures have been taken by the military, naval and civic authorities to deal with the situation.

The crew of the ill-fated vessel rowed to Gannet Rock, arriving there at 7 o'clock Saturday morning, and they were cared for by the life-saving crew.

Grand Manan advised at 11 a.m. that the Dornfontein was fired at twice by gunfire from the submarine, and that later the vessel was boarded by the Germans who took six months' provisions, all the clothes of the crew, together with papers and charts. The Huns then ordered the master and

crew of the schooner to get into a small-boat and row to a place of safety. The order was obeyed. The Dornfontein was set on fire.

The schooner was captured and burned to the water's edge on Friday afternoon. The ship encountered the enemy craft at noon, and after holding her crew on board for five hours the Germans told them to take to their life-boats and row for the nearest shore. The captain of the Dornfontein and the members of his crew landed about 10 o'clock Saturday morning.

It is reported that the enemy craft which destroyed the Dornfontein was the U-56, one of the latest type of German submarine. After taking from the ship all her valuables and food-stuffs, as well as a large quantity of gasoline, which was stored on board to be used for motive power for the hoisting apparatus, the Germans started a fire in her fore-castle and another in her after cabin and the ship burned to the water's edge. They explained to the men of the Dornfontein that they did not want to waste a torpedo upon her.

A member of the crew of the Dornfontein that there were but four German submarines operating in Atlantic waters but that more would come later and they made other statements easily recognized as German propaganda circulated to cause alarm among the civilian population in coastal towns and villages.

All but the captain were taken below, into the depth of the U-boat through the engine-room and into a sort of hold. The captain remained above, and what happened to him while they were aboard the U-boat none of the crew knew. The crew spent five hours in the bowels of the submarine.

Dinner was served to the crew consisting of bully beef and rice. Some of the crew of the Dornfontein were afraid to partake of the refreshments offered on the grounds that all Germans were rotten and the food offered might very well be poisonous, but one of the Germans, noticing the evident reluctance said to them that they need not be afraid to eat as they were not after the sailors.

A member of the German U-boat crew said that it was this very boat that set the mines which destroyed the American auxiliary cruiser San Diego some little time ago, off the American coast. It was also the belief of the men that the U-boat was on the lookout for a West India liner.

The local men say that there were seventy or more comprising the crew of the submarine, that the vessel was more than two hundred feet long and that she mounted two guns, the calibre of which, according to the Germans, was 5.9.

MOTHERS TO BE

Should Read Mrs. Monahan's Letter Published by Her Permission.

Mitchell, Ind.—"Lydia E. Pinkham's Vegetable Compound helped me so much during the time I was looking forward to the coming of my little one that I am recommending it to other expectant mothers. Before taking it, some days I suffered with neuralgia so badly that I thought I could not live, but after taking three bottles of Lydia E. Pinkham's Vegetable Compound I was entirely relieved of neuralgia, I had gained in strength and was able to go around and do all my housework. My baby when seven months old weighed 19 pounds and I feel better than I have for a long time. I never had any medicine do me so much good."—Mrs. PEARL MONTAGUE, Mitchell, Ind.

Good health during maternity is a most important factor to both mother and child, and many letters have been received by the Lydia E. Pinkham Medicine Co., Lynn, Mass., telling of health restored during this trying period by the use of Lydia E. Pinkham's Vegetable Compound.
