THE community of West Cape has been saddened by the sudden death of Mrs. John Woods, which occurred last week after an illness of four days despite medical skill and loving care. Deceased was an unselfish, self-sacrificing friend, always ready to extend a helping hand in time of need. She leaves to mourn a husband, two sons and four daughters, two of whom were in the United States and arrived home shortly after her death. Surviving her also are two sisters Mrs. Wm. Gibbs, Summerside, and Mrs. Benj. Williams, Summerside, and four brothers Samuel Sweet, O'Leary; Wm. T. Sweet, Francis Sweet, Lot 6 and John Sweet, West Cape. To the bereaved relatives The Guardian extends sympathy.

NEW HOPE—NEW COURAGE. Persons whose nerves are affected get blue and discouraged, are easily irritated and annoyed and learn to look on the dark side. The restorative influence of Dr. Chase's Nerve Food soon shows its effect on the feelings. It gives new hope and courage, new energy and confidence. By creating nerve force it affords new vigor and vitality for both mind and body.

Trade Item: Mr. John T. Mills of Charlottetown, P. E. I., married Miss Janie Miller of the same Province the other day. The groom is black; the bride white. Notwithstanding the admission of the new partner there will be no change in the conduct of the business. The new Miller will run the Mills.

A Charlottetown paper says: It was Mr. A. E. Holland, of St. Eleanor's, not of the steamer Eleanor, who SEWED wheat on Saturday, as was stated in yesterday's Examiner. The error was typographical. —And that was not the only one, needless to say.

Sunshine Furnace

Regulated Like a Watch. The fire in the Sunshine Furnace can be regulated as accurately as a watch. At night shake down the ashes, replenish the coal, allow time for the gas to burn off, close your drafts—that's all. Then, in the morning slip into the hall, open the drafts, and in a few minutes you'll have a rapid, house-warming fire—no exasperating, freezing waits; no firing up, nor risk of the fire burning out during the night. The Sunshine Furnace is a scientific heater and fuel-saver from top to bottom. Sold by all enterprising dealers. Write for booklet.

Also fitted with our Tempered Steel Cased Bicycle Ball Bearings, and the stand is supplied with four nicely fitted wheels for convenience in moving it about and adjustable feet for holding it firm when churning.

When the churn is hooked to the standby lifting up on the bow, it can be wheeled about on the front wheels.
