...PLAY ENJOYED—On Monday evening July 2nd the Kensington Dramatic Club presented their play entitled "Dot the Minor's Daughter" before a large and appreciative audience in the B. I. S. hall Souris. The play a four act drama was ably staged, each and everyone of the actors played their parts well, the work of Miss Ella McMahon in the title role, Mrs. P. McMahon as Mrs. Mason, and Mr. W. H. Darrach as the villain was exceptionally good. The specialties between the acts were excellent, the singing of Miss Harrington was worthy of special mention and a recitation by Miss McMahon. "A morning on an Irish coast" showed a thorough mastery of the art of elocution. As for the two McDonald's better known as the twins, they are indeed a concert in themselves. On the whole the play was a decided success, and everyone will look forward with pleasure to our next visit from the Kensington Dramatic Club.

**CROP REPORT**  
Below will be found a brief synopsis of telegraphic reports received at the Head Office of the Bank of Montreal from its Branches. The Branch Managers have complete and intimate knowledge of each local situation, and are in close touch with Crop conditions in all sections of the districts mentioned.  
General.  
With remarkable unanimity the Bank's Branch Managers report indications for unusually good crops in nearly every part of the Dominion. In the three Prairie Provinces conditions are most satisfactory. There has continued to be ample moisture and rains are making rapid growth, the only drawback being damage by hail in Southern Alberta. In Manitoba some of the wheat is already heading out. Throughout Ontario a good all round crop is expected. In Quebec and the Maritime Provinces the crops are somewhat backward, but improving; while in British Columbia all crops are doing well, details follow:—

**Prairie Provinces.**  
Ample moisture and good growing weather. Serious hail damage confined to southern Alberta. Edmonton District: prospects continue favorable. Rains have been general, no damage from hail. Calgary District: abundant moisture. A hail storm during week-end in Okotoks and High River district caused considerable damage; otherwise conditions continue good. Lethbridge District, north to High River and south to Raymond there has been heavy hail damage; elsewhere conditions are good. Saskatoon District: crop conditions very promising, ample moisture. All grains well advanced. No material damage of any kind reported. Hay crop good. Regina District: conditions favorable, crops making healthy progress. Heavy general rains have insured ample moisture for next two or three weeks. Slight damage from hail in a few districts. Hay and pasture good. Winnipeg District: conditions continue favorable. Ample moisture; followed by cool weather. Wheat is in shot blade at practically all points and is heading out in some districts. Coarse grains are fair no damage from frost or hail, pasture and hay are good.

**Province of Quebec.**  
Oats have improved somewhat of late. Reports on hay prospects vary considerably, but on the whole an average crop is expected. Pastures remain in good condition. The late season has kept crops back and in general they are not in such good condition as this time last year.

**Province of Ontario.**  
The third week of June was very warm and during the last week showers have been general through out the Province and have stimulated growth wonderfully. Conditions generally show satisfactory prospects for a good all round crop. Hay a big crop and cutting well under way. clover excellent fall wheat is filling well and beginning to ripen; indications are for a good average crop. Barley a good crop. Peas good. Corn a little backward, but progressing rapidly. Weather conditions ideal for root crop. Spring wheat and rye acreage small; both crops satisfactory. Fruit prospects fair with exception of raspberries which are below the average. Pasture abundant.

**WARNING**  
You who use Palmolive Soap use it for beauty's sake. Be careful that you get it. There are many soaps made to deceive you. They imitate the shape and color. Names are coined to sound like Palmolive. Numerous soaps—some of them wretched soaps—are put in this guise to mislead you.  
Our interests do not matter, but yours do. Your demand is for Palmolive, because of what it does. You are seeking certain proved results. And you are cheated when you get a soap which can't bring those results.  
Palmolive Soap has world-wide fame because it aids complexions.  
The envied results, seen everywhere, have won millions of people to it. Thus Palmolive became the world's leading toilet soap. Not merely because of olive oil—that's ages old. Not merely because of palm oil—Cleopatra used that. But because our experts found a way to give those oils unique efficiency in soap.  
It is Palmolive Soap that has won beauty lovers as no other soap ever did. It is the Palmolive blend—based on 60 years of study—that brings those desired results. It is Palmolive which, by enormous production, gives you a 25-cent quality for 10 cents.  
That is what won you—that is what you want. A commonplace soap without those virtues will not suit or serve you. Then be careful. Note the name carefully. Be sure you get the wrapper shown below. Don't let anybody cheat you on a thing that means so much.  
THE PALMOLIVE COMPANY OF CANADA, Limited  
WINNIPEG, MAN. TORONTO, ONT. MONTREAL, QUE.  
Note carefully the name and wrapper

| October                      | 1,926,355 |
| November                     | 3,127,000 |
| December                     | 5,627,950 |
| Totals                       | 2,954,400 |
| Totals                       | 5,815,950 |

**Province of British Columbia.**  
All crops are doing well under favorable weather condition. A good crop of hay is being cut. Grain promises to be above average, but root crops below normal. Apples have set heavily in the Okanagan Valley. Cherries have been dropping and will be below average. The strawberry yield was below average and the market poor. Pasture is in good condition. The grasshopper menace is past.

**JUNE FIRE LOSSES.**  
Fire losses in Canada during the first half of 1923 are estimated by The Monetary Times at \$19,825,700, compared with \$19,642,750 for the first half of 1922. The total for the year 1922 was \$44,206,405. Occurrences and December having been especially heavy months.

**New Incorporations.**  
Authorized capital of \$18,655,000 is represented by companies whose incorporations were reported to The Monetary Times during the week ended June 30, compared with \$14,932,500 for the same week last year. A comparative summary by provinces is as follows:

| Province         | Week ended July 1, '23 | Week ended June 30, '23 |
|------------------|------------------------|-------------------------|
| Alberta          | \$ 1,435,000           | \$ 4,265,000            |
| British Columbia | 298,000                | 335,000                 |
| Manitoba         | 860,000                | 510,000                 |
| Ontario          | 11,480,000             | \$711,500               |
| Quebec           | 647,500                | 4,046,500               |
| Totals           | \$14,932,500           | \$18,655,000            |
