

### Does Your Fur Coat Look Like this ---

A few months have achieved drastic changes in fur fashions. Coats now are flared, they have added inches to their length, smart little capes make them strikingly feminine, collars and cuffs are unusual.

Our initial display of new Fur Coat Modes will give you an opportunity of examining the new silhouettes, and of selecting a style for the remodelling of your last season's coat. And this work can be done at a more moderate price now than later in the busy season.
