

Crystals And Sussex In 90 Min. 4 All Draw

(Special to the Guardian)

Crystals and Sussex Dairy Kings battled ninety minutes to a finish in the fastest game played here this season. Crystals gained the lead in the second overtime period and looked good to win, but Sussex evened unexpectedly just before the bell. Throughout the last ten minutes of play Crystals tried desperately to notch another count while Sussex seemed satisfied to hold the draw. Wilson was a busy man and drew four times as many shots as Eady, but the Dairy Kings waited their breaks and took them and every Sussex attack was dangerous. Crystals were the aggressors last night but Wilson and his defense men efficiently foiled most of their attacks.

LeClair scored for Sussex eight minutes after the face off on his own rebound catching Eady out of the net after saving the first shot. Jack Schurman evened the score eight minutes later on a clever pass from Chick Gallant. For the first five minutes of play Crystals kept up a continuous barrage at Wilson who stopped everything that came his way.

For the first half of the second period the teams seasawed from one to the other till Hunter scored for the Dairy Kings after some passing work right in front of Eady. Just before the bell Hunter again realized from a mixup in front of the Crystal net and put Sussex two up on the score. With a two goal lead against them Crystals came into the third session determined to even the score and did by playing four men up and bombarding Wilson. White scored at the ten minute mark with a pass from Danny Gallant and seven minutes later Chick Gallant

evened the score after Silliphant and Gauthier broke through the Sussex lineup.

The first ten minutes of overtime play went scoreless with Wilson taking the brunt of the Crystal attack. Eady only stopped one shot in this session. Montgomery put the Crystals one up in the second overtime period at the five minute mark with a brilliant solo run. Lutz evened the score after a few seconds before the bell when he realized unexpectedly from a mix-up in front of Eady's stronghold. The third overtime period failed to bring forth the winner as neither team scored. Crystals were the aggressors in this session.

The lineups:
Crystals: Goal, Eady; Defense, Gauthier, Montgomery; Forwards, Schurman, Silliphant, Gallant, White, Wheaton, D. Gallant.
Dairy Kings: Goal, Wilson; Defense, P. Radcliffe, Lutz; Forwards, M. Radcliffe, LeClair, Frars, Kennedy, Chapman, Hunter, Harmer, Referee—Jack Carroll, Moncton.

SUMMARY

First Period
1—Sussex, LeClair, 2, Crystals, Schurman. Penalties: Montgomery, Lutz.
Second period: 3, Sussex, Hunter, 4; Sussex, Hunter. Penalties: Gauthier, 2, Lutz, Kennedy, Montgomery.
Third period: 5, Crystals, White, 6; Crystals, Gallant. Penalties: Montgomery.
Overtime: First 10 minutes, no score. Second 10 minutes, 7 Crystals, Montgomery; 8, Sussex Lutz. Third 10 minutes no score. Penalties, Montgomery, Lutz (Schurman)—8.

LOOKING 'EM OVER

(BY "TEC")

HOCKEY'S POPULARITY

The special train which was run from Souris on Monday in connection with the Abbie-Hawk game was the first "special" in twenty years, according to railway men.

STILL HAVE CHANCE

The Abegweits with their backs against the wall, must fight the good fight against Moncton Hawks tonight, if they hope to stay in the running for Northern Hockey League honors. The "Red Shirts" cannot afford to lose any more games. If they are defeated by Moncton tonight, then they must win their next three games, two with Fredericton and one with Moncton to remain in the running, providing Fredericton drops a tilt to either Dalhousie or Moncton. Quite a hurdle to clear, but strange things have happened. So here's hoping.

"MUCH PUT OUT"

Winnipeg hockey enthusiasts are quite put out over the suggestions made that they could strengthen their attack for the Olympic games. Their indignation takes the form of letters to the press in which civic pride rises in indignation to refute the suggestion that they are not the most capable amateur exponents that can be mustered to the cause. With as much restraint as can be shown in such a situation, it is pointed out that one way of winning games is to prevent the other fellow from scoring. The idea in effect is not to score goals altogether.

but more goals than your opponents—whether one or fifty. Winnipeg appeals for support from all sections of the country. Instead of jeers they demand cheers, a not unreasonable request, in view of the fact that they represent Canada.

"WILL BE HEARD FROM"

George Fillion, of Trenton, Ont., who has been used as utility player by the Fredericton Capitals, has returned home. The club officials, says the Fredericton Gleaner, state that "the release followed breaks of training and discipline. Fillion has his own version and states that he does not intend to let the matter drop."

"IN BEHALF OF THE MARITIMES"

President H. O. Schryer wired the Winnipeggers before their departure for the Olympic Games, "Please extend to Winnipeg senior hockey team, best wishes from the Maritime Hockey Association with the hope that they will retain for Canada the world's amateur hockey honors."

PRaise FOR LAWLOR

A New Brunswick Exchange says: Walter Lawlor of the Charlottetown Abbies centre ice players, is yet to see his twentieth birthday. He is a Charlottetown boy and is considered one of the best prospects in the Maritimes. In the games played on Fredericton ice by Abbies, Lawlor has been among the best of the Abbie forwards. Lawlor plays at 160 pounds and is of average height.

Boston 4 Amerks 3

BOSTON, Mass., Feb. 2.—The Boston Bruins tonight came from behind to tie the New York Americans with a determined third period rally but, in pressing for the winning score, left a wide opening which enabled Billy Burch to cage the tally that gave the star spangled boys a 4-3 victory.

CHRYSOSTOM MCCORMACK

The people of St. George's parish and the many friends in other parts of the province and abroad learned with deep regret that on December 3rd Chrysostom McCormack had passed away at the age of 78.

It is sad indeed to think that death must come and take from our midst those we love and cherish, and the bereaved family to whom he was such a kind father and friend, and whose welfare he had always at heart, feel their loss keenly, while a very real sorrow is experienced by neighbours and friends to whom Mr. McCormack's cheery kindness and warm-hearted hospitality have long been a byword. Many indeed are those who can recall the welcome and kindness received beneath his roof.

The deceased had been ill only a short time and family and friends held hopes of his recovery until within a few days of his death. During his illness he was visited daily by his pastor, Rev. J. C. McDonald, who at the last administered the final sacrament of the Catholic Church.

During the time that intervened between his death and his interment in St. George's cemetery, friends and relatives thronged his home to pay their last respects to the departed and to offer their sympathy and consolation to those who had been left desolate. The funeral was held on Saturday Dec. 5th, and was very largely attended. Pall bearers were, Patrick McIntyre, P. W. Farrell, W. J. McKinnon, John McLeod, Alex. A. McDonald and James H. McCormack. The funeral high Mass was celebrated by Rev. J. C. McDonald, who also conducted the services at the grave.

Fortune Awaits Lucky Claimant

(Canadian Press)
NEW YORK, Feb. 2.—There may be living somewhere in Canada an elderly man or woman whose claim would rank with those of any of the scores of persons here and in Europe who are seeking to establish legal rights to a share in the millions left to charity by Miss Ella Wendel, the last of the Wendels.

The surname would be Barney, and the claimant would be a son or daughter of George Stiles Dew, Miss Ella's natural uncle who, according to Arthur Garfield Hays, went out to Missouri from Baltimore before the civil war, got into trouble, changed his name to Barney, and emigrated to Canada.

FEDERAL BOTANIST PREPARES POTATO DISEASE CHART

Each year farmers who have included the growing of potatoes in their scheme of operations sustain heavy losses on account of potato diseases. With a view to helping in the selection of disease-free seed and also in the elimination of the more important potato diseases, Dr. H. T. Gussow, Dominion Botanist at the Central Experimental Farm, Ottawa, has prepared an illustrated chart showing in natural colours and natural size a range of thirty-six potato diseases. The chart shows tubers in natural colour, and also effect of the disease on the potato, in such a way that by a reference to the illustrations on the chart the disease can be immediately and definitely placed. An explanatory section provides the identification of each of these and a concise description. The one effective way of avoiding serious economical loss through potato disease is to make sure of using only bona fide Canadian certified seed potatoes when planting.

By direction of the Hon. Robert Weir, federal Minister of Agriculture, a supply of these charts has been made available to farmers throughout Canada without charge, and they may be obtained by writing to the Publications Branch of the Department at Ottawa.

Free-Minded: To be free minded and cheerfully disposed at hours of meat, sleep and exercise, is one of the best precepts of long lasting—Lord Bacon.

know them and the silent-prayer that the God who saw fit to take from them the cherished husband and father, will be bounteous in filling with Divine comfort the empty hearts.

Races On Harbor Ice Tomorrow

The postponed races of the Victoria Driving Club will be held Thursday afternoon, starting at 2 o'clock. The track committee will pick out a course on the Harbor ice today and will have everything in readiness for Thursday, when the races will officially open the ice racing program of 1932 for this city, and with a wealth of racing material. Stirring contests may be expected. All the "bearcats" are being primed for the fray, and several claims to "fastest horse" have been made. These will all be settled as the predictions are for a long, cold winter, with ice in May.

WING SHOTS 4 CANADIENS 4 IRON DUKES 4 RANGERS 1

In an Industrial League game at the Arena last night the Wing Shots held off the Iron Dukes of Holman's Ltd. to a 4 all score in a hard fought battle. The Wing Shots started away without their ace goalie Mills, who got his dates mixed and could not be found at starting time and the fast skating Iron Dukes reinforced by Bob Holman, former Summerside star tore in on "Flash" McDonald who was shifted from the forward line at the last minute by Coach Lem. Rush to fill in for Mills and banged in the counters before Flash knew what it was all about. Coombs, left winger getting the first and Bob Holman, who played a fine game at centre, getting the second two minutes later.

The Wing Shots counted midway in the period, when Cagney Bill Ryan, the finest play maker in the League, to ming with Ralph Bevans fooled the defence to beat O'Neill to make it 2-1. The Wing Shot defence of Ryan and Diamond played a hard bumping game to keep the flashy Iron Duke forwards away from Flash who had settled down and was turning in a good game. McInnis, Storey and Holman tore down time after time but the Wing Shot forwards were back checking like fiends and at the bell were carrying the battle to the Iron Dukes.

The Proposed Trade Treaties

WELLINGTON, New Zealand, Feb. 2. (Canadian Press Cable)—Prime Minister G. W. Forbes of New Zealand today admitted the Cabinet had not yet considered the proposed trade treaties between Canada and New Zealand, recently negotiated at Honolulu. It will be definitely taken up by the government before the special session of Parliament opening Feb. 25, during which it is to be submitted for ratification or otherwise.

Halifax Registrar Retires At 87

HALIFAX, N. S., Feb. 1. (By the Canadian Press)—John H. Barnstead, who retired on Saturday after 42 years in office as official registrar of marriage licenses, estimated he had issued 20,000 licenses since he was appointed in 1890. He relinquished also the post of head of the vital statistics department of the Nova Scotia government which he had held since 1908.

On Saturday he was summoned to the office of his chief, Hon. George H. Murphy, M. D., Minister of Health. There the Health Department staff were assembled to congratulate him upon his long record of service, and the minister presented him with a gold-headed cane, suitably engraved.

During his career he dispensed much good advice along with his licenses. He was both official and mentor. He blocked objectionable unions and assisted dozens along the trail of marital happiness. Although he is 87 years of age he is in good health, which he attributes to total abstinence from tobacco and liquor. The only reason he had to feel old, he says, is because so many sons and daughters of parents whose marriages he sanctioned years ago appeared before him for licenses.

Recounting his experiences, Mrs. Barnstead divided the city into two districts. Two thirds of the certificates he issued, he said, were for people living in the north end. He deplored the small number of marriages in the fine residential district of the south and west ends, where, he charged, "the young men spend their time in riotous living instead of settling down and establishing their own homes, and the girls demand too much from the young men."

He recalled that when he first took office the cost of a marriage license was \$2.50. Today it is \$5.00, and if he had his way the fee would be \$10, because he believes the extra cost would deter many not in a financial position to wed.

What is the work I have done today? Have I left a mark upon the way—a kindly word or a pleasant smile that has lingered in my heart awhile?
Ronald was staying with an aunt who held strong views on how little boys should behave. He was obviously unhappy.
"You're homesick," said the aunt.
"No, I'm not," was the answer.
"I'm here sick."

REGALS 2—BLOODHOUNDS 1

On Saturday night the Alberton Regals in another fast exciting hockey game posed out the Bloodhounds of Cape Traverse by the close score of 2-1. The game was very even and not until the final bell were the Regals certain of victory.

Reparation Claims Paid By Dominion

OTTAWA, Ont., Feb. 2. (By the Canadian Press)—Reparation claims of Canadians who were German prisoners of war, involving \$149,840 have been paid by the Dominion. In amounts varying from \$500 to \$3,000, the money will be distributed among 132 men who suffered some disability through brutality. One industrial claim, that of the National Steel Car Company of Montreal, Que., involving \$579,850 also was paid.

A commission headed by E. M. McDougall of Montreal heard 340 applications for reparations from former prisoners of war. Of this total, 132 were recommended for payment. Hearings were conducted last year in all the large centres from Halifax to Vancouver.

The National Steel Car Company's claim arose through the torpedoing by a German submarine of a vessel on Dec. 8, 1916, carrying a large shipment of cars destined for a French railway. The company claimed it had been placed in a precarious financial position because of a contract with the company. The principal of its claim was \$330,000 and the interest \$249,850.

Laughter is the mind's intonation. There are ways of laughing which have the sound of counterfeit coins—Goncourt.

JUNIOR ICE MEET TONIGHT 7.30 at the FORUM

Under the Distinguished Patronage of His Honor Lieut. Governor Dalton and His Worship Mayor Prowse.
Splendid Competition, Tickets 35c. Children 15c.

The Duncan Commission

(By Charles Bruce, Canadian Press Staff Writer)
SYDNEY, N. S., Feb. 2.—(By the Canadian Press)—Presentation of general cases completed, the second Duncan Commission on the Nova Scotia coal industry got down to something like a round-table basis today. The morning session resolved itself into enunciation of three views. First was the Union's claim that the Dominion Steel and Coal Corporation's allocation of extra allowances for local conditions, double and triple shifting; and for elimination of overtime rates, was a departure, in the first instance, from practice in the coal industry, and in the second, from general industrial practice, as well as that obtaining in the collieries.

On their part, corporation officials advanced the claim that such proposals were designed to create savings which would "temper the wind" to the lower paid worker, obviating the necessitated greater cuts in basic rates.

For the commission, Sir Andrew Rae Duncan called to the attention of both company and union, the 1926 recommendation that regulations in connection with general wage fluctuations, and with the adjustment of rates based on local conditions, be kept separate and apart.

The Imperial Conference

LONDON, Feb. 2. (Canadian Press Cable)—One of the first questions when the House of Commons re-assembles today was about the pending Imperial economic conference at Ottawa.

Malcolm MacDonald, Under-Secretary for the Dominions declined to say much because he expects Prime Minister R. B. Bennett of Canada would issue a statement in a few days, he explained. He agreed, however, the approximate date for assembling of the conference as given in the press—about the third week of July—was correct.

Maroons 4 Falcons 3

FORUM, Montreal, Que., Feb. 2.—(By The Canadian Press)—Montreal Maroons garnered two points here tonight and kept in step with the third place New York Americans by defeating Detroit Falcons, 4 goals to 3, in a National Hockey League match before a crowd of 9,000.

Makes Demand Of Japanese

(Special to the Guardian)
GENEVA, Feb. 2.—Great Britain and the United States have presented a demand to Tokio and Nanking that all acts of violence and preparations for same cease and that both sides at Shanghai withdraw their troops establishing a neutral zone, the Council of the League of Nations was informed today.

The announcement was made by Rt. Hon. J. H. Thomas, Secretary for the British Dominions who said that the two powers had also asked that negotiations begin immediately to settle the conflict in the spirit of the Kellogg Treaty against war. Italy and France are expected to join the United States and Great Britain with similar proposals soon it is understood.

Parliament Opening Will Be Sketched

OTTAWA, Ont., Feb. 2. (By the Canadian Press)—The ceremonies attendant upon the opening of Parliament on Thursday will be transferred to canvas, the artist to whom this assignment has been made being the eminent Academician, Richard Jack. The color which features the spectacle makes the opening an excellent subject for the artist; and Mr. Jack's work will take in the scene in the Senate Chamber during the reading by His Excellency the Governor General of the Speech from the Throne.

The painting, it is understood, is being executed for their Excellencies and not for the Government.
