Newly Fitted and Fitted with GLASSES.

YESTERDAY a large quantity of ice was reported on the north side of the Island.

The schooner H. M. Crosby, with a load of P. E. I. potatoes, is at the canal.—Bras d'Or Gazette.

CHARLOTTETOWN Engineers meet for drill this evening at 8 o'clock. A full attendance is requested.

The funeral of the late James Howard of Cornwall will take place on Saturday afternoon at 3 o'clock to Cornwall cemetery.

OWING to the unfavorable state of the weather, the Oddfellows have postponed their parade till Sunday morning at 11 o'clock.

CAPTAIN ALBERT RAFUSE, Conquerall Bank, has passed a successful marine examination and has gone to P. E. I. to take charge of schooner Rosemary.—Halifax Herald.

THE Wesleyan says: In some envelopes for the prize Bible contest the following names have arrived from P. E. I.: Alice Balderson, Edith Penny, Beach Point, P. E. I. Charlie Crockett, Charlottetown.

THE tea given by the Loyal Circle of King's Daughters in St. Paul's school room yesterday afternoon, although not largely attended was a success. The tables were very prettily arranged and the ladies of the Circle deserve every credit for the many dainty things prepared. Part of the proceeds which amounted to about \$45 goes toward further furnishing of the room partially furnished by that circle in the new hospital.

A CORRESPONDENT of the Sackville Post of April 22nd says: A schooner arrived last evening from Prince Edward Island.—Will geese are beginning to move about quite freely but very few are shot owing to so much open water—Our American friends Messrs Wm. J. Morgan and brother will again this season carry their claims from Buctouche as formerly, but it is now said that they will also take from P. E. Island. This firm circulates a lot of money during the season.

THE result in Science was posted at Mc Gill yesterday. J. W. Fraser, Charlottetown, graduates in Electrical Engineering. In second year Frank Sterns, Charlottetown, leads in Mechanical Engineering course, with Scott prize and prizes for Descriptive Geometry and Physics. John F. Robertson, Charlottetown, gets second prize in Mining Engineering course with prize in Chemistry, Descriptive Geometry and Physics. First year—C. C. Richards, Charlottetown, passes in all subjects.

In referring to P. E. Island produce in Halifax the Maritime Merchant says:—There has been a good deal of buying at retail since last issue, and all the vessels in port during the winter have sold out completely and are gone away. For a while last week there were no schooners with potatoes in port at all, but since that time one or two arrivals have been reported. More vessels are expected along, as stocks on the Island are still quite large and of good quality. Oats are a little bit easier at 33 to 40c.; potatoes are quoted at 30c., and turnips at 25c., but the latter are said to be very scarce.

LIEUTENANT COLONEL MORRIS of Northwest mounted police left Wednesday for Moncton, his last recruiting station in the provinces. Morris took with him to Moncton the ten men secured in Fredericton and the five enlisted here. He expected to secure a large number at Moncton, having received applications from Nova Scotia and P. E. I. parties who are going to Moncton for examination. Morris will forward the men now enlisted and those who enroll at Moncton, to Regina, and will then proceed to Ottawa en route to resume his duties in the Northwest capital.—Halifax Herald.

Any young lady, desiring to learn typesetting, should apply at this office at once.

The Plant Line is distributing advertising matter. Mr. C. W. Blenkhorn has the matter in charge.

ARBOR Day in the provinces of Nova Scotia and New Brunswick is set for the 4th of May. It has been suggested that the schools in this province select the same date.

Mr. S. J. Willis of Kingston, who graduated in Arts at McGill this year has been appointed classical professor in the Montreal High School, during the absence of the present incumbent owing to ill health. The appointment is a popular one and shows Mr. Willis' high standing at McGill.

CAPT. A. A. TERRIO, of West Arichat, was in town Thursday. His schooner the D. T. Patchin was in port bound for Summerside, P. E. I., and Kingston, N. B., with a load of lime. Capt. Terrio is one of Richmond Co's leading residents, and one of the best known captains on the coast.—Bras d'Or Gazette.

THE GUARDIAN had a visit yesterday from Mr. Ernest Shipman of Shipman Bros. of New York. The Shipman Bros. give to the theatre-going public one of the greatest successes of the age, viz: Shakespeare's greatest comedy "The Merchant of Venice" in six acts. This play has been given in the largest cities across the border and before audiences competent to judge and no production of the great dramatist receives more patronage. Mr. Shipman's mission to Charlottetown is to see whether our people would patronize these plays if given with the same company and costumes as in larger cities. If satisfactory encouragement is forthcoming the company may be expected about the middle of May. The lovers of Shakespeare will no doubt extend sufficient encouragement to enable Messrs. Shipman Bros. to visit our city.

YESTERDAY morning flags flying at half-mast announced to the citizens of Charlottetown, that Mr. George D. Davison had passed away. Mr. Davison had not complained of illness but was in his usual health and spirits and retired at the usual time, the evening before. Not rising as expected, his aunt went to his room to summon him to break-fast and found it impossible to rouse him. Dr. Kelly was called and upon examination found that life was extinct. The call came suddenly and without warning and even as he slept his spirit passed away. The cause of death was heart failure. Mr. Davison was a son of Mr. Henry Davison of this city. His parents and five brothers are left to mourn. He was active in military circles and had risen to the rank of Major in the 82nd Battalion. He was identified with the Temperance movement being an efficient member of Orient Division, S. of T. was an active member of Zion church and a prominent Forester. Mr. Davison's comparatively early death has cast a deep gloom over the city, and he will be much missed in every branch of work that has for its object the good of the community.

THE Boston Trading Co. have recently completed a banana ripener and have it now in operation. The ripener consists of a room capable of comfortably holding 300 bunches of bananas suspended so as to allow of free circulation of air. When all the fruit is placed in this room that it is intended to ripen, the temperature is raised to 68 degrees by means of a gas heater and kept at that even temperature for 72 hours when they are yellow and ripe and ready for the retail store. An instrument of this nature is necessary for the successful handling of the banana trade. Another improvement installed by this company is a cooling room for California fruits, the first to be built in the Maritime Provinces. The Boston Trading Co. have opened a branch of their business in Sydney. The first wholesale establishment, so we are told, to open in that town. Mr. Cook tells us that the venture has proved a good one and that at both the Halifax and Sydney establishments they find just about as much business as they can attend to. Mr. Cook is well-known in Charlottetown as the purser of the Halifax.

OPERA! Opera! Opera! At the Opera House next Tuesday evening with a fine concert thrown in. Plan of seats now at Dodd's and Rankin's drug stores. Secure your seats at once.

A SLIGHT fire in Mr. John Joy's house, Great George Street, called out the firemen about nine o'clock yesterday morning. The fire was in a back upstairs room and was caused by two coats taking fire while hanging on the wall behind a stove. The fire was extinguished without the aid of the hose.

THE GUARDIAN regrets to learn of the death at Cornwall at six o'clock yesterday morning of Mr. James Howard, one of the oldest and most respected residents of that locality. Mr. Howard was suffering for several weeks with pneumonia. Besides a widow he leaves a family of five sons and seven daughters. The sons are: James, of Cornwall; George, Winsloe Road; Henry, York; William, South Wiltshire Road, and John out West. The daughters are: Mrs. Wesley Myers, Victoria; Mrs. Enock Drake, Cornwall; Mrs. Donald Murchison, North River; Mrs. Samuel Drake, West River; Mrs. John Weeks, Fredericton; Mrs. William Lowther, North Carleton; and Miss Charlotte at home.

THE Rev. W. Tremantle Webb gave a very interesting address in St. Paul's Schoolroom last evening. The proceedings were opened with prayer by the Reverend Rector of St. Paul's. The address was illustrated by quite a large number of excellent views thrown on the canvas by a very brilliant acetylene light. The Reverend lecturer spoke of the extension as well as the importance of missionary work in Calgary and throughout the great Canadian Northwest and made an earnest appeal to all churchmen for their prayers, sympathy and support. A collection was taken after which the Rev. Mr. Williams briefly conveyed the thanks of the audience to the Rev. Mr. Webb. The meeting closed with the Doxology and Benediction.

It is understood that during the coming summer an automobile will be seen on the streets of Charlottetown. A triumph for the automobile and progress, and a distinct defeat of the arrogant and aristocratic horse, is reported from Rochester, where the inventor of a horseless carriage was sued by the owner of an animal which took fright at the machine, and the court decided in favor of the defendant. It is now pretty clearly settled that a horse has no rights that an automobile is bound to respect. The power of the horse is rapidly passing. For long he has been an aristocrat, but now his reign is nearly over, he has always prided himself on the delicacy and sensitiveness of his nerves, and now that he realizes the dangers of displacement he goes into hysterics every time he meets a locomobile, hopping thereby to have his mechanical rival suppressed by the law's strong hand. But it is all a sham, and when he finds it is unavailing he will compose those troublesome nerves and keep his harness on. This contention of the horse is utterly causeless, and his case wouldn't stand in any court in the land. He is an unruly beast at best, demanding much attention, frequently running away and unduly endowed with a sense of self importance. The automobile, on the other hand, is a decent and well behaved creature, obedient, tractable and modest; never needs blinds and seldom runs away, but traverses the streets in decorous and becoming manner, looking neither to the right nor to the left. In the matter of character, conduct and disposition the automobile has a great advantage over the horse in the race for popularity.

Try one can of Oak Brand Condensed Milk and you will decide that it is better and cheaper than a cow. Ask your grocer for it. 30 ct.

12c.

for a pound and 2 ounces of good disinfectant Soap for house cleaning—ought to be a snap. The soap wears well, and we will sell in cakes if desired at 4c. each.

We Do as We Say

Quick Repair
