Demonstration Against War and Versailles Peace

Selected Orators, Including Germans Will Declaim in Trafalgar Square Against War and also Against Peace as Represented by Versailles Treaty.

(Special to The Guardian.)

LONDON, July 25—A monster demonstration against war is being arranged for next Saturday simultaneously with similar demonstrations in many of the continental cities.

Five processions will converge on Hyde Park where a battalion of orators will speak including some Germans who have already arrived.

Having protested against war the demonstrators will forgather on Sunday to protest against peace as it is represented by the Versailles Treaty.

This protest will take place in Trafalgar Square and will continue without interruption from sunrise to sunset.

If proper order is maintained the police are not likely to interfere.

British Commons Removes Canadian Cattle Embargo

If Bill is Approved by Lords the Legislation Will Greatly Stimulate Cenadian Cattle Trade With Great Britain.

(Special to The Guardian.)

OTTAWA, July 25.— The vote in the British House of Commons favorable to the removal of the embargo against Canadian cattle is regarded here as the best piece of news that had come across for many months. If the bill as thus approved succeeds in navigating The House of Lords an injustice will be removed and years of agitation will bear fruit.

As viewed in official circles the immediate effects of the removal of the embargo would be more of an inspiration than anything.

At the present time the Live-stock Industry is in a bad way The enactment at Washington of the emergency tariff legislation has had the effect of cutting in two cattle orders to the United States, while the restriction of the British embargo though not closing market there has obstructed the trade.

If the embargo is removed, an alternative opening will be available and this, it is believed, will stimulate the live stock industry and lead, not immediately, but eventually, to the development of a large export trade. Transportation costs will be heavy, especially from the west, but live stock experts here say that Canadian would be able to compete in the British market.

SASKATCHEWAN CROPS

REGINA, July 25—The least optimistic crop report issued by the provincial Government since seeding time was released by the Government Saturday. Many districts are suffering from lack of rain and keen anxiety as to the extent of the yield is voiced. Rye crops are stated to be excellent and cutting is general.

Quebec Drinking Less Liquor Than in Any Dry Provinces

(Special to The Guardian.)

MONTREAL, July 25.— That the people of this province are drinking considerable less liquor than are the people of the "dry" provinces under the prescription system, appears on figures just issued. Total of sales by the liquor commission of this province for the past year was valued at $15,000,000 while for Manitoba, with a population of one-fourth less than that of Quebec, sales of liquor in the same period totalled $12,263,912. In British Columbia, with a population of about one-fifth that of Quebec, and where the liquor situation is much the same as here, total sales for the year reached $14,000,000. Farther, it is said, there are many more visitors to the Quebec province that to British Columbia.

Counting the thousands of Americans who come by road and rail into Quebec, a sale of about $3,000,000 of liquor, the proportion sold to foreigners, does not represent a great deal at an average charge of $4 a bottle.

6,000 Garment Workers on Strike

MONTREAL, July 25—Between five and six thousand garment workers are on strike in Montreal, the decision to come out being reached here tonight after a crowded meeting in the Monument National. The chief complaint of the workers is that the manufacturers are evading their obligations by allowing all contractors to take over some of the work, thus defeating the principles of union labor. The strike of the Montreal workers involves about ninety per cent. of the total number of those engaged in the industry.

Margaret Dillon Equals Her World's Record

COLUMBUS, Ohio, July 25. — The opening days racing of the mid summer grand circuit meeting here yesterday afternoon was featured by the splendid performance of Margaret Dillion, winning the Elks home 2.04 pace and by the consistent work of the originate favorite in two heats, her average time being 2.01 1-2 for each mile equalling her world's record performance at Toledo two weeks ago.

Bavarian Situation Is Very Critical

(Special to The Guardian.)

BERLIN, July 25.— The German cabinet met today to discuss the situation which has arisen following the declaration of the Bavarian Government, that it would refuse to pass laws designed to protect the Republic.

The Bavarian situation was semi-officially described as "very critical."

Rescued Cbum From Drowning

(Special to The Guardian.)

HALIFAX, July 25—Harold Downey, a 13 year old boy was rescued from drowning Monday afternoon at the public bath house, North West Arm, by two of his chums, J. Campbell, age 12 years, 81 Almon street, and Thomas Welburn, age 14 years, 270 Agricola street.

According to statements, they were out on one of the floats and the Downey boy who was on the shore attempted to throw bathing suits out to them. The suits fell short of their mark, and the little fellow who had learned to swim started out to recover them. As he reached deep water, he was caught in some weeds, and was unable to free himself. The boys who were on the float stated that he went down under water several times.

The Campbell and Welburn boys, seeing that he was in difficulties dived off the float and went to his assistance. The Downey boy was almost exhausted when they reached him, and had to be dragged ashore where he was resuscitated.

U.S. Congress Considers Strike Situation

(Special to The Guardian.)

WASHINGTON, July 25.—With industry showing unmistakable signs of strangulation in the grip of the coal and railroad strikes, President Harding and his cabinet gave over their entire session today to a discussion of whether the time has arrived for drastic federal action.

The coal strike, considered by the adminstration as the more serious is now in its 116th day. The rail strike, is in its twenty fifth day.

WASHINGTON, July 25.— Federal government is prepared to take charge immediately of any coal ditsrict in which the operators refuse to co-operate with the government in the prevention of profiteering secretary of commerce Hoover warned today.

It was stated that the government is determined to use all its power to check the climbing coal prices and the refusal of operators in a district to accept the Hoover plan under which coal prices are to be kept at a maximum of $3.50 a ton at the mines would result in the appointment of a government committee to enforce such a price.

CHICAGO, July 25.— The rail road strike combined with the coal strike was being brought home to the United States public today through the announcements of leaders in several of the great industries that unless a speedy settlement was reached closing of the plant with resulting unemployment rationing of fuel and food supplies and a crippling of public utilities service would result.

Quick-Witted Paymaster Saves Bundle of $30,000

(Special to The Guardian.)

SUDBURY, Ont., July 25.—Paymaster Stephenson and cashier MacDonnell, of the Mond Nickel Company were held up near Coniston this morning and robbed of a parcel containing $2,000 and some small change. The bandits overlooked another parcel, containing $30,000, which was being carried by MacDonnell and which the latter dropped in the long grass, where it was recovered.

Stephenson and MacDonnell this morning drew the $32,000 from the Canadian Bank of Commerce at Coniston and with the former carrying the $2,000 and MacDonnell the $30,000, they set out on foot for the company's smelter, located about a quarter of a mile from the village, to pay the employees. They were scarcely outside the village, when three masked men in long raincoats, rushed at them with revolvers. Stephenson, who was ahead, handed over his parcel and while he was doing so, MacDonnell quietly let his fall into the long grass on the roadside. The strangers thinking there was only one parcel made off towards the south through the hilly country. MacDonnell was then able to rescue the hidden parcel. No trace has yet been found of the bandits.

Flood of Liquor Beginning to Flow Toward Halifax

(Special to The Guardian.)

ST. JOHN, July 25—An enormous amount of liquor is passing through St. John at the present time—not, as might be supposed, on its way illegally to the United States, but from that country legally. The unusual movement of spirits is part of a well planned and deeply laid scheme to circumvent the laws of the republic and incidentally prevent the Washington treasury from collecting a vast of money in revenue, according to officers in charge of the shipments Already a special train carrying 40,000 gallons of whiskey has gone through St. John, and another special with practically the same amount is on the way. And possibly there is more to come.

The great flood of liquor is being shipped out of Boston to Halifax, where it will be loaded on vessels. Where it will go from Halifax is another matter, but the United States prohibition enforcement people openly admit that there is every prospect of the whiskey finding its way back to the close proximity of the point of shipment. The liquor trains are heavily guarded all the way from Boston to Halifax, the United States government attending to it in its territory and he Canadian federal officials on Dominion soil. Outside of the three mile limit the duties of the Canadian revenue officers cease, under the provisions of international marine law.

Bulgaria Order To Pay Up

(Special to The Guardian.)

SOFIA, July 25.— The allied reparations commission has ordered Bulgaria to pay immediately 4,000,000 levas normally $6,720,000 due to the Allies under the terms of the peace treaty.

Irish National Army Marches to Victory

Guerilla Bands of Republicans are Being Driven from Strongholds Popular Sympathy Overwhelmingly With National Troops. Republicans Obtain Food Only at Point of Revolvers from Former Willing Supporters.

(Special to The Guardian.)

DUBLIN, July 25.—The triumphant march of the regular Irish army pursuing the irregulars continues towards the final strongholds, they possibly hold in the southwest part of the Island.

Town after town have fallen, with scarcely a blow being struck. The chief feature of their progress however, is the magnificent welcome given the National Army in every part of the country.

Reports from all districts prove that the irregulars find waging war against the Irish troops much different from the days when they were employed in guerilla warfare, against the British forces. Little more than a year ago practically ninety percent of the people of Ireland were ready to help the Republican in every possible way. Now the irregulars find it necessary to force food from the people at the revolver's point. The attitude of a great majority of the people is well defined by the results in all places where contests were held during the recent elections.

Satisfied with the treaty now, they regard the irregulars as little better than robber bands.

Western Village Almost Wiped Out By Fire

(Special to The Guardian.)

SASKATOON, July 25—Nearly $100,000 damage was done and the village of Fielding, Saskatchewan, was almost completely wiped out when fire started Saturday night in a vacant building near a livery barn which was full of shavings and hay. The wind carried the fire quickly to the hotel, two general stores, the post office, telephone exchange, butcher shop and implement building, all of which are a total loss.

Many citizens of Fielding are without homes and have been forced to take refuge in the surrounding districts.

Dr. Bentley Is Murdered

(Special to The Guardian.)

TRURO, July 25.— Dr. R. D. Bentley, a prominent practitioner and public health officer of Truro and Felix Cook, an Assyrian storekeeper are dead following a shooting affray at 2 p. m. yesterday in which Cook shot his victim less than twenty yards from the doctor's home then committed suicide himself.

The coroner's jury last night brought in a verdict of murder em bodying these facts. The verdict gave no motive for the shooting. It was brought out that Cook called Dr. Bentley to his store about three days ago and had a private conference with him; but the nature of the conference was not revealed.

Dr. Bentley was going to his home on the corner of Pleasant and Prince Streets. Cook's store is across the street. According to an eye witness the Assyrian came out of his store and crossed the street. He spoke a few words to Bentley then whipped out a revolver and shot him three times. The doctor fell in the street with two bullets in his head and one in his chest. Cook then fled to his shop, turned the gun on himself and fired, falling across an old lounge.

A crowd immediately gathered. Bentley was carried into his home where he expired without regaining consciousness. Cook was taken to the hospital and lived until 5 o'clock.

Cook came to this country from Asia Minor and formerly lived in Montreal and Sydney Mines. He lived in Truro two years. Bentley was 57 years of age. He is survived by his wife, an aged mother, one son and two daughters. Murderer was 37 years old and unmarried.

Report Murder of Fredericton Man

(Special to The Guardian.)

FREDERICTON, July 25—Corporal William Andrew Doak, of the Royal Canadian Mounted Police, reported by the Canadian Press as murdered by Eskimos at Coronation Gulf, is well remembered in Fredericton, although he has been away from this city between fifteen and twenty years. The family has been located in Winnipeg for some years, but the body of the mother of the deceased was brought here for burial about a year ago

Brother of the deceased served overseas during the war ,enlisting with Winnipeg units. "Billy," while in Fredericton, was a member of both 71st regiment and Fredericton brass and.

Allied Governments To Go Ahead Independently

PARIS, July 25—General consideration of allied debts in their relation to the reparations question now seems to be assured for the forthcoming meeting of the representatives of the allies in London. This was the conviction expressed today in reparations circles.

The Allies having conclusively determined that the United States Government under no circumstances proposes to be drawn into a conference in which debt cancellation is to be the chief topic and the Allied governments have decided to go ahead independently of the United States.

Kept Father's Body 37 Years in Alcohol

(Special to The Guardian.)

PARIS July 25.— In a picturesque mountain valley situated in the Puy de Rome Department, close beside the village cemetery at Viverois stands a little private chapel. It is the property of a distinguished archaeologist who built it in 1885 at the death of his father. Hermetically sealed to the public, all inquisiivte eyes being carefully kept away, this chapel contains an extraordinary coffin, in which the archaeologist, who himself is today an old man of eighty, has for thirty eight years kept his father's body preserved in spirits like an anatomical specimen. The devoted son could not bear the idea of never seeing again his venerated parent in the flesh. So having obtained permission of civil and religious authorities, he built a zinc coffin with a glass top. In this, immersed in alcohol, he laid his father's body, fully dressed in everyday clothes. Every morning the old man visits this strange bamb and gazes upon his father's face, which, on the authority of one who knew him intimately, is in a perfect state of preservation.

Coal Prices Advance in Great Britain Owing To U. S. Demand

(Special to The Guardian.)

CARIFF, Wales, July 25. — There was a decided advance in coal prices here yesterday on the American demand.

Welsh coal recently selling at 24 shillings per ton for export is now 27 shilling and business more active than for many months past. The leading companies are booked up until the end of August and are refusing to accept more orders.

CANADA NEAR MONTREAL?

LONDON, July 25.—"Where is Canada? Is it near Montreal?" Rev. W. Bowman Tucker, of the Montreal City Mission, says that he was asked this question in Liverpool, during his present visit to Great Britain to rase funds for his mission. This almost eclipses the experience of Miss Cora Hind, the western journalist and authority on agricultural subjects, who was compelled to register as an alien in an English provincial hotel, although she explained that she was a Canadian.

Hope of Settlement Of European Finances

Rests on Coming Conference Between Lloyd George and Premier Poincare to be Held in London During August.

(Special to The Guardian.)

LONDON, July 25—Hope of a settlement of Europe's financial troubles is now almost universally placed in the conference between Premier Lloyd George and Premier Poincare to be held next week.

Confirming semi-official advices the British Foreign Office has been officially notified that the French Premier will come to London August 1, for the conference, bringing with him a staff of numerous financial experts.

The meeting is described as having possibilities second only to these of the conference resulting in the ultimatum of London.

It is expected that an attempt will be made to revise the entire basis of the reparations conditions.

Reduction, or cancellation of the British loans to France will be considered in connection with the revision of the reparations schedules, it is understood, Great Britain having made a scaling down of the German indemnity a condition of any writing off of France's war obligations.

British and French interests in the near east and other questions of mutual concern will be brought up during the negotiations.

Outlook is Decidedly in Favor of Strike

(Special to The Guardian.)

MONTREAL, July 25—Sometime tomorrow the decision of the forty thousand railway men who make up No 4 division of the Railway Employee's Department of the American Federation of Labor will be announced, according to George Dickie, general secretary of the division. All day today the counting of ballots from every district of Canada were shopmen are employed, kept the officials busy and the outlook, according to them, is decidedly in favor of a strike.

Pilot Killed in Airplane Clash

(Special to The Guardian.)

FRAMINGHAM, Mass., July 25 —Seenos R Miller, of Boston, pilot of an airplane that crashed in a quagmire near the Framingham flying field late Monday was pinned under the wreckage and died before he could be released. Dr. Clarence Gamble, of Pasadena, Calif, one of the two passengers, was seriously injured. The other, Ralph K. Miller, a brother of the pilot, escaped with painful cuts and bruises.

Announcements, Coming Events, Meetings, Etc

Aged Watchman Is Murdered

(Special to The Guardian.)

HAMILTON, Ont., July 25— A brutal murder was disclosed in the jam factory of Senator E. D. Smith and Sons, Winona, at six fifteen yesterday morning when the body of the aged night watchman E F. Caddy, 77 years of age, was found in a pool of his own blood in the centre of a ware room at the rear of the factory. Examination of the body showed that a bullet had been fired directly through his forehead. While there was no signs of a struggle, the motive of the murder became apparent when it was discovered that the vaults of the offices of the company were blown open the smaller safe in the interior. All the murderers got for their pains was a small sum of cash.

The murdered man had celebrated his 77th birthday only on the previous day.

Peddler of Narcotics Weeps

MONTREAL, July 25.— After listening for an hour with a smile on his face to witnesses, who accused him of selling narcotics illegally, Henry Guonette, 22, this afternoon broke down when Judge Cusson sentenced him to serve fifteen days in jail. Weeping copiously and protesting his innocence he was led away to the cells. Evidence showed that there was a hole in the floor of the second story of the house through which Guenette handed decks of cocaine to customers who stood below.
