

War—25 Years Ago Today

(By The Canadian Press) NOV. 1, 1918—British and Canadian troops forced a passage of the Rhodanus River capturing the town of Valenciennes. On the Italian front Austrian forces were in retreat; Allied armistice terms given to Austria.

FURS

The trapping season begins on Monday, November 1st. I will be buying all kinds of furs, and as usual paying highest market prices. There is a closed season on Beaver and Otter. Skunk skins are in demand and besides buying the skins we pay the bounty of \$1.00 for the nose. Call and see before disposing of your furs.

J. D. JENKINS Prop. THE ROYAL PACKING Company Charlottetown, P.E.I.

ORDER NOW

To avoid disappointment order your Fuller Bristle Comb (hair brushes) early as I can only obtain a limited supply. Stock on hand of all household and personal brushes. For particulars write or phone KEITH TOMILSON Charlottetown, R.R. 7 or phone 934-L. For later reference read adv. on top of page 42 in telephone directory.

Produce Prices

Table of Produce Prices for Montreal, Oct. 31, including various types of eggs, butter, and cheese.

Are you going to be a kangaroo?

A kangaroo's life is pretty soft. At an early age he gets a free ride everywhere. When he grows up, he uses his long legs and small brain to take him hoppity-hop, hoppity-hop, anywhere he wants to go. And he isn't going anywhere, anyway. No true Canadian wants to be a kangaroo. In the first place, he isn't interested in getting a free ride at the expense of others. In the second, he knows that the war isn't going to be won by hoppity-hop. Thirdly, the average Canadian is going somewhere. True Canadians are sharing in the cost of this war by buying Victory Bonds. They're helping themselves buy more Victory Bonds by cutting down hoppity-hop buying of needless luxuries. They're holding onto the Victory Bonds they do buy against that bright new world of tomorrow towards which we are all headed. NOW — are you going to be a kangaroo?

FIFTH VICTORY LOAN WELL SUPPORTED BY C. N. R.

MONCTON, N.B., Oct. 28—Latest figures covering subscriptions to the Fifth Victory Loan by Canadian National Railway employees on the Atlantic Region show a total of \$762,000 of regional objective of \$1,500,000 according to statement issued by J.F. Pringle Regional Vice President and general manager. Standing by divisions shows New Brunswick still in first place with 60 per cent of its quota followed by the Moncton division with 57 per cent and Halifax in third place with 55 per cent. Moncton stores 24 per cent. On the Moncton division the chief dealers office in Moncton oversubscribed their quota in the first three days of the campaign with 142 per cent; bridge and building crews at Amherst and London-derry N.S. and at Sussex and Hamilton N.B. obtained their full quota during the first four days. The bridge and building crew at Amherst obtained their full objective during the last three days. The Nova Scotian Hotel staff at Halifax has gone over the top with 136 per cent.

AIRLINE PASSENGER SERVICE

WINNIPEG, Man., Oct. 28—In the first nine months of this year Trans Canada Air Lines has carried 2,698,747 pounds of mail, 104,437 passengers and 675,015 pounds of express. G.T. Larson vice-president announced today, as compared with last year mail has increased by 1,207,004 pounds nearly twice the volume. There have been 25,441 more passengers and 355,546 more pounds of express considerably more than twice the quantity. In the month of September passenger increased by 4690 over September a year ago and mail increased by 108,773 pounds and express by 47,669 pounds.

BEEKEEPER'S WINTER PROGRAMME

(Experimental Farm News) Now that the bees are placed in their winter quarters, the beekeeper should have plenty of time to put his equipment in shape and make plans for the 1944 season. As the cost of apriary equipment has increased considerably during the past few years, conservation of all available supplies is an important consideration, says C. A. Jamieson, Bee Division, Central Experimental Farm, Ottawa. Drawn comb is the beekeeper's most valuable asset and unless properly stored may be severely damaged by mice or wax moth. Sort all combs carefully discarding those that are broken or deformed and store the good ones in supers. Stock these supers with an inverted hive cover beneath and another one on top of each pile to keep out the mice if larvae of the wax moth are present fumigate the combs with Paradichlorobenzene, using two tablespoons to every five supers. Extractions, uncapping knives, storage tanks and other metal equipment are becoming difficult to replace and should be cleaned and repaired if necessary. If any additional equipment is required for the next year's operation, order it early so that it may be assembled and ready for use before the rush of work next spring. It is a good plan to order pack- age bees now so as to avoid delay and possible disappointment next spring. The demand for packages was exceptionally heavy this past year, and many late orders could not be filled. Wax has many important uses and there is no better time to salvage it than during the winter months. All scraps accumulated during the summer, cappings, combs culled from supers and scrapings from other hive equipment should be rendered by the most efficient method and placed into the regular channels of trade as soon as possible. The importance of attending to many beekeepers' meetings as possible throughout the winter months will prove helpful. If there is not a local association in your locality, you might consider organizing one. Stronger organizations and cooperation will be needed to meet the problems that will arise in the future.

their winter quarters and require little or no attention for the next five months, the beekeeper should have plenty of time to put his equipment in shape and make plans for the 1944 season.
