Urges Alliance To Defeat Labor

Lord Rothermere Wants Socialists Kept Out Of Of- fice.

LONDON, May 29.—In a three-column article, that will appear in his newspaper, the Daily Mail, tomorrow under the caption "Keep Out the Socialists," Viscount Rothermere appeals for an alliance between the Conservative and Liberal parties against Labor. He declares the difference between these historic parties are insignificant, but that the differences separating them from Socialism are profound. The fusion would place at the disposal of the united party the services of Liberal leaders of outstanding capacity and character.

The paper contends this fusion, which might have been made before the general elections, will be forced eventually upon the Conservative Party, whatever success it has on Thursday.

BIRMINGHAM, Eng., May 29.—Speaking on behalf of the Unionist Party, here tonight, Rt. Hon. Neville Chamberlain, Minister of Health, said the party was not going to accept domination or dictation from Lloyd George, whatever the results of election may be.

LONDON, May 29.—With the election only two days away, great activity was displayed on the Stock Exchange market for "election majorities" today. In brief, the betting was five to three against a clear Conservative margin in the next Parliament; two to one against a Labor majority, and 50 to one against a Liberal majority.

Conservative "stock," after falling two points, rallied to two above yesterday's quotations at 272 to 76. Labor was unchanged at 244 to 48, and the Liberals lost three points at 92 to 86.

NEWCASTLE-ON-TYNE, England, May 29.—The Labor Party's nationalization proposals formed the feature of an address by Right Hon. Ramsay MacDonald, here tonight.

Russian Head- quarters Raided

(Special to the Guardian)
PEKIN, May 29.—Following his father's precedent, General Chang Hsueh-Liang, son of the late Manchurian war lord, Chang Tso-Ling, raided the Russian consul general's headquarters employing civil police, removed a truckload of documents and arrested the staff of 45 men and 3 women. Simultaneously the Russian consulate at Suifenho was attacked and secret documents seized. Manchurian authorities allege that information was received from the documents of the consulate of General Yu-Hsiang's conspiracy to deliver China to the Bolsheviks.

Foxmen Organize For Exhibition

Association Formed Last Evening To Direct Big Fox Show In Charlot- tetown Next October.

Upwards of thirty-five silver fox breeders attended the meeting in the Board of Trade rooms last evening called for the purpose of discussing the holding of a Silver Fox Exhibition in this Province. There were seven representatives from King's County, three from Summerside, the remainder being from Queen's County. In the aggregate they represented holdings of over three thousand animals. The meeting seemed to be unanimously of the opinion that it would be desirable to have a silver fox show. About 8.45 p. m. it was called to order and a chairman appointed in the person of Major A. S. Robertson. He briefly outlined the purpose of the meeting and asked for expressions of opinion from those present. Discussion was taken part in by Claude Holman, B. Leroy Holman, E. Monkley of Summerside, F. G. Kennedy, Southport, Major T. B. Rogers, W. Chester S. McLure, M. L. A., Col. D. A. MacKinnon, J. Walter Jones, Gavin Harding, A. C. Wood, John B. Roper, H. J. Kennedy, Dr. Notting, and others. Finally a motion was passed that a Silver Fox Show be held in Charlottetown in 1929. After some further discussion, it was decided to form an association known as the Silver Fox Breeders' Exhibitors' Association. It was pointed out that it would be necessary for the meeting to appoint a responsible committee to carry on the work of organizing and making necessary arrangements for a show and that this committee should be representative of the entire province. This was endorsed by the meeting and the following were elected. Chairman—J. Walter Jones. Vice-Chairman—Major A. Robertson. Secretary—Major T. B. Rogers. Directors: F. G. Kennedy, John B. Roper, Dr. E. S. Notting for Queen's, Douglas Bell, George Calbeck, Heath Bowness, Henry Gard, E. H. Monkley for Prince, R. W. Stewart, A. F. Campbell, Harry Lane, Willard Jordan for King's.

Industry Hard Hit By Treaty

(Special to the Guardian)
TORONTO, May 29.—A protest against "saddling one particular industry in order that some advantage may accrue to others," was made by F. T. W. Saunders of Montreal, acting president, at the annual convention of confectioners, biscuit and chocolate industries of Canada, which opened in the King Edward Hotel today.

"Our industry has been very hard hit by the Canada-West Indies treaty as the result of which we as an industry have been called upon to pay extra duty over three years of the sum of \$337,000," he declared. "The extra burden of this impost has been borne by the firms manufacturing cocoa and chocolate confections."

ESTIMATES APPROVED

(Canadian Press)
OTTAWA, Ont., May 29.—After a somewhat tempestuous passage all estimates of the Department of Immigration have been finally approved by the supply committee of the House of Commons.

OTTAWA, Ont., May 29.—An amendment involving a vote of want of confidence in the government will likely be moved from the Conservative benches on consideration of estimates of the Department of Agriculture. The amendment, it is understood, is now being drafted.

IMMIGRATION POLICY IS OPPOSED

French Canadian Mem- bers Oppose Policy of Assisted Immigra- tion.

(From Our Own Correspondent)
OTTAWA, May 29.—Something most extraordinary occurred last evening in the House, and something, too, which has its significance. In considering the item of \$1,000,000 for the Department of Immigration in committee of supply in connection with the empire scheme of settlement and other items of assisted immigration, Mr. Cahill, (Liberal, Pontiac), moved to reduce the amount by \$999,999.

Mr. Belanger, (Liberal, Bellechase), immediately seconded it, and was supported by C. G. Powers, (Quebec South). All three claimed that they did not want to injure the government, but said that they did not believe in assisted immigration at all. Mr. Cahill going so far as to say that he would abolish the department altogether.

The chairman finally called for the yeas and nays and the amendment was voted down. The object of the amendment was to serve notice on the government that its policy of assisted immigration was not in accord with the sentiment of French-Canadian members.

During the discussion previous to this incident, the Hon. Mr. Forke took occasion to observe in effect that he was "getting Hell" both ways, for not, on one side, trying to get more immigrants and, on the other for getting any at all. Many members no doubt sincerely sympathized with him on account of being on the forks of such a dilemma.

Yesterday afternoon and evening, the committee on Marine and Fisheries thrashed out the views of members on the Sockeye Salmon Treaty, General McRae and W. G. McQuarrie both Conservatives from British Columbia, directing the attack against it and another B. C. member, A. W. Neil, (Liberal, Comox-Alberni), holding the fort for it.

The main objections to the treaty are that it is placing the waters of the Fraser River watershed, 100,000 square miles in extent for sockeye salmon purposes under the jurisdiction of an international commission and that it will not work out satisfactorily.

The B. C. members claim that they want a treaty, but one which will not be influenced by interests of the state of Washington fishermen, who are in the first place responsible for the depletion which has taken place.

For the first time last evening a minister of the crown, the Hon. J. D. King, appeared before the committee to plead the cause of the treaty signifying the anxious desire of the government to have it approved this session. The minister's remarks were inspired by a suggestion made by A. E. MacLean, (Prince), that the treaty should be left over until next session for further consideration, a suggestion which had the support of these opposing the treaty.

Some remarks proposed by the minister as to the probable suitability of speeches made in the committee in parliament or in the hustings, but of no material value so far as the matter in hand was concerned, were not taken up.

Atlantic Flights Are Postponed

THREE DROWNED IS BELIEF

(Canadian Press)
HALIFAX, N. S., May 29.—Hope was abandoned today for the safety of Basil George and Frank S. Laughen when it was learned that wreckage identified as belonging to the motorboat in which the cousins left Terrence Bay, Halifax County, Monday afternoon, had been found by a fisherman four miles south of Sambro light last night. George and Frank were fishermen but Basil was making the trip for an outing. All were unmarried. It is believed the foot boat foundered. The weather has been fine since the craft set out.

1200 IDLE

(Canadian Press)
GLACE BAY, N. S., May 29.—Number 2 colliery, with a daily coal producing capacity of 4,000 tons was idle today after the day shift returned to their homes this morning, claiming the corporation had broken its contract with the miners by placing the "pillar" workers on double shift without consulting them. Work is not expected to be resumed tomorrow. The tie up affects about 1200 men.

19-Year-Old Negro Lynched

(Canadian Press)
ALAMO, Tenn., May 29.—A mob of 100 men early today entered the Crockett County jail here, removed Joe Baxley, 19 year old negro, accused of attacking the wife of a justice of the peace, and hanged him to a tree, four miles from town. On the tree with the body was a cardboard on which was written "let this hang here until four p. m. Thursday."

raised a bit of a storm in which B. C. Conservatives repudiated hotly the inference that it was a matter of politics with them. All the sections of the treaty had consideration and the committee adjourned until today at noon.

This morning in the House a bill was introduced to amend the Dominion Elections Act in accordance with the report of a committee that had been considering it for some time. Its effect will be explained tomorrow. T. L. Church, Toronto, who has been ill for some time took his seat again in the House and was given an ovation from all parts of the chamber.

The House of Commons this morning gave third reading to a bill amending the Supreme Court Act. This bill provides that a judge on resignation or retirement may hand his judgment in a case in any other judge who will be sitting at the time judgment is issued. A brief discussion centred upon whether judges should be retired at seventy five and if retired, having been appointed for life he should not receive a superannuation equal to his salary.

The Hon. R. B. Bennett contended that the sanctity of all contracts should be respected. This disposed of, the House again went into committee of supply on the immigration estimates, which were being considered at one o'clock. After the immigration estimates had been concluded the estimates of health and soldiers' civil re-establishment were proceeded with. These were under consideration at six o'clock.

At noon today the committee on Marine and Fisheries held a meeting in camera to discuss conclusions. The members divided ten to ten as to approval and the chairman, Capt. Wm. Duff, gave his decision in favour of the treaty. Another meeting will be held tomorrow to consider certain recommendations as to personnel of commission.

Monoplanes Green Flash And Yellow Bird Unfortunate In Take-off At- tempts.

(Canadian Press)
OLD ORCHARD, Maine, May 29.—Trans-Atlantic flights of the monoplanes Green Flash and Yellow Bird were definitely postponed for today after take-off attempts ended in near disaster after receiving weather advice which indicated fair weather for tomorrow. The fliers decided to abandon a second attempt today. Pilot Rogers Williams of the Green Flash said an early start tomorrow would permit a full day of daylight flying.

An examination of the Yellow Bird revealed that vibration of the motor had opened a seam in a fuselage tank, releasing a considerable quantity of gasoline. The french fliers then decided to dump their heavy fuel load and return.

OLD ORCHARD, Maine, May 29.—The monoplane Yellow Bird returned to the beach here 20 minutes after it had slipped off for Paris today. The Green Flash remained on the ground. When Lott alighted from the plane he refused to discuss the reason for it. He said: "I am sorry I do not care to talk now. You must understand it." He had dumped his gasoline before his return.

The Green Flash continued preparations for a take-off. Lott indicated he would begin immediate preparations for a second take-off. Motor trouble was said to have caused his return hardly more than 10 minutes after his hard won take-off from the beach. He had great difficulty in getting his heavily-laden ship into the air and was approaching a steel amusement pier before he had gained any appreciable altitude. He was forced to sea with such scant clearance that one wheel of the craft once actually touched the water.

WILL VISIT THE PROVINCE

Radio Broadcasting Commission Due in Charlottetown June 13th.

ST. JOHN, N. B., May 29.—The Royal Commission of Radio Broadcasting will arrive at St. John on Friday, June 7, and will meet here the following day. H. H. Brannen, district inspector of radio for the Department of Marine and Fisheries, made this announcement today.

The commission will be in Fredericton, June 6; Halifax, June 10; Sydney, June 11, and Charlottetown, June 13.
