MAY DEPRIVE IRELAND OF RAILWAY TRANSPORTATION

If Workers Continue to Refuse to Carry Munitions Government Determined to Use Measures to Secure Peace.

BELFAST, Oct. 14.—Sir Hamar Greenwood, Chief Secretary for Ireland, in a speech here today, announced that he and Viscount French and Sir Frederick Neville MacCreedy, Commander of military forces in Ireland, were in complete accord and did not contemplate resigning. He declared that the government intended to continue with the Home Rule Bill, which it prepared and would enlarge it in a most generous manner, especially in the direction of finances, thereby making a complete and final settlement of the Irish problem. "The Government will not be deflected in its course by promises of better measures or other measures," said the Chief Secretary. "It follows, therefore, that we won't tolerate an independent Ireland, or part of Ireland being independent. We believe in the Imperial and strategic unity of these Islands. We believe that this unity is fundamental for the well-being of the whole Empire. A real bar to the peace of Ireland and the immediate passing of a bill that would enable Irishmen to govern their affairs is a campaign of deliberate and callous murder, arson and intimidation in certain parts of Ireland. No civilized government could tolerate and I assure all those who read what I say, that it costs in men or money or time the Government will go forward and unflinchingly treat criminals like the criminals they are. We are breaking the terror in certain counties the boycott has ceased and it will cease everywhere.

Many persons left their homes fearing reprisals after yesterday's shooting affray in which Major George Smyth was killed. Professor Carrigan of All-Hallows' College, who was wounded at the time is reported to be dying in a hospital.

CORK, Oct. 14.—A hot battle waged early this morning in Dunmay, County Cork, when fifty armed Republicans made a determined attack on the police barracks which was defended by 2 "Black and Tans" and members of the police party. Attackers used firearms and bombs.

To Take Vote On Miners Strike

(Special to The Guardian.) TORONTO, Oct. 14.—Representatives of the United Mine Workers today after a discussion of the Royal Commission's report took up the question of a strike vote to determine whether the men employed in the mines under jurisdiction of District 26, shall accept the Commission's report or reject it. The motion to take a strike vote in all lodges was submitted. An amendment, which practically meant to empower the Executive to set a date for a general strike, was supported by a number of members of the Committee who contended that the vote recently taken in connection with the Commission's report empowered the Executive Committee to go ahead at once. The amendment was voted down and a motion taken that a vote of the lodges be passed. The date set for taking the vote is October 22.

Britain and France Will Not Interfere In Vilna Dispute

LONDON, Oct. 14.—Great Britain and France have no intention of precipitating a cabinet crisis in Poland by forcing issue in the Vilna occupation dispute, it was stated authoritatively at the foreign office. It was pointed out that any drastic move on the part of England or France at this time might result in forcing Prince Sapieha, Polish Foreign Minister, out of office and thus endanger the home Polish Government. The matter will be referred to the League of Nations.

Situation in Vilna Grave

LONDON, Oct. 14.—The League of Nations has sent a telegram to Colonel Chardigny at Kovno, who is in charge of the League of Nations Committee there, asking him to report fully on the Vilna situation, as to what treatment members of the committee have been given and assuring him of support of the League.

THE QUESTION OF EXCHANGE PUT UP TO GOVERNMENT

MONTREAL, Oct. 14.—At a meeting of the Dry Goods Association of the Montreal Board of Trade held this afternoon, it was pointed out that for customs duties the British pound sterling was still being valued at \$4.86 of Canadian money, unless an official certificate could be secured from Great Britain to the effect that British currency was only worth about \$3.86 in Canadian currency. It was pointed out that it was practically impossible to obtain such a certificate, the British authorities being naturally unwilling to admit officially that their coinage was depreciated. This means heavy discrimination against Great Britain in favor of the United States and even Germany. It was decided that representations should be made to Ottawa to have a clear regulation of this issue passed at once.

THE PRODUCE SITUATION SUBJECT OF ADDRESS

Mr. R. E. Mutch at Rotary Club Yesterday Has Something to Say of Crops, Prospects, Etc.

At the weekly luncheon of the Rotary Club held at the Davies Hotel yesterday Rotarian Reuben McDonald presided. Mr. Harry Gorbell, Secretary of the Y. M. C. A., is the latest addition to the ranks of local Rotarians and was accorded an enthusiastic welcome. A letter from the Secretary of the G. W. V. A. was read, inviting the Rotarians to the tea at the new Club rooms. It was decided to attend in a body at 5.30. Rotarians Walter Grant and Percy Turner were chosen to attend the Navy League meeting as delegates on Friday evening for the arrangement of preliminaries in connection with the campaign of the Navy League for membership and maintenance.

The principal speaker of the day was Rotarian R. E. Mutch who gave an interesting address on the produce situation in this province. Mr. Mutch admitted that the beginning of his statements must be taken tentatively as the seasons' business was not opening, and he could lay no claim to prophetic wisdom. If he could forecast exactly what would happen within the next six months in the business he could very easily retire for the rest of his life on the profits earned from such wisdom. Speaking of the produce business in general, however, he did not express any sanguine hopes. We should endeavor, he said, to discourage the too prevailing spirit of extravagance. The harvest just gathered has not come up to expectations. The grain crop is below that of last year. Oats and wheat have also fallen below that of last season's yield. The hay was perhaps the one exception to the unsatisfactory fodder crop yield.

Speaking of the potato crops Mr. Mutch, though he had no figures at hand, felt sure that the yield per acre this year is higher than that of last year. A greater care has been taken of the growing crops than ever before in spraying for blight and bugs. And it is very disheartening, after the care that had been taken with the crops to see the lower prices. The speaker thought it a great mistake that some provision had not been made in connection with the price of potatoes. He suggested the forming of a subsidized company to take shipments

SUGAR MARKET Causes Alarm

ST. JOHN, Oct. 14.—It is the opinion of those engaged in the sugar industry here that the Government action in prohibiting importation of refined sugar until the end of the year and the fixing of a price will contribute greatly to the relief of the serious situation by which some of the wholesalers were able to undersell refiners.

G.W.V.A. Club Rooms Opened

The new headquarters of the G. W. V. A. were formally opened yesterday afternoon by His Honor Lieut. Governor McKinnon. Major M. Nutt, Vice-President of the G. W. V. A., welcomed the visitors and also thanked the Ladies Auxiliary for the splendid repast served by them. Brief addresses were delivered by Premier Bell and Rev. (Capt.) Taylor. Rev. Dr. Gauthier who was expected to be present was unable to attend. The affair proved a decided success quite a large number of citizens being present who heartily enjoyed the splendid repast served by the ladies. The new club rooms which were beautifully decorated for the occasion by the ladies, were visited by all present, and many favorable comments were passed. Interesting features in connection with the new club house were the German trench mortar and two German machines. The Association is very grateful to Mr. W. T. Wellner for the loan of a splendid gramophone for the occasion, and Mr. Coffin for the loan of dishes. Among the donations received by the Association was a beautiful steel engraving from Mr. Benjamin Rogers.

DEATH OF MISS STEVENS IS BEING INVESTIGATED

Evidence Clearly Points to Murder, the Skull Having Been Broken. Only Clue is Suspicion Regarding Two Strangers

(Special to The Guardian.) EDMUNDSTON, N. B., Oct. 14.—Every indication is that the murder of Miss Minnie Stevens followed an attempt at criminal assault upon the unfortunate girl as loud and distressing screams were heard near the place where the body was found. The only clue to the murder points to two rough looking strangers who arrived in Edmundston on Monday afternoon and disappeared suddenly on Tuesday afternoon about the time the body was found. The inquest is to be resumed today.

The Coroner's jury empanelled for an inquest into the death of Miss Minnie Stevens met last evening in the Court House here. Through the delay of the members of the jury getting there the proceedings did not start until nine-thirty, giving only time for Dr. Laporte and Dr. Sormany's evidence at the autopsy on the body of the unfortunate girl. The Doctors testified that the skull had been fractured over the right eye, that there were marks on the throat showing that the victim had been throttled with bare hands, that fingers bore teeth marks as evidence of their having been bitten. An official statement of one of the doctors was to the effect that everything pointed to an attempted criminal attack.

OTTAWA, Oct. 14.—Fifty miles from Cape Breton and Prince Edward Island, out in the Gulf of St. Lawrence, are the Magdalen Islands with a population of about seven thousand.
