AXIS MILITARY

(Continued from page 1)

It is a key point in any eventual military operations. Its geographical position makes it a threat both to the French protectorate of Tunisia, on the west, and to Egypt and the Suez Canal, on the east.

By nightfall the two military chiefs had travelled only as far as Sicily. The plane in which they were flying to Tripoli was forced down at Catania by severe sandstorms sweeping up from the African desert.

A Fascist spokesman insisted the Italian-German military talks, which began during the weekend, were not for the purpose of the offensive plans of Britain and France.

A reliable authority reported that the Italian Minister to Egypt, Serafino Marzoni, who returned to his post recently, carried a personal letter understood to contain Italy's assurances of friendly intentions toward Egypt.

Fascists said the purpose of the letter was to counteract any alarm the Egyptian Government may have felt as a consequence of rumors based in part on Italian military preparations in Libya.

DR. GRANT SPEAKS

OTTAWA, May 1—(CP)—T. V. Grant, Lib. King's spokesman during budget debate in the House of Commons tonight he was unable to see why Hon. Earl Lawson (Con. York South) should complain about the lessening of taxation through removal of the import Excise tax and at the same time charge the Government with imposing too heavy taxation.

Had it not been for the interest the Government had to pay on the debt incurred by the surplus, he said.

I assume that should the Conservative Party return to power, Mr. Lawson, if he lives that long, because of his long parliamentary experience would be Minister of Finance. He would have to reduce the three per cent Excise Tax and add \$14,000,000 to the taxation of the Canadian people in the distant future.

Expressions of Confidence

Be it resolved that this convention of delegates assembled here today strongly endorse the leadership of the Hon. Dr. W.J.P. MacKinnon as leader of the National Conservative Party in this Province. From his past record we know him to be a man who has done great things for this Province not only in a political capacity but also in the promotion of societies for the relief and welfare of all that are afflicted in any way.

In the political field he has a record which has never been approached by any politician in this Province, and has done more for this Province in the way of increased revenue from Ottawa and in the National Conservative Party and education than any leader of any party, and we are confident that after the 18th of May he will continue the good work.

Find Suicide Note In Abandoned Car

(By The Associated Press) KANSAS CITY, Mo., May 1—A suicide note was found today in the automobile of E. L. Schneider, secretary-treasurer of seven corporations headed by boss T. J. Pendergast.

The car was parked on the Fairfax Bridge over the Missouri River near here.

Longer Sittings Planned For House

OTTAWA, May 1—(CP)—Indication was given in the House of Commons today by Justice Minister Lapointe that the Government is prepared to initiate longer daily sittings with a view to royal prorogation, May 19, if this is the general wish of all parties.

A conference of the party whips will be held to discuss the question. If there is an apparent desire among all parties to end the session before the Royal visit the Government will make the necessary motion to prolong the daily sittings. The House would probably sit from two o'clock in the afternoon to midnight with only one hour instead of two for the dinner recess.

Annual Meeting

(Continued from page 1)

(The above excerpts are from the annual report of the Red Cross for the year 1938. In 1939, on Feb. 17th, Rotary Club members made a further contribution of \$1,712 to the Handicapped Children's Funds of the Red Cross.)

Community Service Report

The Community Service Committee, in presenting its report for the year 1938-39, would draw attention to two specific projects upon which it has given some study and taken action during the year. The first project is that of public playgrounds.

The second project is one related to the public wash rooms in the Market Building. The committee views with concern the deplorable conditions which are known to exist in respect to these public conveniences.

The committee is of the opinion that action should be taken on two particular matters at least. First, the matter of illumination—arrow signs should be conspicuously erected on the east and west side of the Market Building and at certain points around the square indicating that there are public washrooms and pointing in the direction in which they are located.

Second, the ladies' washrooms, at least, and preferably both washrooms, should have regular continuous supervision and service, as required throughout each day from June 1st to 15th and from July 1st until the end of the exhibition.

This committee considers that the Market Clerk is not the proper person to give the supervision necessary to our public washrooms. For obvious reasons he cannot give necessary attention to the ladies' quarters, and intermittent service in the men's quarters does not meet the needs of the situation.

The matter has been discussed with the president of the Travel Bureau, and the committee holds the opinion that all possible pressure should be brought to bear from various quarters on the City Council, with a view to supporting necessary action in the solution of this urgent city problem.

This committee recommends that the Rotary Club go on record in respect to this matter, favoring the proposed action, and that the lines indicated, and that the secretary express the view of the Club accordingly in a communication to the City Council. It is suggested that the motion be carried by Rotarians should be as from the Club, and not by any one committee.

Rural-Urban Committee

"The committee was unable to arrange a number of the functions arranged during the summer of 1938 when it was hoped to hold the Rotary Club meet at different points in the country and have the Women's Institutes serve the luncheon. The idea, however, has met with favor both among the Rotarians and the farmers and Women's Institutes leaders. Mr. Emmann, of Beauce, I understand, is President of the district and would like very much to have the Rotarians come out to their district next summer. The usual number of farmers were entertained during the year at regular luncheons and there was special Rotary luncheon arranged during Farmers' Week. Rotary postponed its luncheon from Monday to Wednesday for this purpose and a very large representation of farmers met with and enjoyed the social gathering at the Canadian National Hotel on February 22nd. The Rotary scholarship of \$25.00 was awarded to Mr. Earl McRae of the highest marks in the rural science examinations held in July 1938.

It was voted by the meeting and approved by the directors that this scholarship of \$25.00 be an open standing highest in rural science in the P.W.C. entrance examinations would be given again this year.

Playground Committee

As a result of the discussions held up to date, it is the belief of this committee especially in view of the somewhat divided opinions of our Club members, that the investigation into the advisability of establishing public playgrounds should proceed thoroughly, if slowly, during the present year so that a properly considered recommendation can be given to the Club in ample time for work to be commenced on a playground, if approved by the Club, to be placed in operation for the summer of 1940. It is further recommended that the Club consider the possibilities of setting aside a sum of \$300.00 this year to be held as a fund to permit work to start on a playground in 1940, if it is approved; and if it is discovered as a result of further investigation that playgrounds are not possible of formation due to financial considerations or otherwise, this sum of \$300.00 be devoted to some other form of boys' work.

This recommendation is based upon the fact that in your committee's opinion a sum in excess of \$200.00 will be necessary from the Rotary Club for its initial donation towards the organization of even one playground and, therefore, it is anticipated that if the Club should decide to proceed with a playground in 1940, a further \$200.00 would be allotted during that season, giving an initial fund of \$400.00 to commence the project.

RUSSIA READY SHOULD WAR COME, CLAIM

War Might Is Displayed In Traditional May Day Celebration.

By WADE WERNER Associated Press Foreign Staff

MOSCOW, May 1—Soviet Russia paraded her military might across Red Square yesterday and Defense Commissary Klementi Voroshiloff declared that "we not only know how to fight—we love to fight!"

In celebration of the 50th anniversary of May Day (International "Labor Day"), Moscow soldiers and civilians marched past the Tomb of Lenin with 600 warplanes roaring overhead.

"Whoever dares to step across the threshold of our home will be destroyed," Voroshiloff said in his address.

Observers were impressed by the number of bombers—380 of the 600 warplanes which flew past the Tomb of Lenin, on which Joseph Stalin was reported to be standing. Military men, however, noted particularly a new type of anti-aircraft gun mount which never had been shown here before.

It was estimated that nearly 60,000 soldiers, sailors and air force men participated in the parade. More than 1,000,000 civilians trooped past the Tomb afterward. They were marching past—the so-called "Red Square" parade—toward the Square Voroshiloff, a few minutes before the parade.

In addition to his speech at Red Square Voroshiloff, a few minutes before the parade, said: "The whole war machine of capitalist countries is running at full speed; militarization of industry, speedily mobilization of the movement of troops, millions of men under arms, masses dragged toward the abyss of bloody turmoil and death."

"The unbribed Fascist military aggressors, intoxicated with easy victory, do not hesitate to threaten weak and frightened countries. Only the Soviet Union is watching calmly what goes on beyond its borders.

"If the enemy dares to lift its armed hand against our peace-loving people he will be ruthlessly destroyed on his own territory."

Change In Fiscal Policy Held Need

VANCOUVER, May 1—(CP)—Mayor J. Lyle Telford returned to the city today after a month's business tour of the east and said he was convinced the destiny of the Canadian people would not be a happy one during the next few years unless governments change their financial policy toward municipalities.

Speaking of his impressions at the conference of Canadian mayors at Ottawa, the Vancouver Mayor said provincial and federal governments "take from the municipalities many of their rightful shares of income and the same time burden them with greater responsibilities."

Dividing Large Clothes Closet

An efficient clothes closet should be more of a wardrobe than a trunk room. It should not be necessary to step into a closet in order to reach garments that are hanging in it.

Often a large closet—such as was the vogue 40 years ago—can be divided into two more convenient closets. A 2-inch solid partition of plaster over metal lath will be found the best type of partition to use in dividing closet space. Although such a partition is only 2 inches thick shelf supports are easily attached to it.
