

CHIEF SARK MAKES APPEAL FOR INDIANS

Inability to Sell Baskets Means Serious Privation to Native Indians.

Chief Jacob Sark of Lennox Island was in the city yesterday to visit Mr. W. Chester S. McLure, M. P., and Hon. Dr. McMillan, Provincial Minister of Health and Education, on behalf of the Indians of Lennox Island and has been promised any aid they can give.

Many white people of Prince Edward Island think we are getting lots of help from the Department of Indian Affairs, but we are getting nothing compared to what the Indians of Richibucto and other Indian reservations get.

Ellerslie L. O. L. Wins Silver Cup

The MacLean trophy awarded to Orange Lodges for degree work has just been won by Kenmore Lodge, Ellerslie.

CENTRAL GUARDIAN TRINITY TEA, Thursday, November 26th.

COME TO TRINITY tea and buy your Christmas gifts. Sweaters, mittens, aprons, fancy work of all kinds.

NOTICE—Lay aside your cares and worries and come to the B. I. S. Hall and enjoy a real social evening.

COMPLETING DRIVEWAY—Workmen were engaged yesterday in laying asphalt surface on the curbed driveway in front of the Canadian National Hotel.

TRINITY HOME COOKING Table loaded with good things, chicken jelly, tongues, pastry, cakes, etc.

THE FUNERAL of the late Edward Flynn will take place tomorrow morning at 8.45 to Saint Dunstan's Basilica, thence to the R. C. Cemetery.

THE FUNERAL of the late James Farquharson will take place from Mermaid Church on Thursday, November 26, service starting at 2.30, interment Mermaid Cemetery.

CAN. LEGION ORGANIZING BRANCHES

Eldon Will Form Branch On November 28th.

If the whole-hearted co-operation and enthusiasm manifest in the various centres throughout the Island with regard to Canadian Legion organization is any criterion, then it looks as if the B. E. S. L. will be well represented in the Province.

Last Wednesday the Tignish branch was organized and only yesterday Mr. James J. Lightizer Provincial President received a communication from Eldon stating that the returned men of that district are desirous of organizing a branch.

Japan Sends Reassurances To United States

(Associated Press) MOSCOW, Nov. 24—Abandonment of the five-day uninterrupted week, which Soviet Russia adopted throughout the nation last year in an effort to speed up production, and substitution of a six-day interrupted week was authorized tonight by the council of people's commissars.

Working hours were reduced at the time from 6 1-2 hours to 6 hours daily to compensate for the loss of time off.

The measure, which becomes effective December 1, the decree explained, was aimed at "correcting defects" encountered in the uninterrupted week. The action was regarded here as the most important since the introduction of the piecework system of wages.

The new working week will apply to all enterprises and offices, except those directly connected with serving the cultural and living needs of the population, such as co-operative stores, dining halls and transportation.

Canada's Loss In Diversion Of Grain Traffic

(Canadian Press) MONTREAL, Que., Nov. 24—Canada's greatest single problem, a situation bordering on a national tragedy in these times of distress, is the diversion to foreign ports and foreign territory of Canadian traffic to the value of more than one million dollars a day, according to Col. C. E. Phinney, president of the Halifax Harbor Commissioners, who arrived in Montreal yesterday after a tour of the west to check up on the grain shipping prospects for the coming year.

Canadian grain moving eastward for export during the past year has been handled through Canadian ports to the extent of some 47,000,000 bushels. "Unless the results of this enormous diversion are analysed," said Col. Phinney, "it is impossible to realize that thousands of United States citizens are receiving employment therefrom to the exclusion of our citizens, railway companies are in receipt of immense sums which should accrue to our own railways and hundreds of ships are being attracted to United States ports to the detriment of our own shipping."

"It is evident that this one matter of shipping is of profound significance to our national well-being. Tremendous sums of money have been expended on the provision and equipment of Canadian transportation routes and it is extremely poor national business to allow these facilities to lie idle at a time when traffic over Canadian lines is so necessary. "The need for traffic revenue lies at the roots of this problem. The magnitude of the diversion of traffic is not realized in Canada. In 1930 the port of New York handled a total of 57,000,000 bushels of wheat of which 34,000,000 were open every day in the year,

Visiting Cruiser Arrives In Port

The H. M. S. Saguenay, Commander P. W. Nelles, arrived in Charlottetown yesterday afternoon about four o'clock and is docked at Buntain and Bell's wharf.

The Saguenay, which visited Charlottetown in the latter part of the summer is the latest type of destroyer. She was launched last spring by the Thornycroft Co. of England, especially for the Canadian Navy. She carries a crew of eight officers and 150 men, all being Canadians. Her armaments consist of four 4.7 inch guns, two anti-aircraft guns and eight torpedo tubes.

Before coming to Charlottetown the Saguenay called at Halifax, Country Harbour and Port Hawkesbury. Upon leaving here, she will return to Halifax and about January 12 will sail for the south.

Soviets Adopt Six-Day Week

(Associated Press) TOKYO, Nov. 24—(A.P.)—Japan sent reassurances to the United States today that the conflict with China in Manchuria has not involved any violation of the Japanese government of the Nine-Power Treaty, the Briand-Kellogg Pact or the covenant of the League of Nations.

This position was set forth in a note sent to Ambassador Debutch for delivery to the State Department in Washington. The note was dispatched after the Ambassador had informed the Government the United States was concerned about Japanese military activity in the Tsitsihar region.

Reports reaching Tokyo indicated the possibility of further action in the field. Military authorities said they had been informed the Chinese were concentrating troops at Chinchow in alarming numbers.

The government had under consideration a plan to ask the League of Nations to induce China to withdraw her forces inside the great wall near Shanhaikwan and northward to a point south of the Lwanho River.

The League, it was said, might establish a neutral zone north of the great wall. Premier Wakatsuki, faced with criticism by the Opposition party, moved to consolidate his strength. He told minister of the Interior Kenzo Adachi, leader of the Opposition, that this was not time to install a Coalition Cabinet, as M. Adachi had advocated.

GREAT

Continued on page 10

of applications of moderate size were received and there is every indication that Saskatchewan will do splendidly despite unfavorable conditions. The committee took occasion to deny a report published in New York to the effect that the loan was to meet the annual interest charges of \$116,000,000 on Canada's National debt. None of the present loan would go for such a purpose, nor was it needed as the Dominion Government had taken care of such liabilities. The loan was primarily for unemployment relief and direct relief, to assist the provinces in financing and for the national railway.

Canadian and the remaining 3,000,000 were produced in the United States, an insignificant 5.3 per cent. At the same time practically all the liner tonnage leaving that port was ballasted with Canadian grain. As a result of this, the port of Halifax and the railway lines of the Maritime Provinces are not receiving any appreciable volume of the Canadian traffic although it is capable of handling with ease and dispatch the largest ships afloat and is open every day in the year,

Bennett Sees Thomas, Says He's Old Friend

"CAN'T WE CHAT WITHOUT AROUSING SUSPICION?" HE ASKS, WHEN BUTT-HOLED

LONDON, Nov. 24—Eluding reporters by entering and leaving the Dominions office by a back door today, Richard Bedford Bennett, prime minister of Canada, conferred privately more than an hour with J. H. Thomas, Dominions secretary.

When a reporter approached him later in the day in the lobby of the Mayfair hotel, Bennett appeared surprised that the fact of his visit to Thomas was known and declined to comment, saying: "I am here on a holiday and I am not giving interviews."

Asked how long he would be in England, the Canadian prime minister answered that he was remaining here for a week and would then go to the Riviera for a rest.

To a question as to what he talked about with Thomas his urbane reply was: "Oh, That! Can't two old friends get together for a chat without arousing suspicion?"

The interviewer pointed out, "But when two such distinguished statesmen as you and Thomas get together it is impossible to avoid talking affairs of state."

"We Canadians do not arrogate to ourselves the distinction of being called statesmen," was the bland rejoinder.

Hope Seen In Proposed Neutral Commission

(Canadian Press) WASHINGTON, D. C., Nov. 24—Great Britain and the United States exchanged views yesterday on the Manchurian situation with closer co-operation in efforts for peace their object.

Sir Ronald Lindsey, the British Ambassador, had a long discussion with Secretary of State Henry L. Stimson at the State Department. Neither could comment, but it was said authoritatively their conversation concerned points of the League of Nations council's efforts at pacification.

The only statement which the Secretary would make during the day on the general situation was that everyone was devoting every possible effort toward bringing peace.

Active discussion of the project to send a neutral commission into Manchuria to inquire into the situation is looked upon by United States officials as one of the most hopeful of recent developments.

WILL DISCUSS

Continued from page 1

the Maritime board, arrived in Halifax tonight. Several representatives were already here, and more will arrive during the course of the convention. J. G. Harrison, president, and F. MacLure Scanders, commissioner, of the Saint John board, led a delegation of six from the Loyalist city.

Several speakers will present their views of matters to be discussed by the representatives, at luncheon and dinner tomorrow. W. McL. Clarke, secretary of the Canadian Chambers of Commerce, will speak at luncheon, when the Halifax board, under president A. N. Jones, will act as hosts to the visitors. In the afternoon, A. P. Paterson, of Saint John, long regarded as an authority on maritime affairs, will address the convention on various phases of the Chignecto Canal proposition.

The afternoon session also calls for an address by C. B. Smith, K. C., Halifax barrister, on proposed amendments to the bankruptcy act. Premier G. S. Harrington of Nova Scotia will speak at the evening banquet.

Preparations For The St. Andrew's Dinner Completed

The regular monthly meeting of the Caledonian Club was held in Club Rooms, Victoria Row, last evening.

The Saint Andrews dinner committee reported everything in readiness for the dinner at the Canadian National Hotel Monday night next. A large number of tickets have already been sold.

The Burns' Concert committee stated that negotiations are being made with a Scotch singer from New York but owing to the fact that it has been impossible to secure a date at the Prince Edward Theatre the contract has not been closed.

A committee was appointed to carry on the organization of a Pipe Band.

The following new officers were installed: Chief, Aben McLean; President, J. M. McFadyen; Vice President, Malcolm MacKinnon; 2nd Vice President, John Reid; Recording Secretary, T. M. McMillan; Financial Secretary, A. B. Brown; Corresponding Secretary, J. Lawson; Treasurer, Frank MacDonald.

Dissatisfaction With Bruening's Advisory Council

(Associated Press) BERLIN, Nov. 24 — Chancellor Bruening's advisory council held its final session under the chairmanship of President Paul Von Hindenburg yesterday, and the net outcome of 26 days of labor was a lengthy document setting forth generalities about what should be done but failing to say how.

The meetings of the economic council brought the resignation of the three agricultural members and a declaration on behalf of the six labor members that they did not agree with Chancellor Bruening's conclusions.

President Von Hindenburg thanked the members of the advisory commission. Then he turned to his own cabinet ministers, adjuring them to decide "with all dispatch" what should be done to translate the council's principles into action.

The suggestions of the council received a frosty welcome from the afternoon press which for the most part expressed the opinion the country would be disappointed to realize valuable time had been lost and no accomplishments achieved.

Farmer representatives felt that the economic council was not doing anything decisive for agriculture and labor delegates were perturbed because no suggestion for a compulsory forty-hour week was forthcoming.

WORTH MORE AND LOOKS IT

"That honey is the finest I have ever seen," declared an Ottawa retailer the other day as he opened a case of 'Fancy White' new crop honey which had been graded and marked in accordance with the new regulations. "It ought to be worth 5 cents a pound more than the other lot anyway." His trade apparently agreed with him because it didn't take long to move the case. Just another case where quality counts.

When the customer knows what he is getting he is satisfied and comes back for more. The new honey grades are "Fancy," "Choice" and "Manufacturers," applying to the four classes "White," "Golden," "Amber" and "Dark"; each good and each suiting a special purpose.

FEEDING MORE CATTLE

The latest issue of the Live Stock Market Report shows a strong increase in the movement of store cattle and calves to feed lots. Up to the last week in October 73,000 head of store cattle had moved from stockyards to feed lots as compared with 60,000 for the past year. The increase in the movement of store calves is also holding own with the past year. The outstanding feature of the situation is the movement of western cattle into eastern feed lots, which for the 41 weeks of the year shows a total of 22,000 head, more than 100 per cent ahead of last year. At the present time orders for good stock exceeds the supply of the right sort of cattle. Lack of quality has had a detrimental effect on the market.

"Sedentary work," said the professor "tends to lessen the endurance."

"In other words," interrupted the smart student, "the more one sits the less one can stand."

"Exactly," retorted the lecturer, "and if one lies a great deal one's standing is lost completely."

NEED

Continued from page 1

ishment of a central jail for the Province where prisoners serving final sentences could be properly accommodated and disciplined.

We also consider the prisoners in this jail should have some manner of useful exercise and would therefore recommend that the lot situated in the rear of the jail be properly fenced and cultivated by the prisoners as a garden for the growing of vegetables to be used for maintenance of the prisoners.

We would also suggest a more strict enforcement of the automobile act especially with regard to lights and brakes. Respectfully submitted, James Sullivan, foreman, for self and fellows.

Chief Justice Matheson, in charging the Grand Jury, also made reference to the importance of the jail problem. Periodic disturbances in the jails, constituting a situation of long standing, could only be effectively dealt with by a central institution adequately staffed to repress such outbreaks.

Representing the Crown at yesterday's proceedings was Hon. J. D. Stewart, K. C., Attorney General. There are five criminal cases on the docket, the indictments being against the following parties: Bernie Grady, theft; William D. Clark, manslaughter; Daniel Campbell, wounding and assault occasioning actual bodily harm; Hubert McDonald, theft from person; William Richards, theft from a person.

The case of the King vs. Frank Richards for shopbreaking was tried at the June sitting and the jury disagreed. It will come up for retrial at this sitting.

There is only one case on the civil docket, which is an appeal by the Crown from a dismissal on a charge of purchasing eggs in contravention of the egg regulations.

JUDGE'S CHARGE

In his charge to the Grand Jury the Chief Justice stressed the importance of the performance of the various duties devolving upon the members. According to the Sheriff's report there are sixteen prisoners in the Prince County Jail; and two additional ones came in last night. The time is opportune, His Lordship believed, to give more consideration to the problem of crime and its punishment in our jails. It is a matter of notoriety that there has been misconduct in our jails so gross as to call the attention of law-abiding citizens to the matter. This should not exist. Prisoners are put there for punishment. They should learn that the way of the transgressor is hard. Whatever else imprisonment should mean, it should make the condition of life undesirable, so that people would not want to go there. The churches and other organizations do what they can to reform those who are willing to be reformed, but it is necessary to have the strong arm of the law if life and property is to be made safe. Prison discipline should be strict. Prisoners should obey the rules and if they do not do so they should be given additional punishment.

Officials are often criticised, especially the jailor; but considering the number of prisoners in Prince County Jail it is admittedly difficult for one man to take care of them. One factious prisoner can stir up a lot of disorder and make the jailor's life a hard one.

The situation to which he referred, his Lordship said, has been one of long standing and has interfered with the administration of justice. Prisoners sentenced to more than a certain number of months should be sent to a central prison. There should be such an institution in this Province, and the jails should be used for lesser crimes. Until we have such a system, we would not be free from trouble in the jails.

Reviewing the docket, his Lordship said the seriousness of the charge of manslaughter could not be over emphasized. The Grand Jury would have to consider whether the victim's death in this instance was caused by a pure accident or by negligence on the part of the accused. Car drivers should exercise care at all times, but more especially at night. The law demands this of all who use cars or other conveyances that may endanger life. Due care must be used, and the amount of care must be measured by the danger and difficulty in which the driver finds himself.

After being addressed by the Court the Grand Jury retired shortly after noon and returned at three o'clock with true bills against Bernie Grady and William D. Clark. The Chief Justice then addressed the Grand Jury briefly on the other three indictments. After a short absence the jurors returned true bills against William Richards and Hubert MacDonald. Daniel Campbell no bill.

After visiting the jail the Grand Jury submitted their report to the Chief Justice and were discharged. The court adjourned at five p.m. until 11 o'clock this morning when the petit jury will be empanelled, and the case of Frank Richards will probably be dealt with.

GRAND JURY

Following were the grand jurors: James Sullivan (foreman), R. Cameron Henderson, Fred Hardy, Frank Simpson, Peter Cameron, John W. Forsyth, D. J. Thompson, Archibald Linkletter and Heber Hardy.

NOTICE TO FOXMEN

I will be at the office of F. R. McLaine on Friday, Nov. 27, to receive fox pelts and arrange advances where required, for the Auction Sale of the Montreal Fur Brokerage Co. Ltd., of Montreal, to be held on Dec. 14th.

E. H. MONKLEY, Agent. 10446-11-25-31

Maritimes Well Represented At Tourist Meeting

(Canadian Press) TORONTO, Ont., Nov. 24—With representatives of the three Maritime Provinces, Ontario, Quebec, Manitoba, British Columbia, the Federal Department of the Interior and various railway and shipping companies in attendance, the third annual convention of the Canadian Association of Tourist and Publicity Bureaus opened today at parliament buildings.

Under the chairmanship of Hon. Justice Arsenault, of Charlottetown, P. E. I., matters of import connected with the tourist and publicity industry were discussed.

Report was given of a proposal made to Premier R. B. Bennett that the Dominion Government appropriate \$1,000,000 annually for five years to advertise Canada abroad. Although the Prime Minister replied that the financial demands upon the Government at present precluded the undertaking of such a heavy obligation, hope was expressed that the decision was not final.

In an address on the work of the state of Maine Publicity Bureau, H. B. Coe, Secretary of that organization, declared tourist travel through his state was showing a decided trend toward the Maritime Provinces, Quebec and Ontario.

Discussion of the regulation of motor camps and tourists' lodging houses was opened by Col. J. L. Boulanger, Deputy Minister of Highways and Mines for Quebec, who said the necessity of stricter control, in order to safeguard the comfort and health of tourists and the welfare of the communities visited, was being increasingly recognized. Legislation was contemplated in Quebec, he said, which would probably include the licensing of all places catering to tourists, their inspection by the health authorities. The imposing of such restrictions would operate to put undesirable places out of business.

Federal, state and provincial literature passes free between Canada and the United States, it was pointed out by E. R. Powell, managing director of the Toronto Convention and Tourist Association, but civic and other organizations must pay duty on booklets and pamphlets shipped in bulk. In addition Canada imposes a duty on such literature. Unless this inequality was wiped out, there was a danger of a corresponding duty being imposed by the United States. He urged the association endeavour to have the Canadian and United States governments enter into a reciprocal arrangement for lower duties or free entry of literature of this class.

The convention continues Wednesday.

Births, Deaths And Marriages

(By the Canadian Press)—Vital statistics for 53 cities in Canada for the month of October, issued by the Dominion Bureau of Statistics today, show there were 7,022 births, 3,673 deaths and 2,867 marriages as compared with last year. Births show a decrease of six per cent, deaths seven per cent, and marriages 12 per cent.

er three indictments. After a short absence the jurors returned true bills against William Richards and Hubert MacDonald. Daniel Campbell no bill.

After visiting the jail the Grand Jury submitted their report to the Chief Justice and were discharged. The court adjourned at five p.m. until 11 o'clock this morning when the petit jury will be empanelled, and the case of Frank Richards will probably be dealt with.

Following were the grand jurors: James Sullivan (foreman), R. Cameron Henderson, Fred Hardy, Frank Simpson, Peter Cameron, John W. Forsyth, D. J. Thompson, Archibald Linkletter and Heber Hardy.

I will be at the office of F. R. McLaine on Friday, Nov. 27, to receive fox pelts and arrange advances where required, for the Auction Sale of the Montreal Fur Brokerage Co. Ltd., of Montreal, to be held on Dec. 14th.
