—WINTER SPORTS.—The Kensington open-air rink was opened for skating on Tuesday night, January 6th and a large number took advantage of the recreation and exercise afforded thus. Owing to abundance of frost the ice was in excellent condition. The management intend having three nights weekly for hockey practice and three nights and three afternoons for skating, this arrangement being subject to the whims and fancies of the weather man. It is the intention to have a hockey team which is hoped will give a good account of itself when it measures sticks with teams from surrounding centres. The recent storm deposited goodly abundance of snow in the rink, but under the supervision of Mr. John Bernard, who has done much to promote the interests of the rink it was soon cleaned out. During the skating nights last week the number of skaters steadily increased, several being seen skating who declared they had not tried it for years.—K.
